CATALOG OF
NEW YORK ENCASED

By: James M. Lawniczak
Second Draft: January 15, 2026

Introduction

This is now the second draft of the New York encased catalog, with 2093 listings. A earlier version of this catalog contained 1220 listings, including 582 listings from New York City, which included 121 listings from Brooklyn and 50 listings from Queens. It also included 134 listings from Buffalo, 37 from Rochester and 30 from Syracuse. More recently many new New York pieces came to light with the untimely death of Steve Tannenbaum and the sale of his vast collection mostly on eBay by Steve Haden ("SH"). Please help by sending information on new pieces or on pieces with incomplete information to the author at P.O. Box 14465, Cleveland, Ohio 44114, with complete descriptions and rubbings or xeroxes. Or send an email to ohioencased@gmail.com.

There are still many New York pieces not listed. New New York pieces come on eBay almost daily and a very substantial percentage of them are unlisted pieces. When I went over the tentative first draft that had 535 pieces listed with Joel Reznick and compared it with his collection to obtain new listings, only about a third of Joel's pieces were already listed. I am now certain that there are at least 2500 different New York pieces and my best guess is that the final total will be in the neighborhood of 3000, perhaps even more.

There are more encased from New York than from any other state, by a wide margin. I have reached this conclusion by collecting encased pieces and watching encased sales for many years. In my opinion, Pennsylvania is the state with the second most encased pieces and Illinois and Ohio are third and fourth. Also, there is no doubt but that New York City is the city with the most encased pieces to its name, even ahead of that great encased city, Fort Wayne, Indiana.

The fact that there are more encased pieces from New York than any other state or city should not come as any surprise. Encased pieces have been manufactured from 1900 to today, with the largest numbers made in the forties and fifties. For most of that period, New York was the most populous state in the country and also the center of commerce and trade.

There were more potential advertisers, merchants and events in New York. And so too, there are more New York encased pieces.

There have been many series, where more than one piece has been made for an event, a location or an advertiser. As would be expected, many of the special series of encased coins are from New York. The largest group of encased pieces from a fair or exposition is from the 1901 Pan American Exposition in Buffalo. I have written several articles on the encased cents from the Pan American Exposition in the TAMS Journal, the Casement and the Pan-American Daily, the publication of the Pan-American Expo Collectors Society, headquartered in Buffalo. The many different varieties that I have described in those articles are cataloged here.

New York City has what is probably the largest merchant series in terms of total number of encased pieces produced -- the Stork Club series. The Stork Club was a New York nightclub, with food and entertainment. The Club produced a great number of encased pieces from the mid thirties to the mid fifties, which are cataloged here. Buffalo has what I once believed was the longest running merchant encased series, although it now appears it is tied. The Gamler's Jewelers series spanned six decades, beginning I believe in 1927 and ending in 1977, a total of 50 years. To the best I can tell the Newark, New Jersey, Borok Furniture series began in 1934 and continued to 1984 (a piece I first saw in 2003), also a total of 50 years. Until I saw the 1927, now -10 Gamler piece in 2007, I thought that the Borok series was one year ahead.

The 1949 and 1950 RCA "MP" television series is not as well known as the 1948 Chevy series (for a listing of all known New York City 1947 or 1948 Chevy series pieces, see NY-NYC-AL-50), but it is a very interesting series nonetheless. These encased cents were given to anyone who placed an order for the new "MP" television. All pieces that I know of in this RCA series are from the New York City metropolitan area. The complete list of all seventy known pieces in the series is with the listing of the (NY)-BRX-TR-10 piece. Because the RCA series was ordered from Osborne, the invoices are part of the Osborne records posted on the Internet by Bryan Ryker. When I went through the Osborne orders to add the pieces not yet cataloged, there were forty-nine known pieces, so that twenty-one new pieces were so identified.

On the other hand, one top honor that New York missed out on is in the souvenir series. The number one souvenir encased series and also the longest running encased series is without doubt Washington D.C., which began producing souvenir pieces just after the turn of the century and continued making them until at least the early eighties (1982 is the last known piece to me. before the modern pieces started to be made in the 2000s). I have heard that these encased souvenirs were available for purchase as souvenirs at the bottom of the Washington Monument. In fact recently I bought a Lucite piece with four cents in it and an hourglass at the bottom of the Washington Monument. Encased coins are still available in D.C. In encased souvenirs only, New York comes in second with the Souvenir of Niagara Falls series (last known piece 1967), probably followed in unaccustomed third place by New York City souvenirs. However, the souvenir of Niagara Falls series certainly has the most valuable pieces, with the encased barrel and teddy bear.

Introduction to Encased Coins Generally

The following is essentially the same introduction that I wrote for the Ohio and Michigan encased catalogs, both of which preceded this one, with minor changes on New York specific issues. If you have not read the Ohio or Michigan catalog, I hope you find this introduction interesting and informative.

I will begin in this introduction by giving a very brief overview of encased coins. More details are available in several TAMS articles on encased by Michael Kolman, Bryan Ryker, Joel Reznick, Jim Hemphill and me. Of particular interest is Bryan Ryker's 1995 eighty page article and catalog of Fankhauser encased, followed by his 2025 update, each still available from TAMS or Bryan. Much more information is available in issues 1-28 (all issues available from me) of the Casement, the quarterly publication of the Associated Collectors of Encased (ACE), founded in 1995 and folded in 2003. There also was an internet club, Encased Collectors International, at www.encasedcollectorsinternational.org., which produced a series of newsletters and other articles and information, some of which is still available on the Internet. Bruce Perdue in 2026 sends out a newsletter to a list of encased enthusiasts.

Encased coins began in 1899. There were very few encased made in 1899, a few more in 1900 and then an explosion of encased pieces came in 1901. Encased have been made in every year since. There was a second explosion of encased in 1946 following the war and then a very large number of encased produced throughout the 1950s. Less encased were produced in the 60s and still less in the 70s, 80s and 90s. In the early 2000s, I believe that only around 10-20 encased were made in any year, if that many, but then when the Penny Press Mint started making encased pieces in 2005 and ECI worked to generate interest, more pieces have been made in the mid 2000s.

Most encased pieces are made out of aluminum. Indeed, the explosion of encased was made possible when aluminum became a cheap and abundant metal in the 1890s. Encased are struck by a die, with the cent or other coin placed in the middle of the planchet just prior to the striking. It is the strike that places the coin firmly in the encasement.

Before we start the catalog, we need to get some terminology straight. The side of the encasement with the advertisement or description of the event is generally called the obverse of the encasement, because that is the side that is of the most interest to collectors of encased. The side with the good luck message is called the reverse. There is no general consensus in the hobby as to what to call the aluminum part of the encasement, but I have seen and will use either "holder" or "encasement."

In most encased coins, the obverse of the coin faces the side of the encasement with the good luck message, which as you now know from the previous paragraph is the reverse of the encasement. The reverse of the coin faces the advertisement side of the encasement. My best guess is that this is so because the good luck message side was the top die, called the hammer die, while the advertisement was the bottom die, the anvil die. Thus, when the operator naturally inserted the coin heads up into the blank encasement for striking, the encasement's reverse die matched the coin's obverse. For this reason, in almost all of the cases where the encasement dies are not aligned, the cent is properly oriented with the reverse of the encasement.

In a very few encased, the cent is rotated in position as to the holder. This would only occur if the operator was indifferent to the position of the cent or made a mistake on an individual encasement. Some encased that often come with rotated cents are noted in the catalog. However, because it is rare that a cent is rotated, if the cent is not oriented to the encasement, this is a warning to check a piece carefully to determine if the cent is indeed the genuine original cent struck with the encasement.

Cataloging method

The New York encased cataloged here are generally listed under New York cities, alphabetically. The New York City boroughs are listed at the end of the New York City section. If a borough, such as Brooklyn, is specifically listed on the encasement as the city, then I have used the borough, and not "NYC" for the catalog number. Neighborhoods of the boroughs are listed following the borough they are in. Thus, "Long Island City" is under Queens, under New York City. New York City is the city that the pieces with "Long Island City" on them are actually from.

I have continued to use the cataloging number method from Bryan Ryker's 1995 TAMS article, where he gave numbers to the 600+ Fankhauser encased, including four New York encased. There is some controversy in the hobby on this, as many prefer to use the cataloging system that has been used for many years for tokens. Indeed, if I were starting from scratch with the first published encased catalog, I would use a different numbering system. However, I believe that Bryan's method is one of a number of possible reasonable methods and I have used it in the interest of conformity.

The catalog number is given first. It consists of four items: (1) the state, (2) the city, (3) a two letter code for the merchant or event, (4) followed by a two digit number, or on very rare occasions a three digit number. For all these encased, the state is New York, "NY." The city is a three letter description, usually the first three letters of the city unless there would otherwise be two or more cities with the same designation, such as the Bronx (BRX) and Brooklyn (BRO), or another three letter description better describes the city, such as "NYC" for New York City. If parentheses are around the state or the city, it means that that place's name is not on the piece itself and has been attributed or inferred. Review the discussion on mavericks below to see how that is done.

A two letter merchant or event description follows. That is usually the first two letters of the merchant advertising on the encased or the event. If an individual is listed, such as I.H. Godin, then I use the first two letters of the individual's last name. Look for the I.H. Godin piece under NY-LIT-GO-10, not -IH-10. The same is true if Associates or Sons, or some other description follows. Thus, Jane E. Condit Associates is under NY-NYC-CO-10 and C.A. Phillips & Sons is under NY-FKV-PH-10. However, if a full corporate name is given, then I will catalog the piece under the first two letters of the business, even if that is someone's first name or initials. Thus, I. Jablow & Co. is cataloged under (NY)-NYC-IJ-10 et seq. and not -JA-10; although Don Allen Chevrolet is NY-ALB-AL-10, as Don Allen Chevrolet is not the name of a corporation. The only exception is the first three Gamler pieces, which list a corporation, "Harry Gamler Inc." I have kept those with the numerous other "Gamler" pieces under -GA and not HA. Where the first word of a business simply identifies the type of business, such as Hotel

Knickerbocker or Club Romway, then I still catalog it under the actual name of the business, Knickerbocker and not Hotel and Romway not Club.

If there is both a merchant and a product advertised, then I usually use the merchant. For example, there are many encased pieces across the country where a shoe store also lists the type of shoes it sells. Those are listed under the merchant. An example is Shoe Nuf. Inc., a merchant from Levittown selling American Juniors Shoes. Look for that piece under "SH" and not "AM."

When there is a salesman and a company on a piece, I will use the company for the catalog number if I believe the address on the piece is the location of the company. I will use the salesman if I believe the address is that of the salesman. If I have no way to tell whose address it is, or if no address is given, then I will catalog the piece under the company's name. For example, look for the Pat Woods, I. Jablow & Co., New York City piece under IJ for I. Jablow and not under WO for Woods, because where no address is given, I use the name of the company.

Souvenir pieces are under "SV" and exposition pieces are under the first letter of the exposition followed by an "X" for "Exposition." Thus, the Pan American Exposition pieces have "PX."

The two digit identification number that follows starts with -10 and goes up by tens for different merchants and by twos for the same merchant. Room is being left to add new numbers when new pieces are discovered. Generally, the older encased receive the lower numbers. I have kept the same catalog numbers for the Fankhauser pieces that already have published catalog numbers, so that in those cases where an earlier merchant has the same first two letters as a Fankhauser merchant, the Fankhauser piece will still have the lower number.

After the catalog number comes the date, followed by shape and size. The coin is a U.S. cent unless otherwise noted. The metal of the holder is aluminum, unless some other metal is described. "/" separates lines on the piece; "//" indicates that the writing has gone from above to below the cent and "\\" means turn the piece over. This is also consistent with Bryan Ryker's method, not universally accepted in the hobby.

In the drafts of this catalog, I have felt free to change the catalog number from one draft to the next to correct mistakes and to make the -10 catalog number an earlier date than the -20. I feel free to do this as the catalogs are only "drafts." Once I am comfortable enough with this catalog to call a version the "First Edition," (which date may never come as this catalog has been in draft since inception around 25 years ago) then thereafter the catalog numbers will remain the same and I will work around the current numbers when new pieces are discovered.

Shape abbreviations:

RD = round, followed by diameter in millimeters, if known
RD-O = round, off center cent
H = horseshoe (will be noted if holed top or bottom)
SH = squat horseshoe (1901 type where the bottom is cut as opposed to curved) The squat horseshoes all have the patent date, "Pat. Apr. 11, '99" at the top of the reverse, between the

KMA and the NGB. I do not list that information on each piece. The April 11, 1899 patent referred to on the squat horseshoe piece is U.S. design patent no. 30,516, for an "Advertising Medal." It was issued to John C. Bean of Lexington Massachusetts. Almost all the SH pieces have 1901 cents, although some have 1900 and 1902 and a very few legitimate 1903. I know of no legitimate pieces with cents after 1903. See, NY-KIN-SV-10 for a description of the three types of reverse dies known for this piece.
H-FOB = horseshoe with fob at top
W = wishbone. The wishbone piece was made by Whitehead and Hoag Company of Newark, N.J., and that company's signature is on all pieces, unless weakly struck and worn off. It was the subject of design patent no. 34,523, dated May 21, 1901, invented by Albert R. Lache and assigned to the Whitehead and Hoag Company, both of Newark. There are no legitimate dates known of the wishbone shape after 1901.
B = bell
CP-R = chamber pot hole right (as viewed from obv.)
CP-L = chamber pot hole left (as viewed from obv.); made by Geo. H. Jung & Co. out of Cincinnati, as evidenced by the signature on many of these pieces (see (OH)-(CIN)-CH-12), a 1913 piece had the signature of Wright (OH-CIN-KI-10).

Reverse abbreviations --

APFOM -- A Pot Full of Money
IATNP -- I am the Nimble Penny
IBGL -- I Bring Good Luck (most times, the "Good Luck" is on another line, but I do not usually use the "/")
GLKMAP -- Good Luck/ Keep Me and Prosper
GWBASD -- Go Way Back and Sit Down
KMAAHM -- Keep Me and Always Have Money
KMAHGL -- Keep Me and Have Good Luck
KMANBCS -- Keep Me and Never Be Caught Short
KMANBB -- Keep Me and Never Be Broke
KMANGB -- Keep Me and Never Go Broke
KMAP -- Keep Me and Prosper
KMAYWHGL -- Keep Me and You Will Have Good Luck (usually the "have" appears on the line below)
KMFGL -- Keep Me for - - - Good Luck
LPPP -- Lucky Penny Pocket Piece

* is used in the description of pieces to indicate that there is some doubt about the word, letter or number used, either because of unclear reporting, or because the only sample piece available was too worn in that spot.

Victory Reverse

The Victory Reverse is the reverse made in 1945 to celebrate victory in WWII. Victory is at the top. V-E Day May 8 is in a scroll at the bottom left, V-J Day Sept 2 is in a scroll at the bottom right and World/ Peace is at the bottom middle. This is the type 1 Victory Reverse. There is another reverse without the scrolls and with "Year" at the bottom instead of

"World/Peace" but I know of no New York pieces with this type 2 reverse (and I am not yet 100% certain that this type 2 reverse is an original, authentic to 1945, reverse).

Acknowledgment of the Sources for the Encased Pieces -- without them this catalog would not have been possible

I would like to thank the many people who took the time to help with this catalog. Without them, the catalog would be much shorter. Some of the entries have been taken from various auction catalogs and some from Internet sales. Except for the most expensive pieces, the mail bid catalogs did not usually contain a picture of the item. In addition, the cataloger would usually just list the important information from the piece and not describe the entire piece, as I try to do here. If there are no slashes in the description of a piece in this catalog, that is because I have not seen the piece and am merely passing on the description from an auction catalog. If anyone wants to follow up on my work, most of these catalogs are available from the TAMS library.

The names of the contributors and the auction catalogs appear below, with the abbreviations that are used in this catalog to identify the source of each piece:

AA -- ACE (Associated Collectors of Encased, founded in 1995 by Jerry Binsfeld) auction
ACL - from the ACE Chevy Listing by Jim Hemphill and Joel Reznick, first published in the TAMS journals of February 1989 and June 1990 and also published in the Casement. New York was in Issue 9, August 1997. There were only 29 entries, which seems small for the most populous state. There was only one piece from the New York City area -- perhaps most of the New York City dealers did not participate in the program? These entries were not complete and there was no indication as to the date of the cent.
AJ -- from the personal collection of Alvin Jones
AK -- from the personal collection of Al Kohlhardt
AM -- ACE Maverick, followed by the ACE Maverick No. in parenthesis. Descriptions of mavericks are published in the Casement and ACE members identify them in subsequent issues of the Casement. Starting in 2004, BP moved his maverick column from the Casement to NTCA, and those pieces are listed under NTCA-M followed by BP's identification number.
AS -- from the personal collection of Al Schubert
ATCO -- from ATCO auction sales (ATCO was the predecessor token club before NTCA), sent to me by Terry Cross unless indicated otherwise
BM -- cataloged and sold by Bob Moffatt
BP -- from the personal collection of Bob Perdue or attributed by him using his National 1955 "Reference Book of Dun and Bradstreet," a credit rating guide to businesses
BR -- Bryan Ryker's TAMS article on Fankhauser encased (all New York pieces have the Earl Fankhauser signature in small letters at the bottom of the obv., not mentioned in the text of this catalog). Because New York is pretty far from Indiana, there are only 4 New York Fankhauser encased.
BS -- cataloged and sold by Bob Slawsky
BW -- from the collection of Bill Waken
CB -- from the collection of Chuck Berger
CBa -- from the collection of Carl Bangora
CCF -- from C.R. and Robert B. Clark's 2002 A Catalogue of Florida Encased Coins

CD -- C & D Gale, mailbid or fixed pricelist, it an item number follows the catalog number, then it was from the mailbid
CK -- cataloged and sold by Charles Kirtley, either by mail bid auction or fixed price list
DF -- from Duane Feisel's cataloging of certain types of encased, such as good-for encased
DG -- cataloged and sold by Dick Grinolds
DH -- from the personal collection of Dave Hunsuker
DL – from the personal collection of Denis Loring, who collects insurance related encased
DM -- from the personal collection of Donn Moody
DS -- from the personal collection of Dave Smith
EB -- auctioned on eBay usually with a scanned picture provided
ECIW – from the Encased Collectors International (the Internet Club) Wrangler maverick program, where the obv. of the piece was pictured on the Internet
EK -- from the personal collection of Ed Karn, owner of Allen's Coin Shop, which I saw on a trip to the shop
FC -- cataloged and sold in the Fat Cat Tokens zine by H.N. Elston
GP -- from the personal collection of Gary Potter
GW -- from the personal collection of Geo. Wean
HC -- from the personal collection of Harry Crow
HT -- cataloged and sold by Harold Trainor
HW -- cataloged and sold by Herbert Weiss
JB -- cataloged and sold by Jerry Binsfeld
JF -- cataloged and sold by Julius Fazekas
JG – from information supplied by Jim Grim, who is writing a book on Long Island tokens (Suffolk and Nassau counties only)
JL -- from the personal collection of Jim Lawniczak (that's me)
JR -- from the personal collection of Joel Reznick, ACE's head frog, an expert on the 1947-48 Chevy Series pieces and Maverick attributer extraordinaire. Joel spent a long time with me on the phone over three different calls, probably over 6 hours total, giving me the listings off his computer of his New York encased that I did not have listed at the time. His information has proved to be very accurate. An understanding of how his computer system works will help to understand some of the JR New York pieces -- Joel does not list the city or state with the words on the piece, instead he has pulled that information out to the beginning of his computer description piece. Therefore, on those pieces I am relying on Joel's information, it is not certain where the city and start are on the piece and also it is not 100% certain that the city and state appear on the piece, even though I have not used parentheses. This is especially true of the New York City pieces
JR-P -- from a group of interesting pictures of encased pieces that Joel Reznick sent me in 2003, I believe of the Michael Kolman collection
JZ -- from the personal collection of John Zelonis
KK -- from Kurt Kruger's auction sale #124, closing 8/27/92, selling the Michael Kolman encased coin collection, reprinted in the Casement, issues 25-28
LC -- from the pricelist of Lilac City Tokens, Rochester, N.Y., Gary E. Glise
MK -- from Michael Kolman's June 1988 TAMS Journal article (this is an excellent article and the first article known to me that was published on encased). The pieces referred to from this article were all pictured. The article was reprinted in the Casement, Vols. 8, 9 and 10
MM -- from the personal collection of Mike Macuga, who died in 2006

MR – from Melvin Reiter's Catalog of Milk or Dairy Tokens
MS -- Miscellaneous -- encased that I have seen (usually for sale)
NB -- from the personal collection of Norm Boughton
NP -- Norm Peters's pricelist
NTCA -- Sold in "Talkin' Tokens," the publication of the National Token Collectors Association, it was NATCA until 2002
NTCA-M -- listed in NTCA's "Talkin' Tokens," Bob Perdue's maverick column that started with the January 2004 issue, followed by the BP identification number in parenthesis, which is the NTCA issue it first appeared in followed by a number (starting with 1)
OR -- These are the encased purchase order records from the Osborne Coinage Co. Osborne made the Fankhauser encased pieces, and in his research on the 1995 Fankhauser article, Bryan Ryker (BR) was able to obtain their purchase order records from 1949 through 1969. He published them on the Interent in July 2008. That publication represented a huge gain in knowledge as to the number of pieces made and the location of the merchants ordering them. The site was taken down around 2015, but Bryan has resurrected it and it is now searchable, so extremely useful, type in "tokenmedal.org/Osborne" There are approximately 4750 orders online, 95 pages with 50 orders per page. The first order, for the very common Duquesne Brewing Company, Pittsburgh, piece shows how many of these pieces were put into commerce, as the order was for 200,000 pieces! But many orders were only for 500 pieces. It is no wonder that many of those pieces have not surfaced, with an original issue of only 500, with people losing them throughout the years, it is a wonder that there are a few left somewhere for today's encased collectors. There are, as seen in this catalog, many ordered pieces that have not yet surfaced to my attention.
PAECS -- Pan American Exposition pieces identified by members of the Pan-American Expo Collectors Society including Fred Lavin and Ron Gorkiewicz
PC -- from Paul Cunningham's mail bid sales -- the catalogs I have seen were from May 25, 1976 to May 30, 1977
PK -- cataloged and sold by Paul Koppenhaver
RB -- from the personal collection of Rich Bottles
RG -- from the personal collection of Rudy Gilberti, who stopped collecting NY encased coins around 2005 and then sold off his collection when he retired in 2007. He helped me with quite a few pieces in this catalog
RH -- cataloged and sold by Rich Hartzog, who died in December 2017
RM -- cataloged and sold by Richard Mitchell of EXO Coin & Token, Oklahoma City
RP -- from the personal collection of Randy Partin
SA -- cataloged and sold by Steve Alpert; Steve's Token and Medal Mail Bid Sale Number One closed on March 26, 1980
SH -- cataloged and sold by Steve Hayden
ST – from the collection of Steve Tannenbaum of Brooklyn, who had an incredibly vast New York encased collection, until his untimely death in late 2011
TACT -- described for sale in TACT National Token and Collectible Trader
TC -- from the personal collection of Tom Casper
TCn -- from the collection of Tom Cain, Jr., posted on the ECI website under the Show Case, Tom Cain, Jr. Photos
TCr -- from the personal or trading collection of Terry Cross
TH -- from the personal collection of Terry Hess, who collects 1947 encased coins

TW -- cataloged and sold by Tom Wall
VN -- from the personal collection of Vic Nolan
WB -- posted on the Internet site of the Worldwide Bi-Metallic Collectors Club, 5/3/99
WL -- price list of Williges, Wheatland CA

Different Dates and Different Dies

If more than one date is known for a piece, I list the source of each date, separated by a semi-colon, with the source of the earlier date first. If I can verify that the pieces were struck with different dies, a completely different catalog number is given. If the encased pieces with the different dates were made by the same dies or if I cannot verify that different dies were involved and the dates are close enough together so that it is likely that the pieces were struck at or near the same time, only one catalog number is given. However, where the dates are far enough apart so that I believe it is likely that there was more than one die involved, where there is a difference in price because of a different date or mintmark or where the items have already been cataloged with -A and -B designations, such as the Fankhauser pieces, then I do use the -A and -B designations. The longer I work at this, the less I have to use -A and -B, as I examine more and more of the different pieces.

If the letters on two similar encased pieces do not appear in the same position relative to each other, the two pieces must have been made with two different dies. Dies wear out and have to be replaced. If there is a gap between strikings, it is possible that the original die has been lost, so that a new die must be prepared. Usually the engraver tries to make the new die as close to the previous die as possible, but never exactly succeeds. The lettering is often just a bit off.

Examining various dies and the dates in the pieces suggests to me that most encased pieces were made with original rolls of the same date and mint marked cents. Thus, on a large series, such as the Gamler series and on the City of New York City of Wonder series, there is not a lot of variation in the dates of cents used with the same dies. It is the rare piece that appears to have been made with a wide variety of cents. An example of that is the maverick Roosevelt Savings Bank piece attributed to Brooklyn, (NY)-(BRO)-RO-10, which used a variety of circulated cents when it was made in 1920 or so.

On some of the “Souvenir of” pieces, the “O” and the “F” of “of” are widely separated. That is what is meant in this catalog by the use of “widely separated.”

Holes in Encased

If I believe that a piece was holed as made, I note that, along with the location of the hole. Unless the hole is very crude or goes through letters, it is usually difficult to tell if the hole was added to all of the pieces made or if someone punched a hole only out of the piece in question. This is because the holes were not built into the planchets, but rather were punched out after the piece was manufactured. Therefore, a well made, punched, hole by a consumer will look exactly the same as the hole made by the manufacturer. A drilled hole is easy to tell and is what is meant when “crude hole” is used.

Pricing -- An Art Not a Science

I have received comments that readers of this catalog appreciate my giving an estimated value on the pieces. I have tried to do that, even though I often do not have enough information to do anything but make an educated guess. I intend to add more values in subsequent drafts of this catalog. In recent years, the market for encased pieces has weakened, I think mostly as interested parties, such as myself even, age and are less interested in being heavy buyers.

Where a value is given, it is intended to include a range of plus or minus about 20%. It is not intended to be specific. I could easily put slightly different prices on the same item depending on when I placed the value. Both $7 and $8 really only mean a price between $5 and $10, and a reasonable sale could even occur slightly outside that range. Unreasonable sales are not all that rare as often neither the seller nor the buyer has a good grasp on the value of the piece.

Because of the small market for encased, pricing can vary substantially. Two people who really want a piece can bid an item up beyond any prior expectations. On the other hand, prices can be very soft if demand drops only a little. Experience on eBay shows that once one person acquires a piece, the next sale can realize substantially less, because one less collector is now bidding on the piece. Values are based on my experience with these and similar pieces and upon auction prices realized.

The value given is based on a nice, problem free EF piece. Reductions should be made for pieces with problems or which are more worn than EF. Pieces with nice cents with luster, particularly nicer Indian cent pieces, are worth more. A nice encasement, particularly an older encasement, with no noticeable marks and no tinpest (graying) is also worth more. The values are only for original, non-replaced coins. If the coin has been removed and replaced, the value drops dramatically, especially among the common pieces. I have written extensively on replaced coins in my 1999 TAMS article and in the Casement. Keep in mind that the original coin was struck with the encasement. The coin should therefore be in the encasement tightly and cannot be pushed out with pressure. There should be no light showing between an original coin and the encasement. The original coin will lie even with the encasement or under it -- it will not stick out over the encasement. Replacement coins are a particular problem with Indian cents, probably because many of the original Indian cents were removed in order to spend them.

There may well be marks on the coin from its second striking in the encasement. This can include a flattening at the rim, markings made from the encasement die at the edge of the coin and even marks made on the high points of the coin by the pressure of the strike. Unless egregious and detracting, these marks will not reduce the value of the encased piece. In fact, they can enhance it by giving evidence of the originality of the cent.

Maverick Identification and Attribution

A “Maverick” is a token that is not self identifying as to the location of the advertiser or event. The word maverick is an eponym, a word whose origin is from a person, because it refers to a Texas land-baron and politician, Samuel A. Maverick, who lived in the

mid-1800s and who refused to brand his calves. Some mavericks are more obscure than others. On some encased pieces, even though the city or state is not listed, it is fairly obvious where the piece came from, either because the described entity is well known or the address given can only be from one city. An example of the famous entity type is the Souvenir of Coney Island. This immediately suggests the famous amusement park at the south end of Brooklyn. An example of the address type would be the 14th Street Bank maverick, located at 5th Ave. and 14th Street, which immediately suggests NYC. Broadway, Madison and Lexington are other streets that suggest, but do not prove, NYC. The phone number can be helpful too. CHelsea was an exchange, to the best I can determine, only in Manhattan and in Chelsea, Massachusetts.

Other mavericks require research. Valuable tools include old city and state directories; the Internet, in particular the map and nearby business features of a search engine like Yahoo; and the telephone and email: calls to local libraries, historical societies or even the businesses themselves.

Some tokens are mavericks even though they give some information as to location, because that information is ambiguous. Tokens that list only the city and not the state can be a problem if there is more than one of those cities in the country. A good example is the Howard Motor Sales, Albany, piece. I originally thought that was from Albany, New York, the largest Albany in the country, but it turned out to be from Albany, California.

Some mavericks will never be located, like the "Babe's My Pal" piece. Well, oops here. After I wrote that last sentence, the "Babe's My Pal" piece has actually been identified to Des Moines Iowa, where Babe had a famous restaurant. How about, "The Union," now that one would be almost impossible to absolutely verify. Others are unlikely to be attributed, such as "Globe Loan Co.," because even if a Globe Loan Co. is found, there is usually no evidence that it is the right one.

The tradition in token collecting has been to attribute tokens to cities. Some tokens, however, were not made for cities, but instead for larger geographic areas. A good example would be the encased piece in my collection with 1937 date: "Souvenir Northwest Territory Celebration 1787-88 1937-38." I know that there were 150 year anniversary celebrations in several towns in Ohio and Indiana and one in Minnesota (I have a similar token that has a Minnesota city on it) and I suspect elsewhere in the Northwest Territory. This token cannot be attributed to any city or state because its scope is broader than that -- it covers the whole Northwest Territory. It is not a maverick because its location is identifiable from the information on the piece itself. It belongs in a catalog of encased mavericks not identifiable to any particular state.

Because of the tradition to identify tokens to cities, tokens of corporations are usually attributed to the corporation headquarters, even when the token is national in scope. The best example of this is the attribution to Detroit Michigan of the Chevrolet 1947 and 1948 encased generic pieces announcing the Chevy encased series: "S.A." Chevrolet's Got It! Even though the piece is certainly meant to be national in scope, tradition puts it in Detroit, the headquarters of the Chevrolet division of General Motors. There are many examples of pieces attributed to corporate headquarters in New York: Doubleday Books and Records to Garden City and American Express to NYC are but two of them.

Some pieces did not list a city because the city was not important to the person who commissioned the piece. Examples of this are National and State Park pieces. The park is the focus of the piece and not the city. In the interest of uniformity, I have decided that if a piece refers to a single geographic area, I will attribute it to a town. Thus, the Letchworth State Park pieces are attributed to Castile, the mailing address of the park. Every place has a mailing address and every mailing address has a city and state. It is my job to determine what that mailing address is.

ACE had a Maverick identification program. Members could submit their mavericks, which were given a number and other members submitted attributions. If a New York piece has been identified by this program it is listed as AM(x). For the last several years of its existence, the source of the attribution has been listed in the Casement. Once ACE folded, the Encased Collectors International began a "Wrangler" maverick program on its website. Beginning in January 2004, Bob Perdue began to write a column on encased mavericks in NTCA's "Talkin' Tokens," which he has continued sporatically. He keeps a listing of known maverick encased and on occasion publishes it in an index.

The Internet has been very useful in identifying mavericks. Help comes from the map and business location programs, both Yahoo and expedia (www.yahoo.com and www.expedia.com). Help also comes from the phone exchange website, http://ourwebhome.com/TENP/TENproject.html, which contains listings of exchanges from various cities. Also, the search engine, www.google.com is very useful to find cites that refer to old merchants.

It is quite possible to wrongly identify a maverick, either because of sloppy research or because a piece is ambiguous and the wrong business has been identified. Some reasonable assumptions have to be made. For example, technically the Souvenir of Cleveland and Souvenir of Columbus Zoo pieces are ambiguous mavericks, because they do not clearly identify Ohio cities. However, a reasonable assumption is that the more famous Ohio cities are indeed the cities referred to, and that if Cleveland, Tennessee were to make a souvenir token, it would list Tennessee on the piece. I list a piece as verified if it is very probable that it is from that location based on those kinds of reasonable assumptions. If there is doubt about the attribution, I list the piece as Unverified, and further research is required. I have tried to list the source of my attributions here so that anyone coming behind my work will have a good start.

Because New York City was the financial center of America throughout the period when encased coins were being made, there are very many New York banks and savings institutions represented in this catalog. The website www.scripophily.com/nybankhistory.html was extremely helpful in identifying New York banks. The site contains a listing of almost all of the New York banks, including founding and merger dates. Based on my comparison of the information on the site to other information, it is extremely accurate. Where dates and merger information are given in this catalog about New York banks, it almost certainly came from this site.

If you are looking to identify a Maverick, please use the Maverick Cross Check at the end of the catalog. There are still quite a few unverified encased. If you have any information on these unverified Mavericks, please let me know.

Merchants

A trip through a group of encased, and thus through this catalog, can be an interesting journey into the commercial and historic past of the 20th century. The pieces show small and large merchants, small and large towns and historic places and events. Each piece has an interesting story to tell.

One of the things that I have tried to do in this catalog is to find out something about some of the merchants who made the encased to give the encased pieces a human touch. I read somewhere that the half life of a business in this country is five years. For that reason, most of the merchants who made the encased pieces reported here are no longer in business. But some are, even at the same address. On the other hand, the places, the towns and the streets, have generally, though not always, remained the same over the years. I intend to add more color stories to future drafts and editions of this catalog.

New York Geography

New York is one of the larger of the eastern states. In the west, it lies between Pennsylvania and Lake Erie and Lake Ontario. The large cities in the west include Buffalo at the eastern end of Lake Erie (and a large snow area due to the westerly winds coming off that lake), Niagara Falls, the honeymoon center, just north of Buffalo on the Niagara River, Rochester on Lake Ontario, Syracuse east of Rochester a bit south of the southeastern part of Lake Ontario and Elmira and Binghamton, just north of Pennsylvania in the middle of the state.

The eastern part of the state extends much further north because Lake Ontario is no longer in the way. The Appalachian mountains run through the central part of the eastern section and are the Catskill Mountains in the south and the Adirondacks in the north. The large cities to the west of the mountains are Rome and Utica along I-90 in the center of the state.

The Hudson River flows out of the Adirondacks, mostly due south to New York City. Starting in the north, the large cities on the Hudson River are Glens Falls, Troy, Albany (the state capital), Kingston, Poughkeepsie, Newburgh and then the big one, New York City.

New York's western border is, from the north to south, the Niagara River and Ontario Canada, Lake Erie and Pennsylvania. Its southern border, from west to east is Pennsylvania, then New Jersey and then the Atlantic Ocean. Its northern border from west to east is Lake Ontario, the St. Lawrence River and then Quebec. Its eastern border from north to south is Lake Champlain and Vermont, Massachusetts, Connecticut and the Atlantic Ocean.

New York City geography is generally given under New York City. Long Island, which is the largest island in the United States portion of the Atlantic Ocean, is partially in New York City and partially beyond it, even though many people who live in Brooklyn or Queens deny being on Long Island. They live there nonetheless. Long Island consists of four counties with British names, Kings, Queens, Nassau and Suffolk. Kings and Queens counties are in New York City. Nassau is the next county after Queens and takes up the next twenty miles of Long Island as completely metropolitan suburbia. It is comprised of two cities (Glen Cove and Long Beach) and three towns (Oyster Bay, Hempstead and North Hempstead, each of which are divided into numerous villages and hamlets). Suffolk County takes up well more than half the

island and is very suburban in its western part and fairly sparsely populated out in the far east. There are five western towns, Babylon, Brookhaven, Huntington, Islip and Smithtown, each of which is divided up into various villages and hamlets.

Just to show you that almost all of the people in the state of New York live in or near New York City, I will list the most populous New York counties in order of population at 2000, source the Rand McNally 2000 Millennium Atlas: 1. Kings (Brooklyn), over 2.2 million; 2. Queens, just under 2 million; 3. New York (Manhattan), just under 1.5 million; 4. Suffolk, 1.36 million; 5. Nassau, 1.3 million; 6. Bronx, 1.2 million; 7. Erie (Buffalo), 944,000; and 8. Westchester (north of the Bronx), just under 900,000. 7 of the 8 most populous New York state counties are in the NYC metropolitan area. Hamilton, in the center of the Adirondack Mountains, is the least populated county with just 5100 people, down from 5279 in 1999.

On to the actual cataloging of New York encased:

Unidentified or Statewide

[ ] NY-XXX-SV-10. 1934, H, fob top. New York/ [nothing below the cent]\\ KMANGB/ IBGL. This was an unknown New York piece when it came on for sale on eBay in November 2014, and I bought it. JL $25

Accord (small town in the Catskills, about 65 miles NNW of NYC)

[ ] NY-ACC-AN-10. 1948D, RD,35mm. Anderson/ Chevrolet Sales// Route 209/ Accord, N.Y.\\ KMANGB. When this came on for sale on eBay in 2004, it was an unlisted 1947-48 Chevy series piece, with only the 1949D piece known. It appears now that Anderson made this 1948D piece as part of the Chevy series, and liked having an encased piece to give out so much, they made another a year or so later when they ran out of the first piece. The two pieces are noticeably different in that this piece has much larger letters and lacks the two stars that the 1949D piece has. On this piece, the engraver first cut the "D" in Accord too far to the right, and then tried to remove it. The remnants of that "D" are still there a bit to the right under the new "D." JL, EB $20

[ ] NY-ACC-AN-12. 1949D, RD,35mm. Anderson/ Chevrolet Sales/ [star on each side of the cent]// Route 209/ Accord, New York\\ KMANGB. The reverse looks like the same die as a 1948D Chevy series piece from Miamisburg, Ohio, for Lackner Chevrolet, OH-MIA-LA-10. The "Never" is slightly shorter than the other words in KMANGB, and the bar extends from between the And and the Never to a point directly over the right prong of the V. A second piece came on eBay in November 2002 and I asked the seller to confirm that the cent was in tight. He did and said he was certain it was an original cent. EB, AK, TCr $15

Albany (capital of New York and on the Hudson River about 130 miles north of New York City)

[ ] NY-ALB-AL-10. 1948, RD,35mm. Don Allen Chevrolet// Albany, N.Y.\\ KMANGB. Don Allen Chevrolet, listing three locations in Albany, took out an ad in the 1950 Albany phone directory. I wonder if this is the same Don Allen who had the Chevrolet dealership in Lockport, which is near Buffalo and thus pretty far from Albany (see NY-LOC-DO-10), and also the dealership in New York City (NY-NYC-AL-60)? JL, EB, ACL $16

[ ] (NY)-(ALB)-CA-10. 1950S, H, holed at top. Caplan Bros. [hole] Furniture Corp./ 234 S. Pearl St.// 40th/ Anniversary\\ KMANGB/ IGBL. The New York DOS shows Caplan Bros. Furniture Corp. as a corporation (having changed its name to Concord House West Inc.) with initial corporate filing date of 1949, in Albany county with address in Schenectady. 234 S. Pearl is in downtown Albany. Caplan Bros. Furniture Store is listed under Albany in the 1940 D & B. That is sufficient to identify this piece to Albany. JL $10

[ ] (NY)-(ALB)-CD-10, 1977, H, holed at top. [hole]/ Merry Christmas// C.D.C.D.A.\\ KMAHGL/ IBGL. I did a Google search for "C.D.C.D.A." and it is the Capital District Coin Dealers Ass'n., based in Albany. The site listed several upcoming shows and gave Joe Marcelli as a contact person. I called Joe and he told me the C.D.C.D.A. was founded around the early 1960s and he joined in 1974. He remembered the horseshoe token with the penny inside that was made for the December show and given free to all attendees. He thought about 500 had been made. The group has had ten shows a year in Albany since the 70s. JL $6

[ ] (NY)-(ALB)-CD-12. 1981D, H, holed at top. [hole] Merry Christmas// C.D.C.D.A.\\ KMAHGL/ IBGL. A different obverse die for this piece 4 years or so later. The letters are

much larger on this piece than on the -10, and the letters on the bottom are curved, while on the -10, they go straight across. Looks like the same reverse, to the best I can tell. JL $6

[ ] NY-ALB-HE-10. 1952, green plastic H with paper insert. On the paper: Henry Kass/ Inc./ 130 Quail St./ Albany, N.Y./ 5-7366\\ Cash Registers/ Adding/ Machines/ Calculators. VN $12

[ ] NY-ALB-HO-10. 1901, RD,35mm. [a star with five rays coming out of it is on each side] Home Savings Bank// Albany, N.Y.\\ Penny Saved, Penny Gained [similar to the KMAAHM rev. but with different words]. This is the only example of this reverse that I know of. The Sixth Ward Savings Bank was established in 1871, but only a year later changed its name to Home Savings Bank of the City of Albany. After a series of mergers, acquisitions and name changes beginning in 1971, the bank has become the Trustco Bank, with offices all over Albany. There was another "Home Savings Bank" chartered in 1893, but I do not think that was the bank that issued this encased, as its successor bank is Greenpoint, which is located in New York City (see (NY)-NYC-NO-30). One of my examples of this piece has an 1885 Austrian Kreuzer in it. It is in tight and level with no evidence of tampering, but I am skeptical. The only way this could be a legitimate piece is if the operator used the Kreuzer while he was making a run of these pieces around 1901. One of the more common Indian encased. JL, EB, JR, RG, KK254 and 806 $25

[ ] NY-ALB-KO-10. 1948, RD,35mm. Sam Kolker, Cut-Rate Jeweler// 635 Central Ave./ Albany, N.Y.\\ KMANGB. JL, EB, JR $10

[ ] (NY)-(ALB)-KO-14. 1962D, RD,35mm. Sam Kolker// Oldest Cut Rate Jeweler// 635 Central Ave.\\ KMANGB. Still at the same address, now Sam has become the oldest, but no longer the only, cut rate jeweler. JL $8

[ ] NY-ALB-LI-10. 1948, RD,35mm. Livermore Chevrolet// 489-95 Central Avenue/ Albany, N.Y.\\ KMANGB/ "S.A". The last period is outside the quotes on these pieces. JL, EB, JR, ACL $16

[ ] NY-ALB-MC-10. Unknown date, image looked like a 40s or 50s piece, H, holed at top. If Lost Return to V.F. McCarroll, Albany, N.Y.\\ KMANGB/ IBGL. This was sold without cent in a three piece lot on eBay in March 2004. The seller said the penny was missing, the piece had lots of wear and it was hard to read. Vincent F. McCarroll is listed as owning a service station in the 1940, 1953 and 1960 D & Bs. EB $12

[ ] NY-ALB-MI-10. 1889, 1905, 1910 1912, 1915D, 1924 or 1928, RD,32mm. Miller Bros./ Jewelers/ [a star with rays coming out to the top and bottom on each side]// 34 S. Pearl St./ Albany, N.Y.\\ KMANGB/ IBGL. The 1915D in an encasement is a bit more common than the 1915, but the 1912 is a real rarity – the standard 1912 cent used in encasements was the D. The 1915 is probably the most difficult year to obtain of the 1900s year set. To the best I can tell, all dates have the same dies, suggesting that this piece was probably made in the late 20s with circulated cents. Even more support for this came in 2003, when these dies came on for sale on eBay with a 1905 Indian cent, then in 2008 with the 1889 cent. I have not seen the 1910 piece but it might be a different die based on JR's description, with no "S" designation before the street, although he might just have left that off. EB; EB; JR (I now suspect the JR piece has these dies and a circulated cent); EB; JL; JL, ATCO 11/28 p.28; EB $25 (for an Indian original cent or the 1912 or 1915D), $15 for one from the 20s.

[ ] NY-ALB-MI-12. 1946, RD,35mm. Miller Bros./ Cash & Credit Jewelers/ 34 So. Pearl St./ Albany, N.Y.\\ KMANGB. Now, certainly a new piece from the same establishment at the same address, around 20 years later than the first piece. MM, EB $12

An 1898 Indian came on for sale on eBay in December 2014, and the cent looked in tight from the picture, and with a 1909 Lincoln coming on in May 2016, I suspect circulated cents. EB; EB; RG $35

[ ] NY-ALB-PH-10. 1926, H. Good for 5% Discount on Any Purchase/ [five pointed open centered star each side] Harry Phillips// Complete Home Furnisher/ 141-145 South Pearl St./ Albany, N.Y.\\ KMANGB/ IBGL. Alexandria Bay (on the St. Lawrence River, about 30 miles N of Watertown)

[ ] (NY)-(ALE)-AD-10. 1954D, H, holed at bottom. Souvenir of/ Adventure Town// 1000 Islands/ [hole]\\ KMANGB/ IBGL. There is a posting about barns on the Internet from Gordie Little who worked as a "make-believe cowboy" at Adventure Town in the 50s. I emailed him and he graciously replied and gave me the following information: Adventure Town was right on the edge of Alexandria Bay, part of the Edgewood Resort. It was designed by the late Arto Monaco of Upper Jay, who also built the Land of Make Believe (see NY-UPP-LA-10 and -12) and the North Pole and Santa's Village (see NY-NOP-SA-10). Gordie reports: "Like many, similar theme parks, Adventure Town died a natural death a few years after I left and is nothing more than a nice, open field these days." EB $15

The Thousand Islands is a resort area. On its website, www.visit1000islands.com, it says to send any inquiries to the 1000 Islands International Tourism Council, in Alexandria Bay. Therefore, I have attributed this piece to Alexandria Bay. JL, MM; EB (rev. not pictured); EB (rev. not pictured), EK $12

[ ] (NY)-(AMI)-AM-10. 1952D, H, holed at top. Amityville Batt [hole] & Ignition Svce. Inc./ Dependable Service// 1927-1952/ 25 Years\\ KMANGB/ IBGL. BP found this company in his 1955 Dun and Bradstreet, coded as a truck and bus body business. It was also listed in my 1940 D & B, matching the name on the piece exactly (except Battery and Service were written out). The corporation is also listed on the New York Department of State website, as inactive with an initial filing date in 1934. This is not necessarily inconsistent with the information on the piece itself -- the business could have started in 1927 as a d/b/a. The two eBay pieces were both certainly 1952D; the AM report listed a 1952. I would be very surprised if the cent in this piece is really a 1952, as there are very few original 1952 cents in encasements. JL, EB, AM(927) $10

Apr. 23, 1901/ I'm it [on side of cent]// Pocket Piece [two horseshoes around cent], the same reverse die as die B4 in the Pan Am clover series. I have now seen this piece with a replaced 1902 cent in it (in person) and a 1904 (eBay). A 1902 came on for sale on eBay in February 2015, without any of the usual markings on the cent obverse opposite the clover. Maybe it did not come with original cent? Cunningham's piece was also a 1902, Grinolds's and the ATCO pieces, 1904. DG incorrectly attributed the piece to Hudson, New York. The Hudson referred to on this piece is the river not the city.

According to an article on the Internet by Joseph Brennan of Columbia University, Mt. Beacon is just southeast of Beacon, on the Hudson River. At the top of the mountain was a casino and a group of summer bungalows. It was a popular destination for day trips from New York City. The Mount Beacon Incline Railway took people to the top of the mountain. It was designed by the Otis Elevator Co. and opened in 1901. It operated until the summer of 1972. It was 2384 feet long with an average grade of 64%, enough to reach the top of the 1540 foot summit.

An August 10, 1997 article in the Poughkeepsie Journal confirmed most of the above, with minor deviations. According to the article, the Incline did not open until Memorial Day, 1902. A Mount Beacon Incline Railway Restoration Society has been formed. EB, PC#21,651; EB (replaced cent), TCn (cent appears replaced), DG#66,425, ATCO, BS#51,1091.

It is very similar to the most common of the Teddy Bear pieces, the Kolb's Bakeries, which starts like this one with, Teddy Bear Bread at the top (except the Kolb piece has quotes around Teddy Bear and this piece does not) and then had the city divided below the cent, just like this piece does, "Phila- Delphia." There is a Niagara Falls teddy bear ((NY)-NIA-SV-60). This piece sold on eBay in July 2001 for $722, with three bidders over $600. I acquired it from RG in 2004. The correct attribution of this piece began when Bob Perdue attributed another Buffalo meat seller maverick piece on William Street (see Rudolph Frey, (NY)-(BUF)-FR-10) and thought that this meat business on William Street might be from Buffalo as well. That led me to call the Buffalo and Erie County Historical Society, and they checked the 1948 Buffalo City directory and found J. Dubbs, Live Poultry & Market, providers to restaurants, at 265 William Street, with two phone numbers: Mohawk 6640 and Washington 9700. When this piece was made in 1959, the names matched exactly and Fillmore Savings was indeed having its 50th Anniversary. It then changed it name again in 1980 to State Buffalo Savings Bank and was liquidated and its assets bought out by 4 different banks in 1991. A search of the Lexis database of all legal cases in the country under "Fillmore Savings" identified only one case, a 1959 case in the N.Y. Supreme Court for Erie county. This sold on eBay in February 2007 for $132.51. The piece had "rec'd 2/3/34" written in pencil on it. Force cereal was first produced in 1901 by Force Food Company, founded in Buffalo. Sunny Jim was its spokesman. It was imported to Brittain and caught on even bigger there. In 1932 it was reintroduced back to the U.S. by Herbert Rice, an Englishman who was doing radio in Buffalo. One of its trademark advertisements was a six line jingle, like the jingle on this piece. Prizes were given to customers who submitted winning jingles. The Buffalo radio show that debuted in 1932 moved to NYC in the fall of 1933. Thus, while Buffalo was certainly the origin city of Force cereal both originally and in its U.S. comeback, it is possible that the operations were in NYC in February 1934, when it appears this piece might have been sent out to a jingle winner. However, Force Food Co. was much more identifiable to Buffalo than NYC, so I will list it here. A silver dollar was a great, large prize during the depression. EB $75

Introduction to the Gamler's Jewelers Series

The first Gamler encased came out in the 20s. The last piece that I know of celebrated Gamler's 58th anniversary in 1977. Harry Gamler must have liked encasements and thought he got his money's worth advertising through them.

The Gamler store was in downtown Buffalo, only a few blocks from Lake Erie. It was in the same block as Mel's clothing store, which was not nearly as prolific an encased maker as Gamler was. Through 1954, the pieces gave the Gamler address as 522 Main Street; in 1954, Gamler switched to using "Main Cor. Genesee" and continued to use that description except for the 1959 piece, which temporarily reverted back to 522 Main St. That switching suggests to me that there was only one location, correctly described by either description. The former location is still in the heart of Buffalo's jewelry district -- a search on Yahoo showed 19 jewelry stores within a mile of the former Gamler location.

However, on today's maps, it appears that Genesee does not quite go all the way through to Main Street. Genesee is a diagonal street and it does go to Huron, less than half a block from Main Street. My good sources at the Buffalo and Erie County Historical Society told me that Main Street was closed to vehicles when the Buffalo Light Rail Rapid Transit System came into being in the 70s and that this occasioned some changes in some of the streets that crossed Main Street. It probably resulted in the portion of Genesee from Huron to Main being eliminated.

The complete story of Gamler's Jewelry store was told in a December 1, 1997 article in the Buffalo News that the Buffalo and Erie County Historical Society sent me. Harry Gamler opened his first store in 1919 at 11 Swan Street. A few years later he moved to 259 Main Street; then relocated for good to 522 Main in 1927. He was a promoter and advertiser -- he had a huge electric sign with 11,000 bulbs, which could be seen three miles away. He retired in 1987 and died four years later in 1991 at the age of 99. His son Herbert took over the business but closed it down on December 31, 1997, when he was 77 years old.

Norm Peters told me that most of the Gamler pieces were made by A.C. Gibson of Buffalo.

There are always surprises in this hobby. I always thought that what I now have as the -11 was the first piece in the series, an introduction to Mr. Gamler, with "Meet Gamler" on it. But that is not so, as I discovered in June 2007. This good for piece which was sold as part of a lot of eight encased pieces on eBay is almost certainly the first piece in the series, with a 1927 cent, the year that Gamler moved to 522 Main St. It is the only Gamler "good for." JL $30

[ ] NY-BUF-GA-11. 1924S, 1928 or 1929, H. Meet Gamler Wear Diamonds/ Harry Gamler Inc.// Credit Jewelers/ 522 Main St./ Buffalo, N.Y.\\ KMANGB/ IBGL. Encased coin collector are indeed going to "meet" Gamler again and again. This was the first known Gamler piece, until the -10 "good for" piece came on for sale on eBay in 2007. This piece may have been made with circulated cents, including the 1924S reported by JR. The second through fifth pieces, the -11, -12, -14 and -16 start with Meet Gamler. All the pieces in the series coming after them have a large "GAMLER'S" at the top.

Based on the Buffalo News article discussed above, the 1924S piece must either be a circulated cent as made or a replaced cent, as Gamler's did not move to 522 Main Street until 1927. NP told me long ago he believed that the first legitimate date in the Gamler series is the 1928, and he may well be right as to the -11; but he did not know about the 1927 -10 at the time.

JR reports that the "J" is over the "A" of Main on his 1924S piece and it is there as well on the 1928 and 1929 pieces. On the -12, the "J" is over the "M." The reverse dies are different too: on this -11, the clover stem bends slightly to the right, while on the -12, it bends slightly to the left. In addition, on this piece, there is a dot at the intersection of the 4 clover leaves, like on many of the generic pieces from this era, but there is no dot on the -12 . JR; JL, EB; JL $20

All three dates, 1931, 1932 and 1932D, come from the same dies. The eBay seller of the 1932D piece advertised his as a "unique" date for an encased cent. This is not true, as there are several other encased with 1932D dates, including a Maverick for Beck Hazzard Shoes and a Decatur, Illinois piece for Merry Motor Sales. When I asked him about it, he said that it was just a figure of speech for something that is rare. The word "rare" was available and should have been used instead if that was what the seller meant. [ ] NY-BUF-GA-20. 1940 or 1941, H. Gamler's/ Leading Jewelers// Diamond Importers// 522 Main St., Buffalo, N.Y.\\ KMANGB/ IBGL. The 1940s pieces of the Gamler series all have the same words and therefore I have used the -20s numbers for them all. The different obverse varieties are determined by where the "D" in Diamond appears in reference to the address, "522" below it. On this piece, the "D" is completely outside the address (and also above the "I" next to it); indeed, it is the "I" that is over the "5" of the address. The different reverses are determined by the size of the "I Bring"; the direction the words "Good Luck" are written in; and whether the KMANGB words have serifs. On this reverse, the "I Bring" is tiny, the words "Good Luck" are diagonal, but almost vertical, and there are serifs. JL, EB; JL, DG#99,730, SA#10,439 $6

[ ] NY-BUF-GA-22. 1945, H. Gamler's/ Leading Jewelers// Diamond Importers/ 522 Main St., Buffalo, N.Y.\\ KMANGB/ IBGL. This piece has both a different obverse and reverse die than the -20, 1941. On this piece, the "D" is almost outside the address, but not quite -- the "5" is under the far right side of the "D." The first "2" is between the "I" and the "A." On this reverse, the "I Bring" is normal size, much larger than on the -20, the "Good Luck" is still mostly vertical and there are serifs. EB, SA#18,1409 $6

[ ] NY-BUF-GA-24. 1945, 1946 or 1946D, H. This piece has the same obverse die as the -22 but a different reverse. The "Good Luck" is much more horizontal on this reverse and there are no serifs on the lettering of KMANGB. JL; JL; VN, JR $6

[ ] NY-BUF-GA-26. 1946 or 1947, H. Gamler's/ Leading Jewelers// Diamond Importers/ 522 Main St., Buffalo, N.Y.\\ KMANGB/ IBGL. These 1946 and 1947 pieces have the same reverse die as the -24 but a new obverse die. On this piece, the "D" is almost directly over the "5," just a bit to the left of it. The "I" is then over the first "2." My best guess as to the sequence of the dies on the -22 to -26 pieces is as follows: (1) the -22 is made in 1945; (2) the reverse die fails and a new reverse die is used with the old obverse die, making the -24 with both 1945 and 1946 pieces; (3) the obverse die fails and the still functioning reverse die is combined with a new obverse die for the -26 with 1946 and 1947 pieces. [ ] NY-BUF-GA-30. 1954D, H, holed at bottom. Gamler's/ Diamond Importers// Main Cor. Genesee/ Buffalo [hole] N. York\\ KMAHGL/ IBGL. Without question a different die than all the others, as this is the only piece I have ever seen (not just Gamler's pieces) which describes New York State as N. York. This is the first Gamler piece to be holed, and to my knowledge all subsequent pieces were holed. This is also the piece where the reverse inscription switched from KMANGB to KMAHGL. JL $5

[ ] (NY)-BUF-GA-34. 1968D, H, holed at bottom. Gamler's/ 50th Anniversary// Buffalo's Fine Jewelers// Main Cor. Genesee\\ KMAHGL/ IBGL. For the first time, "N.Y." does not appear on a Gamler's piece. It never will again. Also, the address is no longer given as 522 Main St. -- it is now Main Cor. Genesee. I believe that Gamler's did not move; it just described its location differently. If you look at a current map of Buffalo, Genesee no longer continues on to meet Main street, it ends about a half block before Main. As you will see below, there are four different obverses for the 50th anniversary piece, although it appears to my eye that all four reverse dies are the same. All I can think of is that the 50th anniversary was a very important event so that Gamler ordered a lot of pieces, probably over several years. JL $4

[ ] (NY)-BUF-GA-36. 1969D, H, holed at bottom. Same words as on the -34 but a different die. On the -34, the initial G in Gamler's is directly over the H in 50th. On this piece, the G is to the right of the H. It appears that both pieces have the same reverse die. JL $4

[ ] (NY)-BUF-GA-38. 1970D, H, holed at bottom. This is yet at third die for the 50th Anniversary piece. The differences in the obverse die are easier to see in the bottom lines on this piece, as the "G" is back over the "H" in the top line as it was in the -34 and although the spacing is minutely different, it is very close to the -34. On the bottom line, the "M" in Main is under the "U" in Buffalo. On the -34, it is under the two "Fs" while on the -36 it is under the right side of the first "F." JL, VN, EB $4

[ ] (NY)-BUF-GA-40. 1970S, H, holed at bottom. Here is yet the fourth die for the 50th anniversary. On this piece, the "G" in Gamler is over the "H" below as on the -34 and -38. The "M" in Main is under the two "Fs" in Buffalo above, closer to the second "F," like on the -34 (and unlike on the -38). On this piece, the "O" of Cor. is directly under the "S" in Buffalo's. On the -34, it is under the left side of the "S." JL, JR $4

I verified the attribution to Buffalo on this and the next piece by calling the Buffalo and Erie County Historical Society. (AM 15), but that was in the very first months of the organization and was without verification. As noted above, Kowal was the mayor of Buffalo. He must have lost this election as he did not become mayor until 1962. This piece comes both with the encasement rotated as on a U.S. coin and also as on a Canadian coin. Because the Canadian way is different than the orientation of the U.S. cent in the piece, the cent reverse is upside down in the encasement on that piece. As seen in the description of the

KO-16 piece, I believe that the Canadian rotation is often used in order to align the encasement reverse for a hole. But I have never seen this piece (the KO-14) with a hole. JL, NP, MM595 $5

[ ] (NY)-(BUF)-KO-16. 1957D, RD,35mm, holed at bottom. Same words as on the -14, but a different obverse die variety. The letters are smaller on this piece and take up much less room -- about 210 degrees only, while on the -14, they take up almost the entire encasement, about 300 degrees. The reverse of the encasement on this piece is rotated 180 degrees (like a Canadian coin instead of a U.S. coin) probably so that the hole at the bottom of the obverse lines up with the clover on the reverse, instead of the lucky words. There were quite a few horseshoe, good for furniture and jewelry store pieces from the late 20s, of which this is one. I think these were likely to have been made in the late 20s or early 30s with circulated cents. I have only the eBay seller's word for it that 1925 was the date in one of these pieces, I could not tell from the picture. The obverse dies are the same on all the pieces I have seen, including the -12, although I have not seen the 1919. Z.N.P. stands for Zwiazek Narodowy Polski (the Polish National Alliance). According to its website, Alojzy Mazewski was from Chicago, became a director of the Z.N.P. in 1947 and was its president from 1967-1988. Also according to its website, the Z.N.P.'s 31st convention was held in Buffalo in September 1951. Its 30th convention was held in August 1947 in Cleveland, and Mr. Mazewski also made an encased piece for that convention (with 1946 cent -- OH-CLE-MA-20), and for the September 1955 32nd convention in Minneapolis (with 1955D cent, MN-MIN-MA-10). He most likely handed out these pieces at the three conventions. I do not know if he made a piece for the 1959 convention in Hartford or subsequent conventions. The Polish National Alliance is a fraternal insurance benefit association. Its existence was necessary because regular insurance companies would not sell life insurance to the Polish immigrants in the late 1800s and early 1900s because they worked in the most dangerous jobs. Therefore, the Poles had to create their own insurance companies. My grandfather was a Vice President of the Union of Poles in America based in Cleveland, which sold life insurance too. JL $10

[ ] (NY)-(BUF)-MA-20. 1975D, H. Marine Midland Bank\\ [bicentennial rev. with bell at bottom]. My piece has a hole at the top through the first "D" of Midland. According to scripophily, Marine Midland Bank was chartered on December 22, 1975. Thereafter a lot of different Marine Midland Banks, founded earlier, were folded into it. It eventually became HSBC Bank USA. The New York SOS corporate data base shows Marine Midland Banks, Inc., with original filing date of January 2, 1945, currently under the name of HSBC Bank, as a Buffalo entity, at One Marine Midland Center. Many internet references including Wikipedia list this as long time Buffalo institution starting in 1850 as the Marine Trust Company. Marine Midland purchased the naming rights to the arena used by Buffalo's NHL franchise, which in 2010 is known as the HSBC Arena. JL, EB $6

Introduction to the Mel's Suits Series

This is the second Buffalo series, second to the Gamler series because it was not as long and did not produce as many pieces. The series started in 1931 when Mel's store was downtown at 566 Main St. and finished in 1941 when Mel had moved across the street to 569 Main St. and had added a second store out on Broadway. The Mel's pieces were correctly attributed to Buffalo by the ACE Maverick program -- as AM(190).

Mel was M.J. Shackman who was a survivor of the "Lost Battalion," which fought in the Argonne Forest near Belleau Wood in World War I. According to his obituary in the November 4, 1980 Buffalo Evening News, he opened Mel's Clothes stores on Broadway and Main Streets after that war, retiring in 1963.

Although the KK picture is not all that clear, it appears that both dies are the same. According to the Buffalo and Lake Erie County historical society and the Internet, Michael Shea opened Shea's Hippodrome, a large Vaudeville and later motion picture theater, on Main Street near Chippewa, in 1914, and it was in business there for over fifty years. Rand McNally's Atlas for 2003 still shows "Shea's Buffalo Theater" as a point of interest in that location and Yahoo lists "Shea's Performing Arts Center" at 646 Main Street, showing that that area has become a plaza, and it is indeed still "near Chippewa," which is just to the south of the location. In this piece, Mel's primary store is still at 566 Main St., not 569 as in later pieces. 566 Main St. is just on the east side of downtown, very near Gamler's Jewelry store. The Broadway store is about 2 1/2 miles east, in the Polish neighborhood. JL, JR, BS#29,424; JL $15

[ ] (NY)-(BUF)-ME-14. 1934 or 1935, RD,35mm. Mel's $9.99 Clothes/ 566 Main St. - 2nd Floor// [this line is curved in the Leyse Aluminum style] Suits - Topcoats - Overcoats / 1045 Broadway Cor. Clark\\ KMANGB. In Buffalo, 1045 Broadway is indeed at Clark. The 1934 and 1935 pieces are from the same dies. EB, MM; JL $8

[ ] (NY)-(BUF)-ME-16. 1935, RD,35mm. Mel's $9.99 Clothes/ 569 Main St. Opp. Flint & Kent's// 1045 Broadway Cor. Clark/ Suits - Topcoats - Overcoats\\ KMANGB. This piece is in the style of Leyse Aluminum pieces, with the second line starting with 569 written in a curved fashion. Mel must have moved across the street in 1935 or thereabouts. Starting with this piece in 1935, Mel's downtown store is located by reference to Flint & Kent's, which was a major downtown department store located at 554 Main Street. Flint & Kent's opened in 1897 and went out of business around 1980. The five different obverse dies, -16, -18; -20 and -22 (-20 and -22 are one obverse die); -24 and -26, can be told apart by the position of the "K" in Clark in relation to the word "Overcoats" below. On this piece, the "K" is over the left side of the "S," with the stem of the "K" pointing to the space between the "T" and the "S." JL, DG#67,386 $8

[ ] (NY)-(BUF)-ME-18. 1936, RD, 35mm. Same words as on the -16 piece, but a different obverse die, with slight differences in the placement of the letters. On this piece, the "K" in Clark is mostly over the "S" in overcoats, just slightly to the left of center, with the left side of the "K" pointing down to the very left side of the "S." As a double check against the -16 dies,

the period after "Cor" is over the "R" on this piece, while it is over the "E" on the -16. Same reverse die as the -16. JL, AM(190), KK612 $8

[ ] (NY)-(BUF)-ME-20. 1937, 1938 or 1939, RD,35mm. Same words as on the -16 and -18 pieces, but yet another different obverse die. On this piece, the "K" in Clark is just beyond the last "S"; the vertical leg of the "K" points just barely past the "S." The -12 through -20 pieces all have the same reverse die, with the following characteristics: (1) serifs in the letters of KMANGB; (2) 8 light curlicue doodlings between the cent and the word "Never"; and (3) a line above KMANGB running from the "D" in And to the start of the "V" in Never. In 2001, an ME-20 with a 1932 cent in it appeared on eBay, most likely a replaced cent. JL, BS#31,17; JL; JL $8

[ ] (NY)-(BUF)-ME-22. 1939, RD,35mm. Same obverse die as the -20, but a different reverse die: (1) There are no serifs in the letters of KMANGB; (2) there is a wishbone between the cent and the Never; and (3) the line runs from the space between the And and the Never to the end of the "V" in Never. Looks like the reverse die's life came to an end while 1939 cents were being used. JL $8

[ ] (NY)-(BUF)-ME-24. 1940, RD,35mm. Same words as on the -16 to -22 pieces but another different obverse die. The "K" here is directly over the "S," like in the -18. This piece has the same reverse die as the -22. JL $7

Introduction to the 1901 Pan American Expo Series

The Pan American Exposition was held in Buffalo from May 1 to November 1, 1901, in what the exposition organizers thought was the first year of the twentieth century. Encased cents had just come on the scene, and they were out in force as souvenirs at the exposition. My article in the April 1999 TAMS Journal gives a more detailed account of the exposition and of these encased cents. Norm Peters put out a booklet in 2006 listing the pieces he has and is familiar with. He notes that the pieces that are not "signed" by Whitehead & Hoag, Newark, were likely issued by Charles F. Damm of Buffalo.

There were two types of generic pieces in 1901 for "Souvenir of Our Fair." The round one has two clovers either side near the bottom, the "Souvenir of Our Fair" going around the top and "1901" at the bottom. It has the same reverse as on the PX-120, with "Reg'd Trademark" in small letters. The horseshoe piece has a reverse similar to that of the horseshoe PX-20 piece, but on that piece, the line above KMA starts to the right of the "K" in Keep, while on the Souvenir of Our Fair piece, it starts over the space between the "KE." NP lists two generic pieces in his book of Buffalo Pan Am pieces, the horseshoe described above as type 9B, compared with the PX-20, which is his 9A; the round as type 10. He gives no reason why they should be linked with the Buffalo expo.

The most common of the Pan American encased and probably the most common of any of the Indian encased is the four leaf clover variety, which has catalog numbers NY-BUF-PX-10 to -PX-19. I call this the clover leaf type one, because there is another, much scarcer type

of four leaf clover encased which has much lower relief. This piece is round, 38mm in diameter and its obverse has two small stars near the rim on each side of the cent, the words, Good Luck Souvenir// Buffalo, N.Y./ Pan-American Exposition. Around the cent are the four leaf clovers, with veins, and coming out at the bottom is a stem that runs between "Buffalo," and "N.Y." On most die varieties, the stem points left but on one, which was almost certainly the first variety manufactured, it points right. As seen below, there are variations on the stem that points left -- how long it is and where it points. There is only one known variety of stem right. This is NP type 7, he has eight different obverses and so do I.

The reverse has the words Lucky Penny/ I'm It [with the cent in between]// Pocket Piece. There are two interlocking horseshoes around the cent. There is one immediately obvious difference in the reverse dies, at least on pieces that are not very worn. Some of the dies have the words, "Pat. Appld. for." in the horseshoe above the cent. Other dies have "Pat. Apr. 23, 1901." In the listings below, I use the letter "A" to indicate that the piece has one of the first dies, and the letter "B" to indicate that the piece has one of the second. This is NP type 7 and he gives eight reverses, while I only have five.

The patent referred to on the "B" reverses is design patent no. 34,390 dated April 23, 1901, issued to Matthew J. Owens and Francis M. Owens of Boston, Massachusetts and good for 3 1/2 years. They called the encased an "Advertising-Badge." The design on this patent showed interlocking horseshoes on what was called the "obverse face," and the four clover leaves on the "reverse face," with veins, and a stem, pointing right.

There are more differences between the varieties than just the stem direction and the patent information. Each different variety noted below is a different die. Because the letters were punched out into each die, they were punched in slightly different positions on the different dies. I have noted some of the differences in the lettering among the different dies to help you identify them. I believe that there are as many different varieties of this type as there are because of the number of this encased that were produced. The life of a die is limited and once a die was retired before the number of desired pieces was produced, another die had to be cut and put in service. The production needs of this piece required many dies.

I have identified eight different obverse dies and five different reverse dies, of which three are the A variety (Pat. Appld. for) and two are the B variety (with Pat. Apr. 23, 1901, the B4 and Pat. April 23, 2001 the B5). It appears that the dies were often, but not always, changed together.

To identify differences in the reverse dies, I use the notches on the horseshoes around the cent across from the letters. The notches are in relatively low relief and therefore survive even in worn pieces. There are four notches opposite the letters on the top and four on the bottom; three on one horseshoe and one on another, in each case. The different reverses (i.e., A1, A2 etc.), described below, can be identified by the location of the notches. I have used the location of the top four notches to identify the die varieties. The "lone notch" is the notch on the horseshoe whose bottom is pointing to the left; it is higher than the "left notch," which is on the other horseshoe. The "middle notch" is on the same horseshoe as the left notch, to its right, while the "right notch" is the furthest notch to the right.

The location of the lone notch in relation to the left notch will usually, but not always, tell you whether you have the "Pat. Appld. for." variety or the "Pat. Apr. 23, 1901 variety, even if those words are worn off. On the Pat. Appld for. variety, the lone notch is always to the left of the left notch. If the lone notch is to the right of the left notch, then you have the Pat. Apr. 23, 1901 variety. There is one Pat. Apr. 23, 1901 variety that has the lone notch to the left of the left notch. In any event, if you can at least see an outline of the patent words, another way to tell the difference between the A and B varieties is in the location of the words. The "P," in Patent starts under the C or the K in Lucky on the A (Pat. Appld. for) variety. The "P" starts under the U of Lucky on the B (Pat. Apr. 23, 1901) variety.

It makes sense that the die describing an applied for patent came before the die with the actual patent date on it. Because the stem right variety only comes with the earlier reverse, and because the patent application showed a stem right, it is almost certain that the stem right variety was produced before the stem left. However, because the stem left is so much more common, it was the first variety I became aware of so that I originally gave the stem left the lower catalog number.

On the Pan American clover encased, the cent is oriented with the cent obverse on the encasement obverse side. As noted in the introduction, this is unusual for encased cents.

The design of the clover on this piece is in high enough relief, and the fields in low enough relief, that <u>every</u> piece struck imparted some of the clover design elements into the cent. There is usually a short mark on the cent just above the stem, a depression on the rim at the points where there is no clover, like someone filed part of the rim away, and marks on the cent opposite the clovers to match the clovers' veins. If there are no marks on the cent similar to the above, the cent is a replaced cent. I saw one piece where the cent was in backwards (the cent reverse was on the side with the clover) but where the cent obverse had the usual marks matching the clover. An original cent had been punched out and the same cent put back in, but whoever put it back in did not know the correct orientation! I saw another where the marks on the cent obverse did not match the encasement exactly. The cent had come out and the same original cent put back in but not with the same orientation. I punched it out again and replaced it correctly. I have noticed, on occasions like this where I had an original cent out of the encasement, that the original cent will go back into the encasement tightly, with no light showing through.

This type has many replaced cents. I would estimate that approximately 30% of the pieces I have seen for sale have replaced cents. Buyer beware! This piece is so common that a washer type example (I call a "washer," an encased cent without the cent) has very little value. I have bought several for $1.

I have seen some descriptions of the Pan American clover that are wrong. There is no thin stem or blunt stem -- as the piece wears, the stem appears, through wear, to be blunter. There is no piece with "Pat. Appld. 1901." The patent information is very high relief on the reverse and often is faded or even disappears. The location of the lone notch or the additional information given below on the B5 reverse will identify the reverse even if the patent information is obliterated.

Every obverse piece described here was for sale on eBay in 1999 to 2000. While there may be other dies not listed here, if there are any they must be pretty rare as they have not appeared in well over a hundred pieces that I have seen either in person or on eBay. My feeling is that the -16 is the rarest, followed by the -15, which is just a bit rarer than the -10 and the -14, which appear with about the same frequency, followed closely behind by the -11, which is just a bit more common. Give me a few years more experience, and I might make slight adjustments. The -12 and -13 are the most common of the obverses, with the -12 appearing a bit more than twice as often as one of the other obverses and the -13 over three times as often. The -19 stem right reverse is neither scarce nor plentiful; I think it is more common that the -11 but less common than the -12 and -13.

None of the reverses is scarce except for the B5 of which I have seen only five specimens. It is more difficult to identify the reverses on eBay from the scans, though, so it is possible that some B5s have appeared but could not be identified. B5 only comes with the -11 and -16 obverses, which also come with A reverses. The -12 and -13 obverses each come with both the A3 and the B4 reverse.

Verbal Quick Die Determination - Obverse

The following will help you quickly determine what die variety of PX-10 clover series you are looking at:

Step 1, if the stem points right, it is an -19. If left, it is a -10 to -16. The stem right will have squares for the periods and the top of the commas.

Step 2. Check the periods and the commas on the stem left. If the periods and the top of the comma are squares like they are on the -19, you have the -14 variety. Or, you may have a new variety, so go to step 5, part B to be sure.

Step 3, part A. Check to see where the "B" in Buffalo is in relation to the word "American." If it is over the A, the piece is the most common -13 variety. Double check by looking at the position of the last period in N.Y. It will be between the S and I of the line below.

Part B. If the B is between the A and the M, with part of the B over the A and part over the M, then the piece is a -10. Double check by looking at the stem. It should be very short, extending no further down than the comma after Buffalo, the shortest of all stems. Make a final check by looking at the second period in N.Y. It should lie between O and S of the line below.

Part C. If the B is over the left side of the M, with the left side of the B pointing down left of the M, then you have a -12 or a -15, although on the -15 the B might just barely point to the furthest right point of the A. Go down to step 4 below.

Part D. If the B in Buffalo is over the M, with no part of the B outside any part of the M, then you are looking at an -11, -14 or -16. On the -11 and -14, the B is more towards the left side of the M, while on the -16, it is more over the right side of the M.

Step 4. To tell the difference between the -12 and the -15, look at the last period in N.Y. On the -12, it will be over the S. For a final check, the comma after Buffalo is above the right side of the N and the stem is of medium length, pointing right to the middle of the N and the E. On the -15, the final period is over the O. For a final check, the N in N.Y. is right next to the stem between the E and the X. The stem is long, extending between the N and the E below the tops of those letters.

Step 5, Part A. To tell the difference between an -11, a -14 and a -16, first look at the final period in N.Y. If it is over the O, the piece is the -16. For a double check, the N will be over the X and the stem should be fairly short, very near the comma and extending down only a small amount below the bottom of the comma. On the other two, the period will be over the S.

Part B. To tell the difference between the -11 and the -14, look at the stem. On the -11, it is of medium length and points to the left top of the E, fairly far removed from the comma after Buffalo. On the -14, it is very long, extending well past the E, close to the comma in Buffalo, midway between the comma and the "E." For a final check, the "O" in Buffalo is over the left side of the "N" on the -11 and is directly over the "N" on the -14. Remember, the -14 has squares for the periods and commas, not circles.

Step 6, if nothing matches, you have found a new variety. Write the author.

Verbal Quick Die Determination -- Reverse

If you can see the "Pat. Appld. for," "Pat. Apr. 23, 1901" or "Pat. April 23, 2001" words, then you immediately know if you have an A or a B reverse, and if B whether it is B4 or B5. However, by following the steps below, you will be able to identify which even if those words are worn off.

Step 1 -- Look at the four notches in the two horseshoes toward the top of the reverse. The horseshoe whose legs point left only has one notch in its top leg. The other horseshoe has three top notches. If the single notch on the horseshoe whose bottom is to the left is not the notch furthest to the left, then you are looking at the B4 variety. For verification, that single notch should be under the far right of the L, the middle notch on the horseshoe with bottom to the right will be under the very right side of the Y and the rightmost notch will be under the left side of the second N.

Step 2 -- Check the position of the sole notch on the horseshoe whose bottom is to the left. If it is under the L, the variety is A1. The rightmost notch will then be under the first N. If the sole notch is under the center of the U, the variety is A2. In that case, the rightmost notch will be under the middle of the two Ns. If the sole notch is under the right side of the U, the variety is the scarce B5. To verify, look at the rightmost notch. It will be under the right side of the first N. Finally, the remaining variety is the A3. This is the variety where the leftmost notch is so far left it is wholly outside the L. There is a generic piece with A3 reverse and 1902 cent that has the clover design on the other side but just says IBGL at the top and KMANGB at the bottom.

On to the actual cataloging of the clover pieces:

[ ] NY-BUF-PX-10A1. 1901, RD,38mm. This variety has the stem pointing to the left. It has the shortest stem of any variety. The stem points between the "N" in American and the "E" in Exposition and ends even with the comma after Buffalo. It is closer to the comma than to the "N" in New York. The "B" in Buffalo is between the A and the M of the line below. The "N" in American is directly under the comma, and the final period in N.Y. is between the O and the S. This die variety comes only with the Pat. Appld. for reverse, die variety no. 1. This reverse has the lone notch to the left of the left notch and under the right side of the L, the middle notch under the Y and the right notch under the left side of the first N. I have seen a generic clover with a stem right obverse, coupled with the A1 reverse. JL, EB $20

[ ] NY-BUF-PX-11A2. Another stem left obverse. The stem points just to the left top of the "E," and ends in between the two lines. The "B" in Buffalo is over the M. The "N" in American is under the right side of the "O" in Buffalo. The last period after N.Y. is over the left side of the S. This comes with reverse die no. A2, which has the lone notch also to the left of the left notch but directly under the U, the middle notch between the words but closer to "Penny" and the right notch between the two Ns. On all pieces I have seen there is a spike coming out of the top right of the K. This does not look like a die break to me; instead, my best guess is that it is a stray mark made by the die engraver. On many of the pieces I have seen on eBay, the picture is not good enough to be certain whether this spike is there or not. The "P" in Patent is under the K in Lucky on this piece. The "P" is much further to the left on the B reverses. JL, EB $20

[ ] NY-BUF-PX-11B5. Obverse same die as above, although it looks as if someone strengthened the serifs on the letters on this one. This time though, the obverse die is paired with reverse die B5. This is the "Pat. Apr. 23, 1901" reverse, but with the lone notch to the left of the left notch, as on most of the Pat. Appld for pieces. The notches on this reverse are very similar, but not identical, to the notches on the A2 reverse. Here, the lone notch is under the right side of the "U" (on the A2 it is directly under the U. The right notch is under the right side of the first "N" instead of between the Ns as on the A2. The differences are not great but can be detected. JL, EB, AJ $20

[ ] NY-BUF-PX-12A3. This was a new muling when it came on eBay at the end of 2001. Since then several more pieces have come out, but the piece is not all that common. JL, EB $20

[ ] NY-BUF-PX-12B4. The stem is just a tad bit longer than the stem on the -11 obverse but it does not reach all the way to the top of the E as it does on the -13 variety. The stem points between the N and the E (although closer to the E). The letter location is very close to the location of the letters on the -11, but not quite. The "B" is over the left side of the M (it is directly over the M on the -11). The "N" in American is under the left side of the comma. The last period after the Y in N.Y. is directly over the S (on the -11 it is over the left side of the S). The most common reverse that goes with the -12 is the B variety (Pat. Apr. 23, 1901), die no. 4. This die is the only reverse die that has the lone notch to the right of the left notch. The lone notch is under the very right side of the L, the middle notch under the very right side of the Y and the right notch under the left side of the second N. The "P" in Patent is between the L and U in Lucky on this die. JL, EB $10

[ ] NY-BUF-PX-13A3. The obverse has a long stem, extending just to the left of the top of the E, pointing between the E and the N. The "B" is over the A in American. The "N" of

American is under the comma, as on the -10 obverse. However, the last period in N.Y. is between the S and the I on this piece while it is one full letter over, between the O and the S on the -10. This is because the letters "N.Y." are very spread out on the -13 obverse. In addition, the M of American is under the U on the -13 variety (it is between the U and the B on the -10 variety). This obverse die is the most common of the Pan American clover varieties. It is paired with two different reverse dies. On the first reverse die, die no. 3, the left notches are the furthest left of any of the die varieties. As this is the A variety, the lone notch is to the left of the left notch. The lone notch is beyond the left side of the L, the middle notch is under the very right side of the Y in Lucky and the right notch is under the right side of the first N. The P of Patent is under the C on this die. JL, EB $10

[ ] NY-BUF-PX-13B4. A combination of obverse die no. 13 and reverse die no. B4. JL, EB $10

[ ] NY-BUF-PX-14A2. This variety has squares that make up the comma and the periods, like the stem right -19 variety and unlike the circles that are on all the other stem left varieties. The comma is furthest to the right of any variety, wholly outside the N in American and almost touching the stem. Otherwise, the lettering is fairly close to the lettering on the -11. The stem is long, pointing between the N and the E, passing about equidistant from the comma and the "E." The stem appears to be just slightly shorter than on the -13, just reaching the line of the lower letters. The B in Buffalo is over the M as it is on the -11. Fairly rare -- there have been four different examples sold on eBay. JL, EB, PAECS $20

[ ] NY-BUF-PX-15A2. This variety has the longest stem of any variety, extending down noticeably below the line of the bottom letters. The "B" in Buffalo is over the left side of the M, as it is on the -12. The last period in N.Y. is over the left side of the O, the only variety where the period is this far to the left; the comma after Buffalo is over the very right side of the N. Fairly rare, only two examples have surfaced on eBay. JL, EB $15

[ ] NY-BUF-PX-16A1. The stem on this variety is very short, though longer than the stem on the -10. Here, it extends very near and just below the comma. The B in Buffalo is over the right side of the M, the N in N.Y. is over the X and the last period is over the right side of the O. An example sold on eBay in June 2000 was the only 16A1 I had seen or heard of to that date. That discovery piece probably had a replaced cent. I have since seen several more 16A1s for sale on eBay, the second in May 2004 a third in March 2006, a fourth that I bought in May 2007 and another one in January 2012. A -16 came on for sale on eBay in September 2011 without rev. pictured. JL, EB $20

[ ] NY-BUF-PX-16B5. Same obverse as described above, with the B5, Pat. Apr. 23, 1901 reverse. My piece was once the only 16B5 I had seen or heard of. I have since seen another for sale on eBay (I don't think whoever bought it knew what it was though). JL, EB $20

[ ] NY-BUF-PX-19A1. The less common stem to the right obverse, the first variety manufactured, the design pictured in the design patent. The stem is closer to the "N" in New York than to the comma, stops just short of the top of the lower line and points to the P in Exposition. The "N" in Exposition is under the right side of the L. The last period in N.Y. is between over the right side of the S. The periods and the top of the comma are squares on this

piece -- they are round on all the stem left die varieties, except the -14. This is the only die variety of the stem right that I know of. I do have one where the reverse is rotated 180 degrees, but that is not a separate die variety. The stem right always comes with the Pat. Appld. for A1 reverse. JL, EB $12

[ ] (NY)-BUF-PX-20. 1901, SH. Pan-American Exposition// [running pictured buffalo facing right]\\ KMANGB/ Pat. Apr. 11, '99/ IBGL. The standard orientation for this piece is for the cent obverse to face the encasement obverse. This is very unusual for the squat horseshoe pieces (of which this is the most common type), where the cent obverse normally faces the encasement reverse. This piece has the type 2 squat horseshoe reverse, of the three different types known to me. See, NY-KIN-SV-10 for an example of a type 3 reverse and a description of the differences between types 1, 2 and 3. This is a relatively common piece. It is NP type 9A. JL, EB $25

[ ] (NY)-BUF-PX-30. 1901, W. [Leaping pictured buffalo at top of cent]// Pan American Exposition 1901\\ Good Luck/ [large clover at top that extends over the rim] [two horseshoes]// Keep Me/ And Prosper/ Pat Apd for. I have seen and heard of quite a few replaced cents of this piece and only two with original cent. It may be the same one or two replaced cents making the rounds, or this piece may have quite a few replaced cents. Be very careful authenticating this piece. On this piece, the cent obverse normally faces the encasement reverse, which is different than the orientation on the -10, -20, -40 and -50 series pieces. This is NP type 8. JL (and another with a replaced cent) $75

[ ] NY-BUF-PX-40. 1901, RD,38mm. I Am Your/ Mascot/ [two fairly large clovers]// Souvenir Pan-American/ [five lobed leaf on both sides] Exposition, Buffalo, N.Y.\\ Lucky Penny Pocket Piece/ [horseshoe around cent]// IBGL/ [some examples have "Pat. Appld. for" at the bottom and some do not -- my best guess is that the pieces without were weakly struck or the words, in high relief, have worn off]. This reverse is the same die as on the 1902 Souvenir of Charleston Exposition piece and as on the 1904 St. Louis World's Fair piece that was cataloged by Hendershott as H-14-80. The St. Louis piece that was cataloged as H-14-70 has a similar style reverse, but it is a different die. The cent obverse normally faces the encasement obverse on the -40s style pieces. This is NP type 6, he recognizes the three types. JL $25

[ ] NY-BUF-PX-41. Same as -40, except, on the obverse, the two clovers are much smaller, there is no five lobed leaf, the letters are slightly bigger; and on the rev., the letters of "Lucky Penny Pocket Piece" are slightly larger, the notches in the horseshoe are at different points and instead of IBGL at the bottom, there is Save Me/ And Have Good Luck. JL $25

[ ] NY-BUF-PX-42A3. Same obverse as -40; A3 reverse, as on the clover pieces, with Pat. Appld. for. CB was the discoverer of this subvariety. It is a bit rare, I have seen four other pieces since CB's discovery around 1998. CB, EB, JL, PAECS $30

[ ] NY-BUF-PX-50. 1901, RD,38mm. Souvenir of Good Luck/ [two small stars]/ [heart shape around cent]// Pan-American Exposition, Buffalo, N.Y.\\ Lucky Penny/ Pat. Appl'd for/ [two crossed wishbones around cent]// Pocket Piece. The cent obverse normally faces the encasement obverse on the -50s style pieces. This is NP type 5, he doesn't recognize the two varieties. JL $30

[ ] NY-BUF-PX-51. Same words as -50 but both obverse and reverse dies are different. The obverses are different in that, on this piece, the point of the heart points between the "O" and "S" of Exposition. On the -50, it points to the "O." The reverses are different in two ways. On this piece, there is only one wishbone around the cent on the reverse and the words, "Pat. Appl'd for" do not appear. RG noticed something interesting about this variety. On both the -50 and the -51, there is always a bit of missing metal on the right side of the edge of the heart, about half way up, across from the "N" in N.Y. My guess is that there just was not enough metal available to fill that space completely, as this high part of the heart is matched by the high part of the wishbone on the other side. JL $30

[ ] (NY)-BUF-PX-60. 1901, W. Bostock's/ Great Animal/ Arena// Pan American/ Exposition/ Buffalo, 1901\\ GLKMAP [same rev. as on -30]. This was the only example of this piece I have ever seen or heard of, until a second piece came on for sale on eBay in January 2009. Thus now the only singular pieces are the -190 and -200 pieces. Frank C. Bostock is listed in the Official Catalogue and Guide of the Exposition as having the Wild Animal Show Concession and being from Baltimore, Maryland. In 1903, he wrote a book called, "The Training of Wild Animals." He also had a permanent animal exhibit called Bostock's Arena at Dreamland in Coney Island in the early 1900s; there is a postcard picture of it on the Internet that RG sent to me. It is a very large structure, with "Bostock" in large letters both over and to the left and right of the arch entrance. JL, EB $300

JL, EB $100 to $150

[ ] (NY)-(BUF)-PX-80. 1901, RD,38mm, vulcanite hard rubber, holed in middle for cent to sit in, about twice as thick as the aluminum. I Am Never Broke// Lucky Souvenir / Patent Applied for\\ [thin paper sticker on back -- picture of the Triumphal Arch]// Triumphal Arch. This has a blue edge and border, grey black background and yellow lettering. Another sample has a white edge and border. A third is red. JL, EB, TCn, PAECS (with the white border), all the -80 series should run $100 to $125, although a nice one of these sold for $175 on eBay in 2004.

[ ] (NY)-(BUF)-PX-81. Same as -80 except has violet, orange, red or green border and Temple of Music on rev. EB; JZ; JL, EB; EB

[ ] (NY)-BUF-PX-84. Dark green; or yellow, with words on the rev.: Where Does Grass Grow?/ In Mexico/ Your Buffalo/ "Put Me Off"/ Pan American/ Expo. BS sold his example on eBay in April 2017 for just over $300. EB, PAECS, questioner on AllExperts

[ ] (NY)-BUF-PX-86. Oh Fudge/ "Forget It"/ Perhaps Taint True/ "Put Me Off/ At/ Buffalo". PAECS, RH(9/4/84),894

[ ] (NY)-BUF-PX-87. Black with blue or orange rim. It's Up to You/ Go/ as Far/ as You/ Like/ [two horizontal lines with a diamond in the middle]/ Pan American/ Buffalo. This was an unknown variety of this type when it came on for sale on eBay in Sept. 2008. This was a very nice piece with lots of luster on the cent and it sold for $334. My piece is not nearly as nice, in particular, the wording is a bit faint. JL; EB

[ ] NY-BUF-PX-90. Token with man drinking on the back of a buffalo on the obv., with the words "Spirits of Buffalo" and, on the rev., a heavy woman doing the can-can, RD, 38mm. Pan-American Exposition// Datz Co., N.Y./ Buffalo, N.Y.\\ The Lucky Coin/ [Horseshoe around token]// Keep Me/ And You Will Always Be Broke. Not all that rare, it appears about once a year or so, but heavily sought after. BS has sold quite a few. This is NP type 3, he says that a small hoard was discovered years ago and has long been dispersed. JL, KK269 $200

[ ] OH-CLE/(NY)-(BUF)-PX-100. 1901, RD, 38mm. NORTH// Cleveland O, U.S.A./ Pan-American Souvenir\\ Good Luck [clover at top]/ [horseshoe and star on the left side, wishbone and star on the right]// Keep Me/ And Prosper. There is a small signature between the left leg of the "N" in North and the encasement rim: (F.F.S.). There is a design like a globe with latitude and longitude lines, with the cent in the center. I am not sure what this is about. Cleveland Day at the Exposition was September 26. Could this have been a souvenir for the City of Cleveland as well as for the exposition? I can find no reference in the exposition catalog to any "North" exhibitor. PAECS, JL (very worn example), CK#133,1197, DG#97,565A, AA#2,24, KK357 $100.

It is the first new type of Pan Am Expo piece to come to my attention since my TAMS article came out in April 1999. Yak Oussani appears on page 102 of the Official Catalogue and Guide to the exposition, in the Manufacturers and Liberal Arts building, listed under "Oussani" as selling cigarettes and being from New York, N.Y. Rodriguez, Salvador of New York, N.Y. is the only other tobacco company listed, for cigars. I acquired my ouece from

RG in 2004, and in the years since have seen two more sell on eBay. The last one in January 2013 sold for $297.87 with free shipping made by suggested price of $300, which was there before the sale, look good. JL, EB $300

[ ] (NY)-BUF-PX-180. 1901, RD,29mm. Buffalo Exposition/ [star each side of the cent]// 1901\\ Pan American/ [star each side of the cent]// Lucky Penny. I saw this piece for the first time in May, 2001, when Ed Karn of Allen Coin Shop allowed me to look through his large collection of encased coins. I have never seen another. It was not listed in NP's 2006 booklet. EK $250

[ ] NY-BUF-PX-190. 1901, RD,38mm. Souvenir/ Pan-American Exposition.// Buffalo, New York./ 1901\\ GLKMAP. This is the Whitehead & Hoag round piece that was made in bulk at the time. It was an unlisted Pan Am piece when it came on for sale on eBay in December 2008, with a cent that was "in position and does not move" but could be "pushed out." The cent is obviously replaced, barely in the piece. A piece with no cent in it at all came on for sale on eBay in November 2015. JL (with replaced cent), EB (without cent) $200 (with original cent)

[ ] (NY)-BUF-PX-CEN-200. 1901, H, holed at bottom, made in 2001 for the centennial: Pan-American [picture of Buffalo at top] Centennial// 1901 [hole] 2001\\ KMANGB/ IBGL. At the beginning of the 1910s, suits and overcoats cost $9.99 to $14.99; but by the end of the decade, they are $14.99 to $39.99.

The addresses of these five pieces, taken together, point so strongly to Buffalo that there is no question but that these Shulman stores were in Buffalo. The 269 Main Street address is the first block south of Swan Street. 521 Main Street is about 5 blocks north, between Mohawk and Huron Streets. East Eagle Street is about in the middle of the two stores, and 8 E. Eagle is just to the east of Main Street. Indeed, the Iroqouis Hotel was located in the Gerrans Building at the corner of Main and Eagle. I verified that by calling the Buffalo and Lake Erie Historical Society -- the librarian read to me from the May 12, 1940 Buffalo Courier Express, a story that the Gerrans Building on the corner of Main and Eagle, which had been the Iroquois Hotel, was being razed. Gamler's store at 522 Main (NY-BUF-GA-10) is just across the street

from the location of the 1911 Shulman store and Mel's Clothes (NY-BUF-ME-10) is just a bit north. JL, EB $80

Peter & Paul Athletic Club is still in operation at 806 Clinton in Buffalo in 2003, according to information on the Internet. I would imagine that it is affiliated with the SS. Peter & Paul Catholic Church in the Buffalo area. 795 Clinton is on the east side of town, just south of the Buffalo Stockyard on William St. (see (NY)-(BUF)-DU-10 and (NY)-(BUF)-FR-10. I saw another piece sell on eBay with a hole through the "&," which looked original. JL $8

[ ] (NY)-BUF-SS-12. 1957D, H, holed at top. This piece has the same obverse die as the -10, so that the hole goes right through the ampersand and obliterates it. It looks like a hole as made, but as mentioned above, it is impossible to tell. The reverse on this piece is the more standard KMANGB/ IBGL. JL $8

[ ] (NY)-(BUF)-SU-10. 1950, RD, 35mm. Sussex Dry Cleaners/ Alterations – Repairing, We Del. HU. 3967, 1269 Fillmore Ave.\\ KMANGB. Attributed by NP to Buffalo. The Buffalo and Erie County Historical Society found Sussex Dry Cleaners at 1269 Fillmore Ave. in the 1951 city directory, although it did not appear in the 1950 directory. This piece must thus have come out near the time the business started. The Osborne order made this attribution certain as the 1000 pieces ordered on February 15, 1951, were delivered to Sussex Dry Cleaners at the Buffalo address on the piece. NP, OR(1193) $8

[ ] NY-BUF-SV-22. Unknown date, RD,35mm. Same obverse as the -20, but this reverse has the vines and berries. The same reverses are found on the souvenir of Coney Island pieces, with the half circle reverse (like on the -20 above) coming with dates of 1905-1908 and the

berries and vine reverse coming with dates 1909-1913. The eBay piece came with a misoriented 1911 cent, likely replaced. EB $20 (with original cent).

[ ] NY-BUF-SV-24. 1909 Indian, RD,35mm. [row of 32 dots around the top edge]/ The Perfumed Penny// Souvenir of Buffalo, N.Y./ [ornate design]\\ KMANGB. [ ] (NY)-BUF-SV-26. 1953D, RD,35mm. Buffalo// 1956\\ KMANGB. It took me a while to realize that the normal date in this piece is indeed 1953D, even though 1956 is on the piece. I had originally listed this with 1956D cent from the original EK discovery piece, but I am beginning to think that was a mistake and that all known pieces have come with 1953D cents (have now seen 4 total with that date). JL, EB, EK $6

[ ] (NY)-BUF-SV-28. 1959D, RD,35mm. Time for// Buffalo\\ KMANGB. What else could this be but a piece about the New York city on Lake Erie? If it were a piece for the animal, would it not say instead, either Time for the Buffalo or Time for Buffaloes? I have a stickpin that says: "I am for" followed by a picture of a buffalo, which I believe is for the city too. JL, NP (Spring 2016) $5

[ ] NY-BUF-SV-32. 1911 or 1912D, H. Same obverse as on the -30, but a different reverse. Both reverses have large clovers and a large thick wishbone, but on this piece the "I Bring" is much larger, taking up all the room above the wishbone, while on the -30 it is very small. The "I" of Bring is right over the center of the wishbone on this piece, while it is to the right of center on the -30. The cent obv. faces the encasement obv. on this piece. EB; JL, EB $20

[ ] NY-BUF-SV-40. 1940 or 1941 dime, triangular pendant with cover that pivots. On the outside of the piece are pictured two boots to the left and a coin like round element with a Buffalo facing left (like on the Buffalo nickel), with Buffalo, N.Y. printed above the Buffalo. On the inside, is an encased 1940 or 1941 dime in the middle (showing obv. only), with 6 lucky symbols on the outside. EB; EB $30

[ ] (NY)-(BUF)-WE-10. 1928, RD,35mm. Compliments of/ Ernest Wedekindt// 5 Walden Ave./ Phone - Jef. 7811\\ KMAAHM. Walden Ave. is an east west road that starts at Genesee and goes out into the eastern suburbs. This address is at its beginning near the corner of Walden and Genesee. There are still Wedekindts in Buffalo in 2000 -- there is a Harry A. Wedekindt Funeral Home and a business called Lester H. Wedekindt Inc. This maverick is fully verified by the next, 1932 piece with the same address and phone number but with Buffalo on the piece. JL, JR $18

WEBR was Buffalo's AM 970 radio station from 1924 until 1993 when it changed its call letters to WNED. This is an interesting message on this piece. Someone named Freeling must have been either on the air or someone conducting a survey and the piece was given in return for "thoughts," i.e., some kind of information. JL $12

[ ] (NY)-(BUF)-WE-30. 1956D, H, holed at bottom. Buy at Nat Weisberg Jewelers/ 380 Main St.// Everybody [hole] Else Does\\ KMANGB/ IBGL. A personal article on the Internet about a boy growing up in Buffalo in the 1940s lists a number of business establishments, including Nat Weisberg Jewelers. Nat Weisberg, Inc. was listed in the 1953 and 1960 D & Bs in the Jewelry business. According to the New York Secretary of State website, Nat Weisberg, Inc. was incorporated in 1932 and still exists in 2007 as Weisberg Jewelers, Inc. 380 Main Street is indeed a Buffalo address, on the southeast side of town. BP made this attribution when he found reference to this store on google books, in Rizzo, M., "Nine Nine Eight: The Glory Days of Buffalo Shopping." The business was in existence from 1928 to 1991 and in 1940 moved to the address on this piece, 380 Main St. It is also absolutely attributed by reference to the Osborne orders. JL, OS(1505) $10

[ ] (NY)-(BUF)-WI-20. 1957D, RD,32mm. Hood PF Canvas Shoes// Sid Williams Childrens Shoes/ 1478 Hertel Ave.\\ KMANGB. EB $10. This is one of many series of shoe brands that had encased made for the brand name and the shoe stores that carry that brand in the 1950s and 1960s. Another example of a Hood PF Canvas Shoes encased is another 1957D piece put out for Jim's Shoes, 7 E. High, Oxford, Ohio, cataloged in my Ohio encased catalog as OH-OXF-JI-10.

When I first saw this piece, I went to Altavista, an Internet search engine, and did a search for "1478 Hertel." The first responses pointed to Buffalo, so I checked on Yahoo and determined that 1478 Hertel was indeed a Buffalo address, about 5 miles north of downtown. I then called the Buffalo and Erie County Historical Society and asked them to check the 1957 Buffalo directory for Mr. Williams. There he was, under Sid Williams Shoes at the Hertel address. He and his wife Belle lived at 1394 Amherst St., Apt. 19. I also learned that the street name is pronounced like the word "hurdle," and not Hur - tel', my first guess. The reason I made that wrong guess is that I once knew a woman named Kari Hertel, who did not pronounce it like the street in Buffalo.

[ ] NY-BUF-ZI-10. 1946, H. Jos. Ziel*ula & Sons/ Tavern/ Phone TR-6889// 189 South St./ Buffalo, N.Y.\\ KMANGB/ IBGL. The EB piece has an added hole through the last name of the owner, and so it makes the determination of his name a bit problematic. EB $12

[ ] (NY)-BUF-ZO-10. 1934D nickel, RD. Redeemable in Buffalo by Any Zone Man\\ This is a Genuine Buffalo Nickel// Good for/ One Drink. I do not know what this piece is about or who "Zone Man" is. DF suggested that this idea shows up often on other tokens, in pieces from Breweries, likely in his view the New Buffalo Brewing Cimpany. He believes the "zone man" was a distributor. Sold on eBay in October, 2004 for $179.50 on 14 bids, offered again in June 2012 for a no taker buy it now price of $295.. EB $150

[ ] NY-BYR-PE-10. 1948D, RD,35mm. Earl P. Petherbridge// Byron, N.Y.\\ KMANGB. Has the high relief and style of a Chevy piece. Indeed, Petherbridge Motors, Inc. is listed as a motor vehicle dealer in the 1953 Dun & Bradstreet. Thus, this is probably an unlisted Chevy piece. JL, EB, ATCO $20

[ ] NY-(CAN)-RO-10. 1947, H. Roseland Park/ Playground of the Finger Lakes// Canandaigua Lake, N.Y.\\ KMANGB/ IBGL. I called the Canandaigua library on this one and found out that Roseland Park was an amusement park on Lakeshore Drive in the city of Canandaigua, which began operations in 1925 and shut down in 1995. The librarian remembered a penny arcade (maybe that is where the encased were given out or even made) and a famous merry go round. Now it is being developed into town houses and a hotel and convention center. The only Roseland that is still in Canandaigua in 2000 is the Roseland Bowl. JL, EB, JR, BS#38,865 $20

Caroga Lake (on the south end of the Adirondacks, midway between Utica and Saratoga Springs)

[ ] NY-CAR-SH-10. 1946, H. Sherman's Park// Caroga Lake New York\\ KMANGB/ IBGL. The park is still open in Caroga Lake in 2003, described as a "small, lakeside park with a carousel and a steel kiddie coaster." There is substantial space between the city and state, enough for a hole, though none is there on the three pieces I have seen. JL, EB $15

Castile (50 miles mostly E and a bit S of Buffalo)

[ ] NY-(CAS)-LE-10. 1953D, H, holed at bottom. Souvenir/ of// Letchworth State Park, N.Y./ Grand Canyon [hole] of the East\\ KMANGB/ IBGL. This piece was discovered in a 4 encased lot that came on for sale on eBay in November 2007. Before I saw this piece, I had reported in this catalog that the park called itself the "Grand Canyon of the East," based on its marketing materials. The term comes from the fact that the Genesee River flows through the park on its way to Rochester and Lake Ontario, cutting a gorge with cliffs as high as 600 feet. See my comments under Laurens regarding cataloging state park encased. According to the N.Y. State Park Internet site, 1 Letchworth State Park, Castile is the mailing address of this park. The attribution to Castile is confirmed by the -22 piece, which actually lists Castile as the city. JL, EB $12

[ ] NY-(CAS)-LE-14. 1955D, H, holed a top. Same obverse die as on the -12, but a different rev. Here, the wishbone ball is under the "BR" of Bring, while on the -12, it is under the "R." EB $10

[ ] NY-(CAS)-LE-16. 1961D, H, holed at top. Letchworth [hole] State Park,// N.Y.\\ KMANGB/ IBGL. A different obverse die than the -12 and -14, easily noted by the different wording. Looks like the same rev. die as on the -18. JL, EB $8

[ ] NY-(CAS)-LE-18. 1962D, H, holed at top. [hole]/ [six pointed star with a circle in the middle on each side of the cent] Souvenir of// Letchworth/ State Park, N.Y.\\ KMANGB/ IBGL. The 1962D obverse die appears to be the same obverse die as the -12 and -14, 1954D and 1955D. Maybe they broke that old die out of storage. It is yet a third reverse die though; the right leg of the "K" in Luck points to the "E" in Broke on the -12 and -14, but points under the "E" on this piece. In addition, the ball of the wishbone is mostly round on the -12 and -14 and mostly oval on this piece. JL, EB $8

[ ] NY-(CAS)-LE-20. 1964, H, holed at top. [hole]/ Souvenir of// Letchworth/ State Park, N.Y.\\ KMANGB/ IBGL. A fourth obv. die, as noted by the fact that there are no stars on this piece. Also, a different reverse die than the -18, a fourth example. Here, the clover is much smaller than it is on the -16 and -18, with the stem finishing noticeably above the cent. JL, BS#34,1141 $8

[ ] NY-CAS-LE-22. 1967, 1969D or 1970D, H, holed at top. Souvenir [hole] of/ Letchworth State Park// Castile, New York\\ KMANGB/ IBGL. A fifth obv. die, the first time Castile appears on the piece. [ ] NY-(CAS)-LE-24. 1976D or 1977, H, holed at top. Souvenir [hole] of/ Letchworth State Park, N.Y.// [nothing under the cent]\\ KMANGB/ IBGL. A sixth obv. die with Castile no longer on the piece. These two dates have the same dies each side. JL, SA#5,397; JL $8

Catskill Mountains (the Catskill Mountains are that portion of the Appalachian Mountains from the Pennsylvania border just northwest of New Jersey. They are in several counties: Sullivan, Ulster, Delaware and Greene primarily. The highest point is just over 4000 feet, in Ulster County. The foothills are only 70 miles from New York city so that the area is a favorite New York City getaway)

[ ] (NY)-CTM-SV-10. 1930 or 1935, H-FOB. Souvenir/ of// Catskill/ Mts.\\ KMANGB [the "Go" is nearly horizontal, very unusual for the horseshoe reverse] / IBGL. There is one other New York piece that refers to the Catskill Mountains, (NY)-SUL-CA-10, a 1967 piece which is a souvenir of the Catskill Mountains, Sullivan County. For a similar piece for the Adirondack Mountains, see (NY)-ADI-SV-10. JL; EB $25

The FOB horseshoe encased is pretty rare. It was made from the mid 1910s through the late 1930s. On some of these pieces, this one included, the lettering is a bit indistinct; for example on this piece many of the letters of Souvenir are doubled and Mts. at the bottom is lighter than the rest of the letters. The (NY)-NYC-SV-?? piece with 1923 cent also has somewhat indistinct lettering. There is a Souvenir of San Francisco California piece cataloged and pictured in Feisel and Hoffman's 2000 Catalog of California Encased Coins as No. 55 under San Francisco, with a 1929 cent. That SF piece and the above described NYC souvenir piece have the same reverse as this Catskill Mts. souvenir, with the horizontal Go. Another piece with this reverse is a 1937 Souvenir of Washington, D.C. piece. I will call these pieces H-FOB type 1.

I also know of the following pieces, which I will call H-FOB type 2, with a slightly different reverse: a 1934 Roanoke, Virginia piece for Auto Spring & Bearing Co. Inc.; 1934, 1935, 1937, 1938, 1939 and 1940S Souvenir of Washington, D.C. pieces (all of which have the same obverse dies, but different obverse and reverse die than the 1937 DC piece discussed above); 1927 and 1928 pieces for A.J. August Clothing Co. of St. Joseph, Mo. (those two have different obverse dies) and a 1926 Manitowoc, Wisconsin piece for J.J. Stangel Hardware Co., all of which have a reverse which is similar to the New York and California pieces, but not the same. On those pieces, the "Go" is diagonal and the letter "G" in "Good" lies in the middle of the "K" in "Keep," while on the type 1 pieces, the "G" is just outside the "K."

Finally, there is a 1940 piece for the Borok Furniture Co., Newark, N.J., which has a different reverse, with the "Go" vertical, as on most horseshoe pieces. This is H-FOB type 3. For sale on eBay in September 2000 was a 1914D cent H-FOB piece for "Bane & Rathcliffe," Pulaski, Va., which has the type 3 reverse. I got in touch with Mr. Bane in Pulaski Virginia in 2000 and he verified that the Bane on that piece was his father who operated a dry goods store on Main Street in Pulaski from 1914 or 1915 until 1932 or 1933, mostly under the name, the Racquet Store. This piece has an authentic 1914D cent in it and the cent was, without question, struck with the encasement it is now in. I cannot explain the 26 year difference in the dates of the cents in these two pieces, except to speculate that the 1914D may have been a test piece made in the 1940s. That speculation is supported by the fact that the Bane piece says, "Watch Fob No. 456" on the bottom, which suggests it may have been a sample. If it was a sample, though, why did they use a real business for the sample piece, which business was gone in the mid-30s?

Cedarhurst (a village located in the Town of Hempstead, in SW Nassau County, near the border with Queens, just E and a bit S of JFK airport)

[ ] (NY)-CED/HEW/RKP-LA-10. 1961 or 1961D, H, holed at top. Lawrence- [hole] - Cedarhurst/ Federal Savings// Cedarhurst - Hewlett/ Rockaway Park\\ KMANGB/ IBGL. I found several legal cases in which the Lawrence Cedarhurst Federal Savings and Loan Association was a party in New York courts between 1940 and the 70s. A case in 1979 said that Century Federal Savings & Loan Association of Long Island was the successor in interest to Lawrence Cedarhurst Federal Savings. It appears that the GreenPoint Bank is now located in Lawrence at the location that Century used to be at. Although the Lawrence-Cedarhurst Federal Savings was certainly also located in Lawrence (just south of Cedarhurst), I read this piece to be referring to locations in Cedarhurst, Hewlett and Rockaway Park, which is how I have cataloged it. RG reports that Woodmere, Cedarhurst, Hewlett, Lawrence and Inwood are exclusive residential areas and are known as "the five towns." NTCA, 3/01, p.51,15, RG; JL, EB $10

Cheektowaga (84,000 people live in this city with an Indian name; it is a very close in suburb to the W of Buffalo; according to the Internet site of the Cheektowaga Chamber of Commerce, the name is from an Erie Seneca Indian set of words that mean, "place of the crabapple tree")

[ ] NY-CHE-BA-10. 1946, H, holed at top. Bar 20 [hole] Dine – Dance/ Mixed Drinks// 2493 Broadway/ Cheektowaga, N.Y.\\ KMANGB/ IBGL. [ ] (NY)-(CHE)-BA-20. 1954D, H, holed at bottom. Bass Men's Shop/ Styled Mens Apparel// Airport Plaza/ Union Rd. [hole] at Genesee\\ KMANGB/ IBGL. Genesee is a main road that starts near Main Street in downtown Buffalo (see the Gamler pieces in Buffalo) and heads west and a bit north out of town. It intersects with Union Rd. in the close in western suburb of Cheektowaga, a half mile or so before it reaches the Buffalo-Niagara International Airport. There is an old strip shopping center at the corner of Genesee and Union Rd. called the Airport Plaza. The directories at the Buffalo and Erie Historical Society library for Cheektowaga start in 1957 and this business was not in that directory. Both the 1957 directory and the 1954 City of Buffalo directory show a men's clothing store called "Weinberg and Bass" at 1554 Genesee St. in Buffalo. Based on the above, I am going to call this piece verified, as it would be an amazing coincidence if there were another Airport Plaza at the intersection of Genesee and Union Rd. near the airport in another town. [ ] NY-CLA-CA-10. 1948, H, holed at bottom. C.A. Ellis Co./ Thousand Islands// Clayton [hole] New York\\ KMANGB/ IBGL. Clayton is in the middle of a resort area called "Thousand Islands." There are several quite large islands in the St. Lawrence River and there must be quite a few small ones as well. Clayton is an old town, settled in 1822. Look under Alexandria Bay for a Souvenir of 1000 Islands piece. JL (my piece has a 1945D cent in it, but it was certainly replaced at one point – the cent was tooled into the encasement upside down, and then wore down with the encasement over the years so that the areas of the cent which were squished in are worn; the style of the piece is indeed from the 40s or 50s), EB (finally a piece with original cent of 1948 came on for sale on eBay in February 2010, another in October 2016), VN (without cent) $12

[ ] (NY)-(DEP)-CO-10. 1957D, H, holed at top. Cole Motor [hole] Car Co. Inc./ English Ford// 4887 Broadway/ RE. 91115/ English Ford\\ KMAYWHGL. 4887 Broadway is way out east in the town of Depew. The good librarian (Linda) of the Buffalo and Erie County Historical Society looked this one up for me, at BP's suggestion, in the 1957 Buffalo telephone directory, and there it was in the yellow pages -- Cole Motor at 4887 Broadway in Depew. The advertisement said it was an Authorized English Ford Dealer selling Anglia, Prefect, Consul, Zodiac and Zether and its operations included Sales, Service and Parts. There were ads for this establishement in three 1958 editions of the Tonawanda News, listing the address and phone number on this piece. Another location was listed in the phone directory white pages at 259 Amherst, in Buffalo itself. A check on the Internet under English Ford showed that approximately 250,000 English Fords were imported into the United States between 1948 and 1970 and the autos included the Anglia, Prefect, Consul, Zephyr, Zodiac, Capri, Cortina and Thames Van. I don't think this dealer was related to King Cole Motors, Inc. (see (NY)-BUF-KI-10), particularly because of the difference between Motors on the later and Motor on this piece. JL, AM(478) $10

That Floral Park is a small suburb of Butte, and it has no banks in it at all. The Nebraskan eBay seller of this piece said that "a little research shows this to be from New York," but did not share that research with us. I did a search of New York legal cases and found a 1936 case in the New York Supreme Court where the First National Bank and Trust Company of Floral Park, New York was the appellant. The first bank listed under Floral Park in the 1953 Dun & Bradstreet is the "1st Nat Bk & Tr Co." with capitalization of $1,138,000. There is no reference that I can find to this bank in the New York bank listing on the Internet, but that listing is not complete. Based on all the foregoing, I am going to call this piece verified. The New York Supreme Court is not the highest court in the state of New York's legal system, it is an intermediate court between the trial court and the New York Court of Appeals, which is the highest court. Fort Ann (a few miles E of Lake George, about 50 miles N and a bit E of Albany)

[ ] NY-(FAN)-FO-10. 1953D, H, holed at top. Souvenir [hole] of/ Fort Anne, N.Y.// 1692-1781\\ KMANGB/ IBGL. There were two Fort Annes in New York; this one, what is now Fort

Ann (no typo), and one in New York City. According to a New York website about New York forts, this site was first occupied as a fortified camp in 1690 and again in 1692. It was fortified as Fort Schuyler in 1709, destroyed and rebuilt in 1711 as Queen's Fort, then renamed Fort Anne. It burned in October 1780. It was reconstructed in 1954 as a tourist stop and is now a bank. The Fort Anne in New York City began as Fort Amsterdam in 1626, became Fort James in 1664, Fort William Henry in 1691, then Fort Anne in 1703 and finally Fort George in 1714. It was demolished in 1790. It seems that this piece matches the Fort Ann Fort Anne pretty well and the New York City Fort Anne not at all. My guess is that this piece was made in 1954 when the fort opened for tourism. Therefore, I have cataloged it here. JL, EB, BS#51,45 $10

It changed its name in 1949, after these two encased pieces had come out, to the Franklin National Bank of Franklin Square. After a series of mergers, acquisitions and name changes, it is the European American Bank as this was written in 2001. This piece is relatively common, though it took me a while to realize it so that I paid too much for my first piece and overvalued the piece in earlier editions of this catalog. JL, AS, BS#33,21 $10

[ ] (NY)-(GAR)-DO-10. 1939, RD,35mm. Read Double D/ [logo each side of cent] Westerns\\ "Hard Money"/ By Luke Short. Luke Short was the pen name of Frederick Dilley Glidden, a writer of westerns who was born in Kewaunee Illinois in 1908, moved to New Mexico in the 30s and to Aspen Colorado in 1947, where he died in 1975. Hard Money was one of his earlier works, published in 1938. Double D Westerns is a trademark of Doubleday, which was located in Garden City, New York, as described in the next piece. I believe that this piece was put out by Doubleday, as the publisher, to advertise Double D Westerns, and so have cataloged it here. JL $10

Doubleday// Books [dot] Records\\ [dot each side] Good Luck// [5 out of the 12 zodiac symbols: Scorpio, Sagittarius, Capricorn, Aquarius and Pisces]. The disk on each side is cut with grooves, like a record. I called out to Doubleday in Garden City and the receptionist told me that the corporate headquarters of Doubleday & Company, Inc. have always been in Nassau County in Garden City, while the editorial offices are in Manhattan. I have a 1951 edition of one of my favorite author's books -- Isaac Asimov's the Foundation Trilogy and it says, "Doubleday & Company, Inc. Garden City, New York" on the title page. The ACE Maverick attribution of the -12 variety was originally to Long Island City but then correctly changed to Garden City through a reference to the Thomas Register of American Manufacturers in 1960. Listed under Books - Publishers at 501 Franklin Ave. Garden City LI in the 1960 NYC Business Classified Directory. According to the book, "Don't Know Much About the Civil War," the Doubleday company was founded by a

descendent of Abner Doubleday, the man who didn't invent baseball. JL, KK541; RG, JR, BM#9,24, BS#32,60; MK $7

This piece has the same reverse die as the -12. This description is of the piece actually submitted to ACE for the Maverick attribution by Florida collector Carl Bangora, who kindly lent it to me to catalog. [ ] (NY)-(GEN)-CL-10. 1953D, RD,35mm. The/ Click// Intersection E. North St./ Geneva, Waterloo Rd.\\ KMAYWHGL. The Geneva Waterloo Road is US Route 20 and NY Route 5 traveling together between Geneva and Waterloo. There are two E. North Streets in the area, county road 110 in Geneva is E. North Street, but it now becomes Bolder City Road in Seneca County (Waterloo) and it has that name when it intersects the Geneva Waterloo Road in Waterloo. There is an access road in the park in Seneca County, south of Rte. 20, that I am told is no longer used, perhaps they once connected and crossed Geneva Waterloo Road. Back before the Osborne Coinage records were made available by BR, I had guessed that Waterloo was the more likely city the restaurant was in. The Osborne records contain the address where the 1000 pieces were sent: "Chas. Sabatini-Click Restaurant, E. North St. & Waterloo Rd., Geneva, N.Y." That seals the attribution to Geneva. Hamburg (about 10 miles directly S of Buffalo)

[ ] (NY)-(HAM)-BU-10. 1979 or 1980, H. Get Lucky at Buffalo Raceway\\ KMAHGL/ IBGL. Buffalo Raceway was founded in Hamburg on the Erie County Fairgrounds in 1942, after the state legislature authorized pari-mutuel harness racing betting. It is still there today, operated as a harness racing track. Although the piece says, "Buffalo" on it, it is the name of the business and not the name of the city. Therefore, I have cataloged this piece to the city of its location. The only exception in my catalogs is for pieces that are for public facilities, such as the Detroit and Columbus Zoos, where the name of the facility refers to the entire metropolitan area. Hammonton, New Jersey (in the south central part of the state, midway between Philadelphia and Atlantic City – OK so what is a New Jersey city doing in the New York catalog? see the entry below for details)

for 1948, RD,35mm, Ranere Chevrolet Co.// 17-19 Central Ave./ Hammonton, [sic] N.Y.\\ KMANGB, see (NJ)-HAM-RA-10. Even though this piece has "N.Y." on it (and yes I checked carefully at least 10 times), I can't find any New York city, neighborhood, location, etc. called Hammonton and believe the piece was from New Jersey and the "Y." is a typo. This was an unlisted Chevy piece when it came on for sale on eBay in June 2012, and on first look it sure seemed like it had to be from a neighborhood of Queens, with its typical hyphenated address.

But I cannot find any 1719 Central Ave. in either Queens or Brooklyn, although there is a Central Ave. in southeastern Queens, south of JFK airport in Far Rockaway. But that is Far Rockaway and not Hammonton. There is no "Ranere" listed in my Queens '34 directory or in my '40 or '53 D&Bs. But there is Hammonton New Jersey and Internet postings show that in 1962 there was a Ranere Chevrolet in Egg Harbor City on White Horse Pike because of reports of what a storm did to the dealership on March 8. Egg Harbor City is about 12 miles SE of Hammonton. And "Peter T. Ranere" is listed in the "Auto and Gar" businesses in Hammonton NJ in the 1940 D & B and in the "Ats" business in the 1953 edition. 17 and 19 Central Ave. are valied addresses in Hammonton N.J. Thus, I conclude that the piece is from the New Jersey city and there is simply a typo in the state. I would assume the dealership noticed the typo when the pieces were delivered in the late 40s but choose to give them out anyway, secure in the knowledge then that no one thought Hammonton was really in New York. According to the Internet phone exchange website, Garden City was both a Garden City, New York and a Hempstead (just south of Garden City) exchange and it was indeed Garden City 7, also 3. New York metropolitan area was at 7 digits in 1953. There is indeed a Main Street in Garden City and then continuing south into Hempstead. There is a listing for Main Auto Sales in Hempstead and none in Garden City in the 1953 Dun & Bradstreet. I believe the above is enough to verify the piece to Hempstead. JL $12

[ ] (NY)-(IRV)-PE-10. 1978 or 1978D, H. We Want Peyser Again\\ KMAHGL/ IBGL. According to the Biographical Directory of the United States Congress on the Internet, Peter A. Peyser, born 1921, was first elected mayor of Irvington in 1963 and reelected four times. He was then elected as a Republican to Congress in 1970 and reelected two additional times. He did not run for reelection in 1976; instead he unsuccessfully sought the Republican nomination for U.S. Senate. He then switched party affiliation and ran again for his old house seat in 1978 and was elected in that year and again in 1980. He was defeated in 1982. The theme of this piece makes sense with that biography -- Peyser was running "again" for his old seat. He was still living in Irvington in 2002. JL, BS#64,65; EB $5

This is the second type Bicentennial reverse I know of. The first has "1776 - American [hole] Bicentennial - 1976" around the horseshoe instead of the usual KMANGB and a liberty bell at the bottom instead of the usual clover. It comes in both horseshoe and round pieces (no hole in the round). I know of several Pennsylvania pieces with this reverse. It looks as if the reverse Bicentennial die was only made for this piece. There was an interesting error version of this piece sold on eBay in March 2000. It was struck about 20% off center so that even though the cent was in the middle, it was not in the center of the spot reserved for the cent. JL $5

The line under the cent starting with "Home" begins above the cent and continues well around above the second line that starts with "Clothiers." DG reported a 1892 Indian (sale 110, lot 133) that he claimed was the original cent, and that must have been the piece that RG sold on eBay in September 2009, guarantying the cent was original. DG also reported a 1913 in sale 101, lot 71. This must have been made around 1920 with circulated cents, so that an 1892 is indeed possible. [ ] NY-KIN-SV-10. 1901, SH. Souvenir, Kingston City, N.Y.// [small star on each side] 1901\\ KMANGB/ IBGL. I called the Kingston, New York library and the reference librarian checked the 1901 directory. The town was still called only "Kingston" then, not Kingston City. However, the reference must be to Kingston. This piece has the type 3 squat horseshoe reverse. It is different than the type 2 reverse that is on the (NY)-BUF-PX-20 in that the "I" lines up directly over the "G" in Good, while on the type 2, the "I" is to the left of the "G." Also, on the type 3, the lines between the rims and the letters KMANGB do not extend all the way to the end of the And and the start of the Never, while they do on the type 2. The type 1 reverse was made in 1900 and RI-PRO-YO-10 (the 1900 Geo. F. Young Providence Rhode Island piece) is an example. On type 1, the "I" is well to the left of the "G" in Good and the lines between the rim and the KMANGB do not reach the end of the words And and Never. JL, EB, BS#32,50 $50

Patchogue is on the south shore of Long Island, Rocky Point is on the north shore. The 1940 D & B is a bit circular on this business: "Gustav Zeidler" is listed as a builder, plumber and well driller in Rocky Point, shown there as a branch of Medford Station, and also under Medford Station, shown there as a branch of Rocky Point. They can't all be branches! The1953 D & B does not establish one location as more important than the other: Medford shows "Gustav Zeidler Jr." (wonder if that's the same guy or his son?) only in the well drilling business, see also Rocky Point, whereas Rocky Point now says to see Medford. Thus, I am going to list both Medford and Rocky Point as the home for this business, particularly as I think the two phone numbers listed on the piece were from those two locations. There is nothing listed in Patchogue. As Medford is closer to Patchogue than to Rocky Point, my guess is that the business in Medford had the Patchogue exchange. Sold as part of a three piece lot on eBay in August 2007, that belonged to the seller's "Long Island grandmother." EB $15

[ ] (NY)-(MTN)-EM-10. 1971D, RD,35mm. Empire National Bank// The/ All-Around/Bank\\ Who Says We Never Give// Free/ Samples? The eBay seller of this piece told me

that he picked this piece up at this bank in New City, located at the corner of New Hempstead Road and North Main Street. He said it had been the Rockland National Bank in the 60s, then the Empire National Bank and is now the Bank of New York. According to the records of New York banks posted on the Internet, the National Bank of Middletown was founded in 1934 and became the County National Bank in 1964. County National Bank merged with the Rockland National Bank in February 1970 and the resulting bank became the Empire National Bank. That bank was itself gobbled up in 1980 by the State Bank of New York, which changed its name in 1989 to the Bank of New York. The F.D.I.C. website lists Empire National Bank from Middletown, New York. My guess is that the bank in New City where the eBay seller obtained the piece was a branch. Based on the above, I believe Middletown to be the appropriate attribution and as the timing of the name changes described above matches the date on this piece and the eyewitness story of the eBay seller, I am willing to call this piece verified. [ ] NY-(MTN)-GI-12. 1979D, RD,35mm. Congressman Benjamin A. Gilman// 26/ New York\\ KMAYWHGL. According to the Congressional biography website, Benjamin Gilman served in the House from 1973 to 2002. According to numerous newspaper and other articles on the Internet, he was born in 1922 in Poughkeepsie, the son of a Middletown dry cleaner, went to high school in Middletown and was referred to as R-Middletown. The Congressional district he served changed each ten years as New York lost Congressional seats after each census: he served the 26th District (as on this piece) from 1973-1983; the 22nd from 1983-1993, the 20th from 1993-2003, and then retired when his district was eliminated following the 2000 census. I emailed the then former Congressman in 2003, and he gave me a phone interview. Middletown was both his home town and his district headquarters. The only explanations I can think of are (1) one of the best replacement jobs ever or (2) a 1939 cent slipped in either on purpose or by accident when this piece was manufactured. This is an unlisted N.Y. Chevy piece. The "S.A". reverse is indeed the same die that was used on the 1948 cents in this series. JL bought from NTCA, 11/00,p.16 $25

[ ] (NY)-(MTC)-MO-10. 1976D, 1978D or 1980D, H. Monticello Raceway\\ KMANGB/ IBGL. Monticello Raceway is a year round harness racing track that opened in Monticello, New York on June 27, 1958. It is still in business as of the 2001 racing season. It is somewhat difficult to compare the 1976D, 1978D and 1980D obverses as there are no overlapping letters, but I believe they are the same as the top of the "I" in Monticello extends above the "T" next to it on all three pieces and the "E" in Raceway extends below the "C" next to it, so that the "C" is noticeably smaller than both its neighbor letters. However, on the 1976D eBay piece there are three dots below the cent that are not on any other piece I have seen. JG helped me positively identify this one. He sent me an article from the May 4, 1962 issue of Time Magazine that was posted on the Internet; it referenced a $100 a plate

fundraiser for Nassau County (Long Island) Republicans where Governor Rockefeller was the guest speaker. Dinner Chairman Salvatore Malone gave each of the 1640 Republicans present a "silver dollar encased in plastic," and Rockefeller was quoted as saying: "It was my grandfather's custom for years to give away dimes. But tonight Sal Malone is giving away dollars. It just shows it pays to stick along with the Republican Party – three generations, dimes to dollars." New York City (New York City consists of five boroughs, each of which is in its own separate county. New York City must be the only city in the country that is in five separate counties.

Manhattan island is New York County. Manhattan is long and skinny and generally lies between the Hudson River to its west and the East River to the east, with the Harlem River connecting the two rivers at the north end of the island. The geography of the other boroughs is described when those boroughs are listed below.

The numbered streets on Manhattan run generally east and west and the same street is labeled "East" if it is east of Fifth Avenue and "West" if it is west of Fifth Avenue. The Avenues run north south.

In this catalog, "NY" stands for the state, New York, while "NYC" stands for New York City. On those many pieces which only say, "New York," I have assumed that the piece is referring to the city and not the state, unless context requires otherwise. This is consistent with how people from New York city would refer to the city; and, after all, it was those New Yorkers who had these pieces made.

The pieces that say they are from New York City and the mavericks identified to Manhattan are listed first, under "NYC." Some places in the Bronx list New York City, and they are here and not under the "Bronx." The Dun & Bradstreet lists Manhattan and the Bronx together, and then the other boroughs separately. Those pieces which specifically identify the location as one of the boroughs, such as "Bronx," or "Brooklyn," and those mavericks which have been identified to a specific borough, other than Manhattan, are cataloged under the borough at the end of the NYC listings. You will notice that none of the pieces specifically identifies "Manhattan" -- all the Manhattan locations simply say "NY" or "NYC."

Those pieces that specifically list a neighborhood as the city, like Harlem in Manhattan, Flatbush in Brooklyn or Long Island City in Queens are listed under the neighborhood following the listings for the appropriate borough. However, if the piece does not specifically list the neighborhood as the city, then it is listed under the borough, even if the neighborhood is listed as part of the business title on the piece. An example should make this clear. The "Flushing National Bank" piece is a maverick that has been identified to Queens, and so it is listed there. The "Flushing" on the piece is a reference to the merchant and not the neighborhood, so the piece is not listed under Flushing.

The Chevy series from 1948 with 1947 or 1948 cents encased is well know and very popular, with articles in TAMS journals and on the ECT website. [ ] (NY)-(NYC)-AS-10. 1948D, H. Askins/ [to left of cent in two lines going up] Family/ Clothes [to right of cent in two lines going down] Easy/ Credit// This Coin is Worth/ $2.00 Credit/ on 20.00 Purchase\\ KMANGB/ IBGL. BP found the corporate headquarters for Askin Stores, Inc. and Askin Retail Stores, Inc. located in Manhattan in his 1955 national Dun & Bradstreet directory. He also found Askin Stores, Inc. listed at 461 8th Ave. in the 1939 Manhattan yellow pages. That led me to find that Askin Stores Inc. and Askin Retail Stores, Inc. were indeed New York corporations headquartered in New York City. I then found the obituaries of brothers Seymour R. Askin who died at age 90 in 1988 and Arnold, who died at age 80 in 1982 in the New York Times. The obituaries indicated that the brothers were the owners of Askin Stores, a company founded by their father, which at one time included 65 retail clothing stores, located primarily in the south and the southwest. The company was sold in 1960. I checked a legal database and found four reported legal cases in which Askin Stores was a party, in Florida, Georgia, Ohio and Texas. In 2005, BP got a report from a member of NTCA who sold to clothing stores in the south in the '50s. He indicated that he sold to the Shreveport LA Askin's and Seymour stores and knows that they were owned by the same people with corporate headquarters in NYC. Based on the dates on the Askin pieces and the information above, I believe that it is almost certain that the Askin encased pieces are for this chain of clothing stores that was headquartered in New York City.

There have been many misattributions of this piece. I believe it is because someone finds an Askins store in one of the many states where the chain did have stores and incorrectly attributes this piece to that place. Thus, the first attributions of AM(114) were to

Philadelphia and Detroit, without evidence. BP says that the Askins piece has to be the most incorrectly identified maverick in the ACE program.

There are at least five other pieces like this one, the first two with "Menter - Askin" ((NY)-(NYC)-ME-50) or just "Menter's" ((NY)-(NYC)-ME-40) at the top instead of "Askins"; the third with "Seymour's (see (NY)-(NYC)-SE-10 through -14); the fourth for Askin and Marine ((NY)-(NYC)-AS-20) and the fifth for "Halls" (see (NY)-(NYC)-HA-40). Each of the other five types has the Family Clothes, Easy Credit on the side and the good for language at the bottom, identical to the Askin's pieces (even to the extent that all pieces have a $ before the 2.00 but not before the 20.00). I am not at all certain where to attribute the first two pieces. There was an article on Menter clothing tokens, including encased, in the June 1997 Tams Journal, Vol. 37, No. 3, which indicated that as of the early 50s, the Menter chain only had stores open in Minneapolis, Kansas City and Albany. However, there are two listings for "Menter Stores" in the 1953 Manhattan directory at 45 W 14th and 157 W 125th. That looks like actual stores though not corporate headquarters (for example, Askin's is listed under "Askin Stores Inc. and Askin's Retail Stores Inc." Although I think the two Menter pieces are possibly attributable to NYC, that is not yet certain. However, the Seymour's pieces are also NYC, listed below, with the stores named for Seymour Askins. [ ] (NY)-(NYC)-AS-12. 1950, H. Same words and general orientation as on the -10 and the same obverse die, but a different reverse die. The KMANGB letters are very large on the -10, taking up almost all of the room inside the horseshoe. The letters are much smaller on the -12, with substantial space in the horseshoe both above and below the letters. For that reason, there is much space between the words, Keep Me And, on this piece, and very little space on the -10. In addition, the right leg of the "K" in Luck points to the right side of the "E" in Broke on the -10; it points between the "K" and the "E" on this piece. This reverse die matches the reverse die of the (NY)-(NYC)-SE-12 piece, also with 1950 cent. JL, AM(144), OR(260) (21,500 pieces shipped to 22 different shipping destinations, sold to "Askins Stores, Inc. . . . [ ] (NY)-(NYC)-AS-14. 1956D or 1957D, H. Again, the same words and general orientation as on the -10 and -12, but this piece has different obverse and reverse dies. The obverse is quite close, but distinctly different. The easiest place to see the difference is in the orientation of the two lines: Easy Credit. On the -10 and -12, the vertical line of the "E" in Easy points down to the right side of the "R" in Credit. On this piece, it points down between the "C" and the "R." This reverse has the smaller letters of KMANGB, as on the -12, and unlike the very large letters of the -10, but here the right leg of the "K" of Luck points to the middle of the "E" in Broke. On the -12, it points between the "K" and "E." I can detect no difference between the 1956D and 1957D dies. JL; EB $8

Osborne record 259 was for 3000 pieces, 2000 to be shipped to the Atlanta store and 1000 to the Knoxville TN store. This piece is possible from OR(798) dated August 14,

I had some difficulty finding Yorkville, but a call to the Yorkville Inn in Manhattan verified that Yorkville was originally an official neighborhood in Manhattan located around 86th and 2nd Avenue on the upper east side. It no longer is an official neighborhood and so is not listed on the maps, but residents of the area still know it as Yorkville even today. That must be the Yorkville referred to on this piece and not the city near Utica about 175 miles away. The cent in my piece has a bit of an unusual golden color, like others of this and the -32 I have seen. I suspect wholesale cleaning when the pieces were made. I have no idea what the 1869 is and why it has become 1879 on the -32 and -34 versions. When I only knew of the 1879 versions, I thought it was the year the company was founded. According to many stories on the Internet, Best & Co. was a New York City department store from the 1800s to 1971 when it closed. Best & Co. is listed as a NYC department store in both the 1954 and 1960 NYC Business Classified Directory, at 645 5th Ave, which Yahoo shows is at 51st Street, not 35th. The eBay piece was very interesting: the cent appeared to be bright original red and the seller described it as MS67RD. However, the cent was upside down in the encasement. The people who made encased coins in the early 1900s were very careful -- I have only seen a couple of cents not properly oriented that were original. The normal orientation on the wishbone is cent obverse right side up to encasement reverse and cent reverse upside down to encasement obverse. On the eBay piece the cent obverse was upside down to the encasement reverse. ATCO had a listing of a horseshoe piece -- maybe that was really this wishbone (I have seen many wishbone pieces described as a horseshoe, even by people experienced in encased pieces) or maybe it was the squat horseshoe. I am not going to list the horseshoe as a separate piece until I see another one. The MS67 had a bid of $177. EB, ATCO $70

The Chase Manhattan Bank/ Souvenir of Your Visit/ New York [one word on each side of the cent]// 75,000 Specimens of Money/ Museum of Moneys of the World\\ KMANGB. According to a Coin World article on page 76 of the January 31, 2000 issue, Farran Zerbe spent over 40 years assembling his "Zerbe Moneys of the World" collection, which he lent to the Chase Manhattan Bank for display in 1926. The bank purchased the collection in 1929 and opened a museum called, "The Chase Manhattan Bank Collection of Moneys of the World." This is the museum referred to in this piece. The Bank transferred the collection to the Smithsonian Institution in Washington D.C. in 1975. In the 1953 Manhattan phone directory the Money Museum of the Chase Natl Bank (see (NY)-(NYC)-CH-42 below for the history of the bank) was listed at a downtown address: 13 Broad Street. In 2000, Chase announced it was merging with J.P. Morgan to form one of the largest banks in the world. This is a pretty common piece. JL, EB, DG#68,502, BS#33,58 $5

[ ] (NY)-(NYC)-CH-52. 1959, RD,35mm. The Chase Manhattan Club// 50th year\\ KMANGB. The "President and Directors of the Manhattan Company" was founded in NYC in 1799. Over the years it prospered and grew by acquiring quite a few banks. Then, in 1955, it acquired Chase National Bank of New York, and the combined organization became known as the familiar Chase Manhattan Bank. Chase Manhattan remained as a large NYC icon bank until 2004, when it merged with another famous N.Y. bank, J.P. Morgan, and became JP Morgan Chase Bank. Thus, in 1959 or 1960 when this piece came out, the bank was called Chase Manhattan, and it had been in existence long enough to have had a club for the 50 years referenced on this piece. I cannot imagine that this "club" would have been for anything other than the Chase Manhattan bank. In those days, big banks had their own private luncheon clubs in order to entertain their best customers at the bank, when they were in town. This piece was probably given to those important customers. The only reference I was able to find by a google search on the Internet (other than to this piece itself on the eci website) was to a 1972 "Chase Manhattan Club award" given to Rusty Staub. In 1972, Mr. Staub was with the New York Mets. EB, DG#68,501, BS#61,775, BS#66,1448 $8

[ ] (NY)-(NYC)-DE-10. 1901, RD,35mm. Compliments of/ The Dernburg Dress Skirt// Hotel Albert/ New York Sales-Room.\\ KMAAHM. I read this piece as being an advertisement for the Dernburg Dress Skirt, which you could find in the Hotel Albert's New York Sales Room. I have put parenthesis around both the city and state, as the "New York" on the piece is referring to a specific room in a hotel and neither to the city nor the state. The Hotel Albert was in Greenwich Village, started as a hotel in 1886 and in 1977 converted to rental apratments, now known as the Albert and Albert Apartments. EB $40

[ ] (NY)-(NYC)-DE-40. 1952D or 1953D, RD,35mm. Official Dell Comics Club/ Member\\ KMAYWHGL. BP opened a Dell Comic magazine from 1950, "Pogo Possum," No. 6 and it was published by the Dell Publishing Co., Inc., 261 Fifth Ave., New York 16, New York. Dell Publishing Co. Inc. is listed in the 1958 New York Dun & Bradstreet. In 2001, Dell Publishing was part of the Bantam Dell Publishing Group division of Random House, which is also located in New York City. This must have been a comic book giveaway, similar to the Bazooka, Blony piece (see, (NY)-(BRO)-BA-22). I have only seen the 1952D obverse and it looks the same as the 1953D, although there are no overlapping letters to compare. In 2003, a piece with clear repunched "D" mintmark, listed by the seller as 1953 D/D RPM #1 came on for sale on eBay. No bids were made at the $25 starting price. The piece was ordered by St. Marks Specialty Co. in New York City from Osborne with production order date of 7/20/53, an astounding amount of 137,000 ordered, with 12,000 to be delivered "as quickly as possible." Must have been a huge promotion! Then on 12/11/53 another 30,000 were ordered, on 4/16/54 5,000 and on 5/11/54 a further 5,000, "same as previously furnished." [ ] (NY)-(NYC)-DE-42. 1954D, RD,35mm. Same words as on the -40, 1953D piece but both dies are different. On the obverse, the spacing is different, in that, measured at the rim, there is 9mm space between the "O" in Official and the first "M" in Member, while on the -40, there is only 7 mm. If you extend the line of the second "I" in Official downward, on this piece you will come to the middle of the "B" in Club; on the -40, you will come to the left side of the "U." There is a different reverse as well. On this piece, the stem comes out of the clover at the bottom (180 degrees) and swings slightly left. On the -40, it comes out to the SE (about 145 degrees). On this piece, the "H" of Have is under the right side of the "D" in And, on the -40, it lies between the "D" of And and the "Y" of You. The -42 is rarer than the -30 (I guess no one ordered 137,000 pieces of this one). My guess is that sometime in the production of the 177,000 pieces ordered as described under the DE-40 piece above, the dies wore out and some of the later production was with new dies and became the –DE-42. Another order for 5000 was placed on 11/6/54, those almost certainly were with the -42 die pair. JL. OR(3756) $6

[ ] (NY)-(NYC)-DE-44. 1956D, RD,35mm. Same words as on the -40 and -42, but this appears to be a die marriage using the obverse die of the -42 and a reverse die either the same or incredibly similar to that of the -40. Another order was placed by St. Marks Specialty Company on 8/11/56 for 5,000 units and that order was likely filled with this die pair. JL, OR(5464) $6

Bob Slawsky had two of these for sale on eBay in 2017 and sold me one. He said he knows that this dime came out of this box, because his mother received one of from the bank when she openened an account there in 1975 while she was living in Jersey City, New Jersey. He picked up the second one in his decades long task of acquiring exonumia inventory. [ ] (NY)-NYC-DI-22. 1979D, RD. The Dime Savings Bank of NY/ a Div. of Dime/ Bank Where You Shop While You Shop/ Mechanics Exchange. The Dime Savings Bank of Brooklyn was chartered in 1859 and changed its name in 1970 to Dime Savings Bank of New York. It is still in business in August 2000 with 127 branches in the greater New York City metropolitan area. I called the bank and learned that the bank's executive offices are now in Manhattan, no longer in Brooklyn. The bank's website refers back to its founding in 1859, "when we began opening savings accounts for those with no more than a Dime to deposit." See NY-BRO-DI-10 for a 1939 piece for the Dime Savings Bank of Williamsburg, Brooklyn. There is a 1901 off center round maverick for Dime Savings Bank, 40 W. Lexington St., but that is surely from Baltimore where it is Lexington Street, not NYC where it is Lexington Ave. There is evidence on the Internet for a Dime Savings Bank of Baltimore at 28 W. [ ] (NY)-(NYC)-EA-30. 1947 or 1947D, H, holed at top. Good [hole] Luck/ Red Stallion// Eagle Lion Films\\ KMANGB/ IBGL. Red Stallion was a 1947 film, with Eagle Lion Films its studio, production and distribution company. Eagle Lion Films was a British company that specialized in low budget films. Arthur Krim, a New York City lawyer was its president. According to Marquis Who's Who and Arthur Krim's 9/22/94 obituary in the New York Times, he was president of Eagle Lion Films from 1946-1949, in New York City. Eagle Lion Films, Inc. is listed still as an active corporation as of 2003 on the New York Secretary of State website, as an Ohio corporation qualified to do business in New York with address at 105 E. 106th Street, New York City, with an initial filing date of 10/7/46. A review of 26 legal cases, all but two of them from New York, suggests that the company must have been headquartered in New York City. On the other hand, a Wikipedia article about Eagle Lion Films indicates that it had a small film lot in Los Angeles, at 7950 Santa Monica Blvd. Red Stallion was produced in late 1946 and released in 1947. It was almost certainly shot in Hollywood. However, on reflection, I think that this piece is about the distribution of the film – i.e., it is targeted to the audience who will be watching it; and I believe that the headquarters of the distribution wing of Eagle Lion Films was in NYC. Therefore, I list it here. AM(821); EB $12

[ ] (NY)-(NYC)-EN-20. 1948, RD,35mm. Encyclopedia// Americana\\ KMAYWHGL. In 2000, the Encyclopedia Americana is published by Grolier Inc., located in Danbury, Connecticut. It built its own building, the Equitable Building at Broadway and Cedar. As a mutual company, it promised its policyholders that it would share any profits with them, generally in the form of lower premiums. It was subject to a suit by a shareholder in 1909 that it lost in the federal court in New York, which ordered its business to be wound up due to fraud on the mutual policyholder shareholders. [ ] (NY)-(NYC)-GE-20. 1949, H. General Meat Corp./ Chelsea 2-8655\\KMANGB/ IBGL. According to the N.Y. Department of State's records, the General Meat Corp. first filed its corporation papers on December 27, 1946. General Meat Corp. was listed in the 1958 Dun & Bradstreet under Manhattan and the Bronx. According to the DOS, it is still in business today under the name "Long Island Beef Co., Inc." located at 565 West Street, which is near the Hudson River at about 17th Street. According to the phone exchange website (http://ourwebhome.com/TENP/TENproject.html), Chelsea was a phone exchange in Manhattan and Chelsea, Mass., but New York had Chelsea 2 and 3, while Mass. only had Chelsea 3. I have seen this piece attributed to Chelsea, Mass., but I believe the information above and below on the 1961 piece is sufficient to verify this piece to NYC. Keep in mind very few places had 7 digits in 1949, other than the biggest cities. However, the listing for General Meat Corp. in the 1953 Manhattan phone directory was at 826 Wash., Algnqn 5-8600, which is the same as its listing in the 1954 NYC Business Classified Directory. The eBay picture of the 1950D is a bit fuzzy and there are no matching letters to compare, but I think there are two different dies. The letters of "Meat" are farily evenly distributed on the 1949 piece, but on the 1950D piece there is more space between the "E" and the "A," and the "A" is noticeably lower than the "E," so that the bottom leg of the "E" points into the "A," while on the 1949 the bottoms are even. He also found the obituary of Herman M. Bates, Jr., national sales manager and president of the H. Bates Co. of New York. The New York Department of State website lists H. Bates Company, Inc. as an active foreign business corporation (it is a New Jersey corporation), with its initial filing date, January 10, 1936; address for service of process: 120 West 42nd Street, New York City. Many corporations that are headquartered in one state are actually incorporated in another (often Delaware, much less often, New Jersey). [ ] (NY)-(NYC)-HL-10. 1959 or 1959D, H, brass. With the Good Values// at/ H.L. Green\\ KMANGB/ IBGL. H.L. Green was a retail five and ten store, which began in business in 1934, during the Great Depression. The trademark, "H.L. Green" is registered at the U.S. Patent and Trademark Office and, when I checked in 2001, belonged to the McCrory Corporation, a Delaware Corporation with its main office at 667 Madison Avenue, in New York, which itself went out of business in 2002. The registration indicates that the name H.L. Green identifies an individual who is now deceased. The McCrory Corporation filed a chapter 11 bankruptcy petition in the mid-90s and closed quite a few of its stores. There was a 1923 Peace dollar piece sold by Kurt Kruger as lot 609 in the Michael Kohlman sale, which said: "Save During Dollar Days Sept. 26 - 27 - 28 at all McCrory, McLellan and H.L. Green Stores. I have not listed that piece as it was described as a cardboard disc glued to the reverse of the dollar, i.e., a sticker dollar and not an encased coin.

H.L. Green Co., Inc. was a New York corporation with its principal place of business in New York City. This is from a securities lawsuit in the United States District Court for the Southern District of New York in 1961. H.L. Green had stores throughout the country, in Ohio, New York, Massachusetts, Michigan and Alabama for certain, but its headquarters was New York City. As a result, this piece has been attributed to quite a few places. However, if you accept corporate headquarters as the proper attribution for a business that has numerous locations, the correct attribution of these two pieces is to NYC. [ ] NY-(NYC)-HU-10. 1909 Lincoln, RD, 35mm. Hudson-Fulton Tercentenary Celebration/ 1909 [wreath design between the 1909 and the line below on each side]// New York./ [6 lines with dot at end of each coming out of a common point under "New York" and between the top line]\\ KMANGB. The information I have about the Celebration came from the Fourth Annual Report of the Hudson Fulton Celebration Commission to the Legislature of the State of New York, May 20, 1910, a two volume detailed work.

The Hudson-Fulton Celebration (it was not an exposition) took place between Saturday September 25 and Monday October 11, 1909, all along the Hudson River. It celebrated the 300th anniversary of the discovery of the Hudson River in 1609 and the 100th anniversary of the successful application of steam for navigation on the River by Fulton in 1807. The office and place of business of the Hudson-Fulton Celebration Commission was in New York City, with headquarters at the Tribune Building at 154 Nassau Street. The official banquet was in New York City on September 29.

Two facsimile ships were built for the exposition, one of the Half Moon, Hudson's ship, and one of the Clermont, Fulton's steamboat. The ships sailed up and down the Hudson during the celebration. However, no new buildings were constructed for the celebration; existing buildings were used. For example, 22 of the museums in New York City took part, including the Metropolitan Museum of Art.

Other cities along the Hudson joined in the celebration: Yonkers, Newburgh, Poughkeepsie, Kingston, Hudson City, Albany (during the week of October 3), Troy and Cohoes, among others further north. I have attributed this piece to New York City because the headquarters of the celebration commission were in New York City and because of this comment by the commission (at 890 of the book referred to above), "The success of the great Celebration in the City of New York far overshadowed in magnitude the production of the smaller communities to the northward . . . ." This is one where I am not really sure whether New York on the piece is referring to the state or the city. Because the celebration was statewide, I am going to guess the state. [ ] (NY)-(NYC)-HU-20. 1930, RD,32mm. Souvenir/ of// [large 5 pointed star on each side] Str. Hendrick Hudson\\ KMANGB/ IBGL. According to post cards and information on the Internet, the steamer (sometimes abbreviated Str. on the post cards) Hendrick Hudson was part of the Hudson River Day Line daily excursion fleet. The earliest reference I saw to it was from 1908. One post card said it operated from New York City to Albany and another picture showed the boat leaving the harbor in Poughkeepsie bound for New York City. Hendrick Hudson was the Dutch version of the name Henry Hudson. This piece has the same reverse die as the (NY)-NYC-SV-32 and the (NY)-NIA-SV-112 pieces. I suspect a piece was made for all of the Steamers at this time. SH listed one on eBay in July 2017 with a 1934 cent. In March 2018 another came on for sale with a small pouch into which it would fit that said "Best Wishes" on it; the seller claimed it was "obviously" the original pouch; I don't know how that could be established for sure just by seeing the pouch. disappointed that it came with a bend in the encasement at the bottom, not described in the eBay auction and really not noticeable in the picture, although I think it was still worth the $10. I had not noticed that the date was a 1946. At the time I bought this piece, it was then the only known piece of this series with a 1946 date and to my surprise the obverse die was slightly different (I think the reverse dies are the same). [ ] (NY)-(NYC)-JC-10. 1948 or 1949D, RD,35mm. J.C. Penney// Co. Inc.\\ KMANGB. According to J.C. Penney's website, www.jcpenney.net/company/history, James Cash Penney started a single store in Kemmerer Wyoming in 1902, which eventually turned into the chain of stores that still exists today. He originally sold for cash at a time when many others, particularly the company mine store, were willing to sell on credit. In 1909, the company's headquarters was in Salt Lake City. However, in 1914, it moved its headquarters to New York City where it was to remain until 1987 when it moved to Dallas, and thereafter to Plano Texas. An email from J.C. Penney confirmed that corporate headquarters were at 330 West 34th Street in Manhattan in 1948 when this first J.C. Penney Co. piece came out. James Penney died in NYC in 1971 at the age of 95 and is buried in the Bronx.

This piece, AM(383), was incorrectly attributed to Milwaukee Wisconsin in issue 12 of the Casement, claiming that the "main office" was in Milwaukee, according to a "J.C. Penny [sic] catalog." There have been at least two pieces made for a specific store, however, a 1948S for "New Penney's" at 3rd and Wilshire, Santa Monica, and a 1952D piece compliments of J.C. Penney Co., Michigan City, Ind., which pieces are of course attributed to the location of those stores. 1000 units of this piece were sent by order dated December 7, 1949 to store 290 in

Rockford, Illinois, with the Osborne order saying "as b/4." Then another 1000 pieces were shipped in March 1950 to the store in Elgin, Illinois. So I believe others were ordered and went to other stores.

It is difficult to compare obverse dies on these pieces as there are no overlapping letters, but I believe all 1948 obverse dies are the same, as is the one 1949D I have seen. On all of them, the two "N"s of Penneys are misaligned, with the right "N" leaning more to the right, so that the top of the "N"s is noticeably further apart than the bottom of the "N"s, and the right "N" is lower than the left "N." So far, I have seen four different reverse dies, two with 1948 cents and two with 1948Ds. This first one has the clover stem coming out of the left of the clover and then curving down towards the encasement rim. In addition, the 1948 version (but not the 1949D) of this piece is the only one of the five where the encasement is oriented like a Canadian instead of an American coin. To match the reverse and obverse of the encasement, turn this piece horizontally, instead of vertically. For that reason, the cent reverse is upside down in the encasement obverse, while all sides match up with the cents on the other three pieces, including the 1949D with the same reverse die. There may be other 1949 pieces I have not yet seen. JL, OR(201, 334); JL $4

[ ] (NY)-(NYC)-JC-12. 1948, RD,35mm. Another J.C. Penney Co. Inc. piece with 1948 cent. On this reverse, the stem comes out of the left side of the bottom clover leaf, turns immediately to go horizontal, mostly parallel to the encasement rim, and is incredibly long. JL $4

[ ] (NY)-(NYC)-JU-10. 1924 Peace Dollar encased in a thick round Lucite plastic clear on both sides, with the writing showing only on the obv. [written in cursive at the top] Judy Bond// 1922-1952. When this came on for sale on eBay at the end of 2009, BP attributed it to NYC by locating other advertising materials for "Judy Bond" with the exact same style of writing – e.g., the "B" has a straight line coming down with a curved section going out to the left and then the double loops formed on the right. In the March 24, 1952 issue of Life magazine, an advertisement showed Judy Bond, Inc.'s address as "1375 Broadway, New York 18." The advertisement noted, as on this piece, that Judy Bond was celebrating its 30th Anniversary. Judy Bond was into clothing, the advertisement in Life was for a line of blouses. When I first saw the piece with reference only to the name "Judy Bond," I thought it was almost certainly not attributable. It is amazing what is now available on the Internet. JL, EB $25

It is also listed in the 1954 NYC business classified directory, under Shoes, "Mfrs & Dist," at 2 Park Ave. Perhaps the 1948 plain does not exist -- the only reference I have ever seen to it is the ACE maverick listing. I also have this piece with a 1949 cent, which someone spent considerable time and effort to put in. The cent is in tight and no light shows through, although I did move it with considerable (i.e., absolutely maximum possible) pressure.

The cent just did not sit quite right and it looks like some substance was added around the edge to block out the light. Why someone went to all this trouble for a common piece of this value is a mystery to me. AM(515); JL, BS#33,41; EB $5

EB, MK, MM606, BS#47,1591, BS#62,1850 $50

The March of Dimes was founded by President Franklin Roosevelt, himself a likely polio victim (although I heard in 2005 that there is some thought that he might have had a different disease with similar symptoms), in 1938. What an amazing success story! Polio was the fright of every parent and a horribly killing and disabling disease. It took the March of Dimes less than 20 years to eradicate it.

The March of Dimes made its first research grant to Yale University in 1938. In 1949, it selected Dr. Jonas Salk to lead its research team. The three polio virus types were identified in 1951. By 1953, Dr. Salk had developed his killed virus vaccine and in the same year almost 2 million school children participated in the field trials of the vaccine. The vaccine was declared, "safe, effective and potent," in 1955. Polio was eliminated. But, just like in politics, once it had defeated the enemy, the March of Dimes did not disband, but instead redirected its attention, to birth defects.

In 2002, the headquarters of the March of Dimes was in White Plains, New York. I emailed their Resource Center and was informed that the headquarters of the March of Dimes was in New York City both when it was founded in 1938 and in 1954, when the last of the March of Dimes encased came out. Therefore, I have attributed these pieces to New York City.

On both sides each of the four areas is separated from the others by stitching, meant to emulate a baseball. This is certainly a New York City piece, but I am not certain who made it or why. Was there a business located in zone 12 called Major League Suppliers? That seems unlikely and nothing is listed under that name in my 1953 Manhattan directory. Nothing is listed under Baseball Mascot either. Could this be a piece where the business of the issuing party was given but not its actual name? JL, EB, OR(957) $20

A search on the Internet shows that Lionel Perera is a name, with origin in Sri Lanka. There are three Lionel Pereras on the Internet in 2000, K. Lionel Perera, a marathon coach from Kegalle, Sri Lanka, P. Lionel Perera, the President of ACTOS and simply Lionel Perera, the Deputy General Manager of the National Savings Bank, I believe in the United States. The cent obverse faces the encasement obverse on this and most of the other pieces in this series. According to the 1960 NYC Business Classified Directory, the Park Sheraton was at 7th Av. and 55th St. A close call here whether to attribute the "New York" on the piece to the state or the city. Metropolitan New York would cover the city and suburbs and so I will put the parenthesis around the city this time. This "maverick" is indeed attributable to the city due to the Park Sheraton Hotel and the two pictures. JL, JR, SA#4,787 $5

On all the -60 and -62 pieces I have seen (the JLs and the EBs), the obverse die looks to me to be the same. I cannot explain how that die could have lasted all those years; perhaps there was a master hub? The reverse die of the -62 is distinctly different from the reverse die of the -60 in many ways, including: (1) the "Y" of You points down to the left leg of the "H" in Have on this piece, on the -60, it points to the left side of the "A" in Have; (2) on this piece, the bar above "And You Will" starts over the "Y" of You, on the -60, it starts over the "D" of And. The 1959D and 1963D pieces are the only ones I know of in this series where the cent reverse faces the encasement obverse. This is a pretty common piece but one that is in demand due to its unusual shape. On my 1961D piece and the 1968D -66 piece described below, the cent obverse faces the encasement obverse; on my 1964 it is the cent reverse that faces the encasement obverse. All three reverse dies look the same, though it is often hard to be sure when there are no overlapping

There was a 1956 nickel in what looked like the dies of the -70 sold on eBay in 2001; the seller did not say whether the piece was aluminum or brass. JL, EB $12

[ ] (NY)-(NYC)-ME-82. 1966, H. Percy Kwok/ Illustrious Potentate// Mecca Temple/ 1968\\ KMANGB/ IBGL. When this piece came on for sale on eBay in March 2009, I noticed that it was listed as a New Orleans piece in the Louisiana catalog. But BP was skeptical and found a Percy Kwok from Dobbs Ferry, New York, in the Social Security index who was born in 1897 and died in 1974, consistent with the dates on this piece. That led him to get his obituaries from the New York Times and those obituaries indicated that Mr. Kwok was a retired importer exporter (a real one, not like George Costanza acting as Art Vandelay), a leader in Masonic activities and a past potentate of the Mecca Temple "here." Further research indicated that "here" was indeed New York City, where the Mecca Temple was located at 130 West 55th Street. Because it would be too amazing a coincidence for there to have been another "Percy Kwok" who was a potentate at another Mecca Temple, this piece is absolutely verified to New York City. I have chosen to attribute this piece to the place where the temple was located rather than Mr. Kwok's home of Dobbs Ferry in Westchester County because the piece is about him as potentate at the Mecca Temple. In addition, the piece is one of the Osborne orders, and it was ordered by and sent to the Mecca Temple at the Hotel New Yorker in New York City. EB, OR(21636) $10

A search on Yahoo in 2000 showed a "Mulhern Belting Inc." in Oakland, New Jersey, 25 miles from Manhattan. I called that company and was put in touch with the current family owner, Pat Mulhern. Pat's grandfather, Michael George Mulhern, an Irishman, founded the company in 1932. Its business was and is the manufacture and sale of conveyer belts and other leather products. Pat remembered the "horseshoe thing," and he thinks they probably still have a few around somewhere. His grandfather also had an advertising comb made and sent out penny postcards to prospects. Pat believed that the encased was made for salesmen to give to customers and prospects. The company was located at 126 Chambers from its founding until 1975 when it moved out of Manhattan to New Jersey. JL, EB $12

National Lead Co./ [to the left of the cent and both underlined] Anti/ Friction [to the right of the cent and underlined] Babbitt/ Metals// Perfection\\ GLKMAP. It was verified in ACE issue 8 by Al Zaika that the corporate headquarters of the National Lead Co. was in New York City. An eBay seller pointed out that the National Lead Co. had a St. Louis Smelting & Refining Works mines, which started up in 1898 and shut down in 1933. "Nat. Lead Co..Mfrs Lead Products" is listed under Manhattan and Bronx in the 1914 Dun Directory. I have heard from several different sources that the National Lead Co. had an exhibit at the 1901 Buffalo Pan American Exposition and gave out encased there. I have not yet verified that fact. Indeed, I could not find National Lead in the Official Catalog and Guide of the Pan American Exposition. Therefore, this piece is properly attributed to New York City and is an Unverified M2 piece (for merchant 2) of the Pan Am Expo. JL, AM(153), KK619 $20

[on the eBay pieces the number were 789 and 1106]. Perhaps this was an admission ticket? There is another piece similar to this one, only is says Chicago instead of New York and is square shaped. (EB, BS#53,706). On the eBay piece the incuse stamped no. was 2192, a four digit instead of a three digit number. However, this is quite confusing -- how could the National show have been both in New York and in Chicago in 1916? A piece came on for sale on eBay in April 2009 with a 1915D Buffalo nickel in it – at the time, I believed that was almost certainly a replacement for the token in an attempt to "improve" the value, but then in October 2017, another came on with a 1916 nickel. [ ] (NY)-(NYC)-NA-30. 1928D, H. Nathan Strauss, Inc./ Cash and Carry/ Markets// Stores/ Everywhere\\ KMANGB/ IBGL. Nathan Strauss was from the metropolitan New York area -- he lived in Brooklyn in 1931. At one point, he was co-owner of Macy's. There are nine legal cases involving this company, all in the NY metropolitan area. In 1928, Nathan Strauss, Inc. had over 100 stores, but it did not make it through the depression. In 1931, Nathan Strauss was adjudicated a bankrupt in Brooklyn and lost everything. I believe, though I am not 100% certain,

that the corporate headquarters were likely in Manhattan, so I have listed the piece here. AZ reports he found this business listed to Brooklyn and New York City in the 1921 Dun directory. JL, AM(1005) $20

National Infantile Paralysis Fund// 1945\\ 1882-1945/ [photo of FDR in the center behind the dime]/ [facsimile signature of FDR]. I do not believe that there was an organization called the National Infantile Paralysis Fund. I believe that the National Foundation for Infantile Paralysis, founded in NYC and located there from 1938 to 1956 at 120 Broadway, collected the funds and spent them on polio research. There are two references on the Internet to the fund, one in all small letters listing the amount of Boeing Corp. employees' contribution for 1949 and another indicating that the mayor of Buffalo was appointed by President Roosevelt as state chairman of the National Infantile Paralysis fund drive for 1943. The National Foundation for Infantile Paralysis appears to have been the official name, with "March of Dimes," a nickname, which later became the official name of the foundation. See, (NY)-(NYC)-MA-70-76 for one earlier and three later pieces for the March of Dimes. JL, EB $50

[ ] (NY)-(NYC)-NA-70. 1957D, H, brass, holed at top. National Knitted [hole] Outerwear Association// Annual Banquet/ April 24, 1957\\ KMAYWHGL. This was an unlisted piece when it came on for sale as part of a 12 encased piece lot in November 2009. BP noted that the organization was headquartered in NYC and that is indeed correct going back until at least 1922 and also after the date on this piece. The entity was listed in the 1953 Manhattan phone directory at 386 Fourth Ave. Indeed, the piece was ordered in 1957 by Awards Incentive, Inc. in NYC and delivered to the organization at 386 4th Ave., according to the Osborne records. I would assume, though do not know for sure, that the Annual Banquet was probably in Manhattan in 1957, but until I find out, this is an unverified, though very likely, NYC piece. JL, OR(5914) $15

[ ] (NY)-(NYC)-NB-10. 1959, RD,35mm. Meet Mr. Lincoln// NBC-TV/ Feb. 11, 1959\\ [same words as on the obverse side but a different die as the "V" of TV points down to the "9" in 1959 on the reverse, the side with the cent obverse; while on the obverse it points between the "5" and the "9"]. There is still some evidence of the "Meet Mr. Lincoln" show on the Internet in 2003. There is an RCA video with that name, that references a 60 minute show that uses thousands of early photographs, woodcuts and drawings. If this piece was put out in time for the February 1959 show, NBC must have worked hard to find 1959 cents to put in it. RCA formed NBC in 1926. Its first broadcasting tower was atop the Empire State Building, and it broadcast the first television from the 1939-40 World's Fair. NBC has always been located in NYC -- its patent application in 1950 for the NBC chimes listed its address at Rockefeller Center, where NBC headquarters is still located in 2003. RCA put out a series of encased cents to customers of

televisions in the New York Metropolitan area in the early 1950s, see (NY)-BRX-TR-10. I believe NYC is the proper attribution for this piece. JL $12

On paper insert: New York/ Factors, Inc./ 122 E. 42nd St./ N.Y. 17, N.Y./ OXford 7-1070\\ [same information on other side of the paper]. This is type 1 of the plastic horseshoe with paper insert type -- with no USA at the top near the hole and a greenish color to the clear plastic. Type 2, has USA at the top near the hole and is yellowish in color (see NY-(WAT)-NA-10 for an example of type 2). Duane Feisel first pointed out the two different types in his California encased catalog, stating that type 1 came before type 2. I believe this piece was sold by the Newton Manufacturing Company of Newton Iowa, because I have seen several plastic pieces for its representatives and one for the Newton Manufacturing Co. itself. I believe it was made in the mid 50s to early 60s. This business is listed in the 1958 New York Dun & Bradstreet, coded as a business credit institution, factor of commercial paper. It had the highest rating that D & B gives -- AA (over $1 million financial strength), A1, high composite credit appraisal. EB; JL; EB $12

Perhaps this piece was put out by the Atomic Energy Commission too, but there is nothing on the piece to indicate that. I have a piece just like this in my collection made for the Royal Keystone Club, Las Vegas "1956." Olden Camera was founded in the late 1930s by William Olden, who was born in Germany around 1908, came to the United States in 1938 and died in 1970). His New York Time obituary from September 12, 1970 told that he was born in Berlin, came to the United States in 1938 and founded a small camera business, "which he developed into one of the most successful retail and mail-order camera concerns in the country." This was the generic piece, I suspect there were more than one subsequent piece for salesmen. The address moved a bit on Fifth Avenue, and in 1929, there was only a six digit phone number, consistent with NYC phone history. I cannot find a picture of the '29 piece to compare dies but when I first cataloged it, I didn't have a dash between "160" and "Fifth," and the '30 piece definitely has one. EB; EB $20

As a James, I've never liked Jas. It's not like you're saving all that many letters. JR reported specifically that Gramacy was misspelled this way on this piece and there was no seventh number. That makes sense as New York City went to 7 digits in 1930. JL, EB, JR $20

[ ] (NY)-NYC-PE-12. 1929 or 1930, RD,35mm. James C. Peterson/ [curved line] Advertising Specialities of Every Kind]// Phone Gramercy 1175/ 200 Fifth Ave., New York\\ KMANGB. The difference between the -10 and -12 obverses is in the use of the full first name here rather than the abbreviation "Jas." As a "James" myself, I've always disliked Jas. I don't see the great benefit from the shortening of only one symbol. EB; JL, EB $20

This piece is different than the 1927 and 1930 pieces in that the phone number now has 7 digits, following the switch to 7 digits in 1930. It is different than the -16 in that it includes extra words, "of every kind." JL $20

[ ] (NY)-NYC-PE-16. 1932D, RD,32mm. James C. Peterson/ Advertising Specialties/ Phone GRamercy 5-1175/ 200 Fifth Ave., New York\\ KMAYWHGL. Same obverse die as on the -18, but different reverse as evidenced by the different slogan. JL, EB, MM, RH(9/4/84),897 $20

[ ] (NY)-NYC-PE-20. 1937 or 1938, RD,35mm. Same words as on the -16 and -18 and the same obverse die, but these pieces have a different KMANGB reverse die. On this reverse, the words and the bar are larger than on the -18 -- the bar on the -18 is very skinny. In addition, the "U" of You is centered within the "V" below it on this piece, while on the -18, the "U" is a bit to the left of the center of the "V." BP; JL, JR $15

[ ] (NY)-NYC-PE-22. 1940 or 1941, RD,35mm. Same obverse dies as on the -16, -18 and -20, but yet a fourth reverse die. On these two date reverses, the letters are even larger than they are on the -20, so that there is only about 4 mm between the beginning of the horseshoe and the letter "K." On the -20, there is about 7 mm. All obverse dies from the 1932D to the 1941 appear to be the same. JL; JL, EB $12

Pomeroy's was a chain department store headquarted in NYC (so says my 1940 D & B). There was a 1929 piece from Pomeroy's of Reading, Pennsylvania (the D & B lists Reading as a branch), for its 53rd anniversary. SA has pointed out that there are tokens for Pomeroy's of Harrisburg, and the D & B lists that city as another branch location. Pottsville PA is also listed a a branch of the Manhattan store in the '40 D & B. This piece was attributed to Reading Penna. in isse 20 of the Casement based on the fact that there was a store in Reading and based on the 1929 piece, but based on the D & B, I now believe NYC is correct, particularly with the reference to the World's Fair. I expect that this piece was made when the public was thinking about the upcoming fair, and thus may not have been given out at the fair itself. JL, AM(767) $12

[ ] (NY)-(NYC)-PO-40. 1972D, RD,35mm. Penny Crossword Puzzles/ Brand New from Pocket Books// [small dot at bottom]\\ KMANGB. Pocket Books is a division of Simon & Schuster, 1230 Ave. of the Americas, in Manhattan. In the 1960 NYC Business Classified Directory, its executive offices were listed under Publishers at 630 5th Ave. Simon & Schuster was founded by New Yorkers Dick Simon (father of singer Carly Simon) and Max Schuster in 1924, and its first project was the first crossword puzzle book ever made. Pocket Books launched the U.S. paperback revolution in 1939. I believe that it is likely that the dot at the bottom of this piece was a mark made to show where to add a hole. For some reason, this piece was spared the hole. On the piece I have, the cent is about 90 degrees clockwise misaligned in the encasement. This was very common on encased made in the 1970s, particularly 1972. JL $5

[ ] (NY)-NYC-PU-24. 1947, H. Same words as on the -22, but certainly a different obverse die and probably a different reverse die too. On this piece, the "T" in State points down to the "C" in N.Y.C. On the 1946, -22 piece, it points down to the final "." The reverse dies are very similar and I have the impression that they are different, but the lettering is in the same place and the difference may just be in the strike and the wear. I am pretty sure that the clover stems are different shapes -- on this piece the stem is shorter than on the -22, it does not go past the bottom of the clovers, while on the -22 it does and has a curve to the left at the end. The coin shows through on the reverse, but there are no words on the insert on the reverse. Louis Rukeyser is an political, economic commentator with his public television show: "Wall $treet Week with Louis Rukeyser" originating from New York City. He lives in Greenwich, Connecticut. I e-mailed him asking about this encased piece, and his staff kindly responded. When his newsletter, "Louis Rukeyser's Wall Street" first came out in late 1992, this piece was a personal item that the original subscribers received. The brochure, which Mr. Rukeyser's staff sent me said, "In addition, you'll receive three more personal items: A silver [sic] dollar mounted in Lucite on a stand inscribed, With the Bullish Best Wishes of Louis Rukeyser . . . ." The return address on the brochure was "Louis Rukeyser's Wall Street, 1328 Broadway, New York, N.Y. 10001." I believe this is sufficient to attribute this piece to New York City. I also believe that the fifteen year gap between the minting of the dollar and its use in this piece is unusual for encased pieces, but explained here because this was the most recent "silver" dollar available in 1992. This reverse is the one with the three clovers at the bottom of the horseshoe. The Salvation Army was founded in London in the mid-1800s, and its international headquarters have always been there. The first meeting in the United States was in Philadelphia in 1879. BP has determined that United States headquarters were in New York in 1930, at 120-130 West Fourteenth Street; they are in Alexandria, Virginia in 2002. I do not know what the Women's Emergency Committee was working on -- it probably had something to do with the depression. [ ] (NY)-(NYC)-SA-60. 1953D or 1956 Franklin Half Dollar, RD,43mm, holed at top. [dot] 50th Anniversary [hole] 1906-1956 [dot]// Sam Fox Publishing Co. Inc.\\ KMANGB. This piece has the same reverse and is substantially similar to the 1953D half piece for Vandivers golden jubilee, 1904-1954, although it would seem it was probably made a couple years later, unless they were anticipating the upcoming anniversary. Vandivers was a Tulsa Oklahoma department store, so that piece is cataloged as (OK)-(TUL)-VA-10. Sam Fox Publishing Co. published sheet music, beginning operations in Cleveland around 1906. Sometime in the 1940s, operations moved to New York City, and stayed there until the business wound down as the founders and their children grew old and died. It remained an Ohio corporation qualified to do business in New York, according to the NY and Ohio secretaries of state websites. It was listed in Cleveland in my 1947 Dun & Bradstreet, but as a branch of NYC (in all the D & Bs, it is listed under "F" for Fox). It was listed in NYC and not in Cleveland in the 1953, 1955 and 1958 D &

Bs. As it was headquartered in NYC in 1956 when this piece came out, I have listed it here. On my piece, the half is not quite completely struck into the encasement, the half reverse sticks out a bit -- it was probably just a little too large for the encasement. Because it did not fit completely, some of the reeding was pressed into the encasement reverse and shows as small dots on the encasement near the half. I first saw the 1956 half in this piece when it came on for sale on eBay in June 2011 – I am not certain that is an original half. JL, EB (sold for $113 in 2003), AM(no number yet); EB $80

The PAECS has reported that this piece was probably given away at the Buffalo fair. I bought a copy of the Official Catalogue and Guide to the Exposition (original price 25 cents) and Schwarzschild & Sulzberger of New York, Chicago and Kansas City was an exhibitor in the Division of Foods section of the Manufacturing Building. The catalogue pointed out that their product was meat and that their products had been awarded first prize and a gold metal at the Paris Exhibition, 1900. [ ] (NY)-NYC-SC-20. 1901, RD, 35mm. Geo. C. Ebbert/ Scottish Union & Nat'l Ins. Co.// N.Y. Underwriters/ Agency\\ KMANGB/ IBGL. I believe the N.Y. referenced in this piece is the city and not the state. The Scottish Union & National Insurance Co. of Edinburgh had substantial operations in the United States at the turn of the 20th century. There was a 1905 United States Supreme Court case dealing with taxation in Ohio where the Court called the insurance company a "corporation of Great Britain." The Internet indicated that Alexander Taylor of New York City was one of the three American trustees of the insurance company. In 1959, the Scottish Union was acquired by Norwich Union Fire Insurance Limited. JL (ex TC), RG, EB $50

I believe that the reference to N.Y. in this piece is likely a reference to the city and not to the entire state of New York.

See (NY)-(NYC)-AS-10 for a description of the Askin's store pieces and this one too, named for Seymour Askins. This is the first known Seymour's piece, and it is also the first of six pieces that were ordered from Osborne, as evidenced by the Osborne orders posted on the Internet by Bryan Ryker. This piece was the subject of an order dated January 16, 1950 and, as with all six of the Osborne orders, was ordered by Askin's Stores, New York City. The pieces were to be delivered as per shipping instructions that were not attached to the order, with four destinations, almost certainly Seymour store locations, two with 1000 pieces each and the other two with 2000. The order noted that the obverse was to be done "as b/4. EB; JL, OR(263) $8

[ ] (NY)-(NYC)-SE-12. 1950, H. Same obverse die as on the -10, 1949D, but a different reverse die. Here, the "I" is over the first "O" of Good below, and the top left side of the wishbone ends under the "D" of And. On the -10, the "I" is over the "G" of Good and the top left of the wishbone is under the middle of the "ND." Perhaps this piece was from the second Osborne order, dated August 14, 1950, with four destinations of 1000 pieces each, or the third dated January 12, 1951, with 6000 pieces ordered to be packed in boxes of 500 for four stores with the balance to be sent to Askin's in New York City. There are two additional Osborne orders that likely match up with pieces not yet identified: OR(2499) dated June 10, 1953 for 4000 pieces, 1000 each to four stores and OR(5416) dated July 24, 1956 (I have heard of at least one person who has a Seymour 1956D piece but have not seen it to compare dies) for 4000 orders, 1000 each to two stores and the remaining 2000 to a third store. JL, EB, OR(801 or 1109) $8

[ ] (NY)-(NYC)-SE-14. 1957D, H. Same words as on the -10 and -12 but this time there are two different dies. The obverse dies are different as on this piece the "O" of Coin is above the left side of the first "0" in 2.00 below, while on the -10 and -12 it is above the center of the two "00"s. This reverse is the third reverse on these pieces, with the "I" over the middle of the two "OO"s in Good below. I am going to attribute this also to New York City, which was

certainly still the headquarters of the Seymour's/Askin's empire. Yet, based on the Osborne orders, no. 6406 dated May 15, 1957, which likely equates with this piece, all 1000 pieces were sent to the New Orleans store at 922 Canal Street. JL, OR(6406) $8

Introduction to the Stork Club Series

According to a matchbook I saw for sale on eBay, the Stork Club was at 3 E. 53rd Street. It was still there in 1960 according to the NYC Business Classified Directory, with phone number PLaza 3-1940. It was listed at the above address and phone number in the 1939 Manhattan Yellow pages under the "personal supervision" of Sherman Billingsley. It may be the most famous nightclub ever. It began during prohibition and lasted into the 1960s. Sherman Billingsley was the owner, who someone told me was Barbara Walters's father, but that is not correct. One of Sherman's nephews married Barbara Billingsley, who played the Beaver's mother. Famous people hung out there.

The Stork Club made many encased pieces. My best guess from decades of watching their sales is that the first Stork Club encased was made in 1937 and the last in 1957. It was a long series, although not as long as the Gamler (Buffalo) series. I believe that the Stork Club made more total encased than any other business. For that reason, most of the Stork Club encased are very reasonably priced. But, I have seen common Stork Club pieces, available by the tens to hundreds for $5 or less, sell on eBay for over $100. This must be to people who do not know how common they are.

I have started the Stork Club encased with the number ST-100 to leave the under 100 numbers for other "ST" New York pieces.

[ ] (NY)-(NYC)-ST-100. 1916, 1917D, 1918, 1919, 1919S, 1920, 1924, 1927, 1930, 1934, 1936 or 1937 [one stork on each side facing the cent, standing on one leg] Stork Club// Lucky Penny/ [small signature at bottom]: Osborne Register Co. Cinti. O.\\ [same reverse, except no signature]. This piece is beaded around the cent on both sides and has denticles around the rim on both sides. However, my 1919 and one 1937 piece are not beaded and does not look like the beads were poorly struck or worn off. I do not think that lack of beads is enough to make a separate piece though.

This seems to be the most common of the Stork Club encased pieces and was probably made for several years. Based on the condition of cents that I have seen in these pieces, I guess that production started in 1936 and that any earlier dated cents were circulated cents. There were at least two different dies, in order to strike both sides, but I have been unable to identify any more than the two dies (for example, the right leg of the "K" in Stork points down to the "B" in the Osborne signature and the "P" in Penny points to the "C" in Co. on all the pieces I have seen). The signature side faces the cent reverse on all pieces I have seen except the 1916 and 1917D, where it faces the obverse. The 1917D cent is a VG in an AU encasement, but it would have been a circulated cent when inserted and it is in very tight with no light showing and will not dislodge with maximum pressure. I paid $2 for it so my seller did not put an unusual 1910s mint mark cent in an encasement to make a profit. On some of the pieces the Osborne signature is very light. Very similar to the -100 piece, with the same words and the storks in about the same location, but these pieces are not denticled and there is no bead around the cent, just a line around the cent obverse (on this piece there is nothing at all around the cent reverse), and also there is no Osborne signature. The orientation of the stork is a bit different also, most noticeably in the stork on the right, whose bottom foot points down at an angle towards the middle of the "Y" in Lucky (standing on tiptoe

so to speak). On the -100, the foot is mostly horizontal (standing level), pointing across to the top right of the "Y." JL; EB; EB; JL, EB $5

This is the first Stork Club piece that needed to say it was from New York. This piece often comes with a very original red uncirculated cent. My thinking is that many pieces were struck but never circulated, so that a hoard of uncirculated pieces was available for collectors. This is the same thing that happened to many of the Fankhauser encased and also why there are so many uncirculated Fankhausers available today.

In 1999 I came across a hoard of 100 pieces with replaced 1955, 1956 and 1957 cents. What apparently happened is that quite a few of these off center pieces were struck, unknown when, without cents at all, and a dealer put in 1955-1957 cents to make them look better. These were again for sale in Coins magazine in 2000 properly described as having the

cents inserted after striking. However, someone who bought these from the dealer, who was correctly describing them, later began selling interesting "varieties" on eBay: 1943, 1943D and 1943S uncirculated cents; all replaced cents, of course. I still see some of the 1955, 1956 or 1957 cents for sale on occasion. The 1956 plain cent is so rare in an encasement that I have never seen one in an original to the time aluminum encasement.

This is the only Stork Club piece I know of with a standard lucky slogan reverse! There is no Osborne signature on this piece, but it looks like a Fankhauser and so was almost certainly made by Osborne. I think this is the scarcest of the Stork Club pieces, as the one I have is the only one of these I have ever seen or heard of. Maybe it should be valued at hundreds? Maybe there are more pieces, equally scarce, between 1950 and 1956. JL $12

Introduction to the Souvenir of New York Series

The Big Apple is first in many things but not in souvenir encased, where it is behind the District of Columbia and Niagara Falls.

[ ] (NY)-NYC-SV-10. 1905, B. Souvenir/ of// New York City\\ KMANGB/ IBGL. This piece has the lattice design on both obverse and reverse. The reverse matches the reverse of the St. Louis World's Fair 1904 bell piece that is in Hendershott's book on that fair, cataloged as Hen. 14-20. It does not match either of the early bell reverses in the Souvenir of Washington D.C. series. JL, EB, NP $40

[ ] (NY)-NYC-SV-22A. 1911, H-fob. New York [that's all]. PC#21,669 $15

[ ] (NY)-NYC-SV-22B. 1923, H-fob. New York [nothing under the cent]\\ KMANGB/ IBGL. This fob has the type 1 reverse described under (NY)-CAT-SV-10. I have not seen the 1911 to compare dies, that is the earliest fob piece I have ever heard of, and I wonder if it is an original cent. JL $15

[ ] (NY)-NYC-SV-30. 1926 or 1929, RD,32mm. Souvenir/ of/ [two stars with 5 long arms toward the top on both sides of the cent]// New York City\\ KMANGB/ IBGL. This piece is similar to the more common 1929 Souvenir of Canada piece with the George V Canadian cent encased in it. The reverse on this piece is identical to one of the three known reverses of the Canadian piece (the one where the top of the design on the left points to the middle of the "K" in Keep above it, rather than to the top of the "K," as in the -32 reverse described below. To the best I can tell both the 1926 and 1929 pieces are from the same dies. EB; JL $15

[ ] (NY)-NYC-SV-32. 1929 or 1930, RD,32mm. Same obv. die as on the -30, with just a very slightly different reverse than the -30. The differences can be seen in the clovers and the squiggly lines. On this piece, the top two leaves of the clovers are noticeably larger than the bottom two leaves; on the -30, all leaves are about the same size. On this piece, the top design in the squiggly lines is a "6" (backward on the left side, regular on the right), with the top of eah "6" pointing to the top of the letters "K" on the left and "E" on the right; on the -30, the "6" is not nearly fully formed. This is the same reverse die as the Souvenir of Niagara Falls piece, (NY)-NIA-SV-112 and NY-WGL-SV-10. The (NY)-NIA-SV-110 is the third of the known reverses for this type of souvenir encased, with no KMANGB on the reverse die. EB; JL $15

[ ] (NY)-NYC-SV-34. 1928, RD,32mm. Souvenir of New York// [six small stars with a seventh larger star in the middle]\\ KMANGB/ IBGL. This reverse matches the reverse of the -30, but a different obverse, as you can tell by the description. This obverse is the same pattern as the (NY)-NIA-SV-110, also with 1928 cent in it. JL $15

[ ] (NY)-NYC-SV-40. 1946, H. Souvenir of/ New York City// City of Wonders\\ KMANGB/ IBGL. The "City of Wonders" series is the longest running and also the most common series of the city of New York encased souvenirs. It is cataloged with numbers in the 40s through 60s due to the large numbers of different dies. On the eBay piece, they squeezed in a hole between the Of and the Wonders, which just made it without taking out any letters. JL, EB, SA#44,1158 $5

[ ] (NY)-NYC-SV-42. 1946, H. Same words as on the previous piece but slightly different placement of the letters shows that this is a different die. There is much more space between the words, "New," "York" and "City" on this piece than on any other piece in this series. The top left of the "Y" in New York points between the "S" and the "O" in Souvenir. On the -40, it points to the left side of the "S." This piece has a slightly different reverse die than the -40 and -44 (which match). On this piece, the stem of the clover curves right near the top and then left near the bottom making it look more like a hook than the -40 and -44, which only has the curve to the left at the bottom. JL, EB $5

[ ] (NY)-NYC-SV-44. 1946, 1947, 1948 or 1950D, H, holed at bottom, on most pieces. Same words as on the -40 and -42, but another different die. First, this is the first City of Wonders piece that is holed, and there is greater distance between the "of" and the "Wonders" to

make room for the hole. Second, on this piece, the beginning S of Souvenir is over the right side of the W; and the left of the "Y" in New York points to the right side of the "O" in Souvenir. Also, on this piece the "S" in Wonders is misaligned, noticeably above the "R" to its left. EB (this 1946 piece is not holed, although as noted above, there is substantial space between the lower words, so that a hole must have been intended -- this piece must just have missed the punch); EB; JL, EB; EB; JL, EB $5

[ ] (NY)-NYC-SV-46. 1949, 1952D, 1953D or 1955D, H, holed at bottom. The left prong of the "Y" points to the middle of the "S," the right prong of the "K" points to the middle of the "O." I have looked very closely for a difference between the 1949, 1952D, 1953D and the 1955D pieces and can find none. On all pieces, the "I" in the lower, second appearance of City extends down very noticeably below the "C" next to it. The reverse dies look the same too, although the clover stem looks more extended and curved on the 1953D, maybe the end tip just did not strike up on the 1955D. I suspect that this piece was made at one time in the mid-50s with circulated cents. I picked up the 1955D piece in a coin shop on Bromfield Street in old town Boston on a trip there in 2000. EB; JL, AS, EB; JL, EB; JL, EB $5

[ ] (NY)-NYC-SV-48. 1950D or 1950S, H, holed at bottom. On this piece, the left of the "Y" points between the "S" and the "O" just like on the -42. However, on this piece, the word "New" is much closer to the word "York," so that the right of the W in New points just to the left of the S in Souvenir. In addition, this piece has the hole, so that there is the greater space between the words "of" and "Wonder." JL; JL, EB $5

[ ] (NY)-NYC-SV-50. 1952D, H, holed at bottom. This piece is very similar to the -46, particularly on the placement of the top two lines. If that was all I had to go on, I probably could not tell the difference. On this piece, though, the "C" and "I" in the lower City line up, both the same size, while on the -46, the "I" extends noticeably below the "C." EB $5

[ ] (NY)-NYC-SV-52. 1957D, H, holed at bottom. Another City of Wonders piece and yet another die. Here, the left of the "Y" points just to the left of the "S" in Souvenir. The "O" and the "F" in the second "of" are very close together, like they were squeezed in to make room for the hole. The bottom line here starts and ends very close to the top line. JL $5

[ ] (NY)-NYC-SV-54. 1961, 1961D or 1962D, H, holed at bottom. This is yet another City of Wonders piece, made later and with yet another die. The left of the "Y" of New York points to the middle of the "S" in Souvenir, like the -46. However, this is again a different die, as on this piece the right of the "K" points up to the "F." On the 1949 and 1955D pieces, the right of the "K" points up to the "O." I have not seen either 1961 piece to compare dies. JR; EB, SA#52,710; JL, EB $5

[ ] (NY)-NYC-SV-56. 1963, 1964D or 1966, H, holed at bottom. This obverse die looks exactly like the obverse die on the -46 from ten to fifteen years ago. This piece even has the "I" in the second City extending down below the "C" next to it. However, this is a different reverse die than the -46 pieces, although the differences are not all that great. On this piece, the outside line of the horseshoe coming up from the right touches the end of the bottom clover. On the -46, it goes into the curve of the top clover. Also, on this piece, the left wishbone top ends under the "N" in And. On the -46, it extends higher, almost to the "D." JL; JL, MM; JL $5

[ ] (NY)-NYC-SV-58. 1968D, 1969S, 1970D or 1972D, H, holed at bottom. On this obverse die, the left of the "Y" in York points to the right side of the "S" in Souvenir. JL, BS#53,1469; JL; JL; EB $4

[ ] (NY)-NYC-SV-60. 1973 or 1973D, H, holed at bottom. This piece has the same obverse die as the -58, but a different reverse die. The -58 has the normal full bodied clover, with a stem that bends gently to the left. This piece has the flat, skeleton looking design of the veins in the clover leaves and the stem turns right near the top and then left near the bottom. JL; EB $4

[ ] (NY)-NYC-SV-70. 1947, 1947D and 1948, H, holed at top. [hole]/ Souvenir of// [star on each side of cent]/ New York City\\ KMANGB/ IBGL. This is a new style with catalog numbers -70 to -80. They all appear to have the same obverse die, for example, on each piece the top left of the "W" in New York is very close to the top right of the "E" on all pieces. There are no easy reference points so that slightly different dies would be hard to identify. The different catalog numbers all have different reverse dies. I do not know what type Steve Alpert's three pieces match, as I have not seen any of them. I have seen a picture of the 1947D, and it have a very larg "Good" and "Luck," largen than on the 1948, but the spacing of the letters seems the same or as close to the same as possible as on the -72, 1948. SA#42,880 (both 1947 dates); EB (1947D) $5

[ ] (NY)-NYC-SV-72. 1948, H, holed at top. My 1948 piece has a line of dots on the reverse between the legs of the horseshoe, which does not appear on any other piece in this series. "Good Luck" is smaller than on the -70 and very close to the wishbone, so that there is more space below those words. JL, EB, SA#10.1180 $5

[ ] (NY)-NYC-SV-74. 1948D, H, holed at top. Same words and same obverse die as on the -70 but a different reverse die. The "I" in I Bring is between the "G" and "O" on this piece; it is on the right side of the first "O" on the -70 and -72. The final letter in Luck, the "K," points up to the "G" in Bring on this piece; it points outside the "G" on the -70 and -72. JL $5

[ ] (NY)-NYC-SV-76. 1948, 1948D or 1949, H, holed at top. This has a very unusual reverse die in that the "I" is directly above the initial "G" in Good. It is rare for the "I" to be that far to the left. In addition, the clover stem slowly curls a bit to the left. It is straight on the -70 to -74 pieces. On most of these -70 type pieces, the end of the clover stem (curved on this variety) extends onto the cent. On November 5, 1949, the Goldfarb Novelty Company ordered 5000 of these pieces (not sure which die they were getting here), noting that the obverse die should be "as b/4." The 5000 pieces cost $166.25, or 3.33 cents each. This was Osborn purchase order no. 123. JL, EB; JL, EB; JL, EB $5

[ ] (NY)-NYC-SV-78. 1949, 1949D, 1950, 1951D, 1952D or 1953D, holed at top. Same obverse die as the other four, but yet a fifth reverse die. Here, the "I" in I Bring points down to the first "O" in Good. The "K" in Luck is so far to the right that it is wholly outside the "G" in Bring, and points between the "K" and "E" in Broke. The clover stem curves slightly left on this variety too, like the -76, but it does not reach onto the cent. I find it hard to believe the same obverse die and this reverse die too lasted so long, but I cannot see any differences. Perhaps circulated cents were used in 1954 or thereabouts. Again, I do not know where the SA or BS

pieces fit in. SA#10,1180; EB; JL, EB, OR(698) (ordered July 21, 1950 and marked "as b/4"); JL; JL; EB, BS#35,972 $5

[ ] (NY)-NYC-SV-80. 1953D or 1955D, H, holed at top. On this reverse, the "L" in Luck points up to the "I" in Bring. That makes this a different reverse die than the -78, because on the -78, the "L" points to the left side of the "N." On the -74 and -76, the "L" points up to the "I" too, but here the initial "I" in I Bring points down to the first of the two "O"s in Good, while on the -74, it points to the far left of that "O" and on the -76, it points to the "G." Based on RG's description, I believe that the 1955D is probably the same die. JL, EB; RG $5

[ ] (NY)-NYC-SV-90. 1953D, H, holed at top. Souvenir of/ [Empire State pictured to left of cent; Statue of Liberty to right]// New York City\\ KMANGB/ IBGL. This piece has the same words as on the other pieces in the -90 series, with the Empire State Building and Statue of Liberty pictured, and all appear to have the same obverse die, so that it is different reverses that make the different varieties. I say "appears" as to the obverse die because the design of the obverse die does not easily lend itself to comparisons. The -90 and -92 reverse both have an unusual amount of space between the words "Keep," "Me" and "And." On this piece, the "I" of I Bring is over the first "O" in Good. On the -92, it is between the two "O"s. JL, EB $5

[ ] (NY)-NYC-SV-92. 1954D, 1955D, 1956D, 1957D or 1958D, H, holed at top. Same as the -90 except for the differences noted in that description. I don't know where the 1956D fits in. EB; JL, EB; EB (reverse not pictured); EB; EB $5

[ ] (NY)-NYC-SV-94. 1957D, 1958D, 1959, 1959D or 1961D, H, holed at top. As noted above, this has the same obverse die as the -90 and -92 but yet a third reverse die. In addition to the fact that the spread in "KMA" is normal on this piece, the letters of KMANGB are much larger on the -90 and -92, taking up almost all of the room in the horseshoe, while on this piece, there is considerable space both above and below the letters. In addition, the "L" in Luck on this piece points up to the middle of the "N" in Bring, while on the -90 and -92, it points up to the "I." JL, EB, BS#30,756; EB; JL; JL, SA#5,399; EB $5

[ ] (NY)-NYC-SV-96. 1961D, 1962D or 1963D, H, holed at top. This piece has the same words and appears to have the same obverse die as on all the -90 series but has yet another, a fourth, reverse die. The letters KMANGB are again large on this die, as they are on the -80 and -82. On this piece, the "L" in Luck points to the left leg of the "N" in Bring, which is different than either the -84, where it points to the middle of the "N" or the -90 and -92, where it points to the "I." JL; JL; EB, JR $5

[ ] (NY)-NYC-SV-98. 1963, H, holed at top. Same words, but the fifth reverse die. On this piece, there are no dots or other filler in the area where the KMANGB is. The "I" points to the left side of the second "O" in Good. I have not seen the 1963D to compare dies. JL $5

west street on the east side of lower Manhattan, six blocks south of where 1st street begins the series of numbered streets. Although Sylvia's is no more, the area is still teeming with similar shops, Freidman Hosiery is at 326 Grant; there are a number of handbag stores on Orchard Street which is the north south intersecting street closest to Sylvia's address and there are quite a few novelty shops in the area. This is a very unusual piece – it has the phone numbers both for the office of Target Menswear, Inc. in New York City, but also the phone number in Clearfield, Pennsylvania for what must be an actual store, where clothes were sold. In 2008, the 814 phone number above belongs to Hyde Clothes Ltd. in Clearfield, Pennsylvania. Thus, the piece is a ½ maverick, although Pennsylvania is certain as to the maverick state because of the area code, with the maverick portion identified to Clearfield. JL $10

The [with three rays coming out of each side]/ Herbert Spencer/ Cigar/ [on the left running diagonally up] High/ Grade [on right running diagonally down] Its Equal/ Is Unknown// Theo. Werner & Co./ Makers N.Y.\\ IBGL/ KMANGB. This reverse seems about equally common, or perhaps just a bit more common, than the GL/ KMAP reverse for the wishbone piece. BP found an advertisement for the Herbert Spencer Cigar in a google book entry, which noted that the usual price was ten cents but with a special introductory offer of a box of 12 for $1. JL, EB $75 (for an original coin -- there is another piece with a replaced 1907 cent in it floating around that I have seen for sale twice, until somebody figures out to put a replaced 1901 cent in it; and in March 2011 a replaced 1883 piece came on for sale)

[ ] (NY)-NYC/(PA)-PHI-TH-20/DE-10. 1947D or 1948D, RD,35mm. Three Feathers// Choice of Good Judges/ Three Feathers Dist. Co., N.Y.C\\ Democratic National Convention// Phila. 1948/ Souvenir. This piece has a different Three Feathers die than the RE-10, the Republican Convention piece -TH-22. Here, the "F" of Of points down to the right side of the "H" in Feathers below; on the -22, it points to the left side of the second "E." Both piece as listed in VN's Penna. catalog under Philadelphia. JL; EB, BS#33,38 $15

[ ] NY-NYC-TI-10. 1955D or 1956D, RD,35mm. Hotel Times Square/ 1000 Fine Rooms// Times Square/ New York City, N.Y.\\ KMANGB. According to the 1960 NYC Business Classified Directory, Times Square hotel was at 8th Ave. and 43rd St. I have listed this here and not under "HO" because its name was actually Times Square Hotel, and the subsequent pieces, starting with the 1957D -14 refer to the establishment that way.. The directory actually listed over 25 hotels with "Hotel" as the first part of the name, just not this hotel. I have not seen the 1956D to compare dies. JL, EB; TC, ATCO, BS#46,88 $8

[ ] NY-NYC-TI-12. 1956D, RD,35mm. Same words as on the -10, but a different obverse die. On this piece, the "T" of Times points down directly to the middle of the "W" in New below. On the -10, it points between the "E" and "W." JL, MM $8

[ ] (NY)-NYC-TI-14. 1957D, 1958D, 1959D and 1960D, small date, RD,32mm. Times Square Hotel// New York City\\ KMANGB. This appears to have the same reverse as the

Fankhauser pieces with the very small clover. This must be the same hotel as the Hotel Times Square. I suspect that it was commonly referred to by both names. I have not compared dies, although that will be a bit difficult as there are no overlapping letters. EB, RG; EB (ex-Steve Tannenbum); JL; EB $8

[ ] (NY)-NYC-TI-16. 1960D, large date, RD,32mm. Hotel Times Square// New York City\\ KMANGB. Different than the -14 because the Hotel comes first, different than the -18 because of the different size and reverse, different than the -20 because of the "City" and no stars. EB, SA#9,447 $6

[ ] (NY)-NYC-TI-18. 1961D, RD,35mm. Same words as on the -16 but a different piece, as indicated by the larger size. JL, EB, BS#54,1598 $6

[ ] (NY)-NYC-TI-20. 1961D, RD,32mm. [small star on each side] Times Square Hotel// New York\\ KMANGB. The star and the lack of the word "City" show that this is another different piece. EB, BS#36,254 $6

Up to Date/ Cafe// [to left of cent in two circular lines going down starting next to the cent]: Tony's/ Cosey Corner [to right of cent in two circular lines]: 580 Lenox Ave./ N.Y.\\ GWBASD/ KMANBCS. Based on the prior piece, I will guess that the name of the business was indeed Tony's Cosey Corner and that it was an Up to Date Cafe. Certainly, Tony was either the owner or deeply involved. EB (a second piece listed in late 2006 with 1897 cent), RG (reporting that the 1906 is original due to marks on the cent from the encasing process); MM, BM#10,123 (both with 1956 replaced cent, almost certainly the same piece) $100

[ ] (NY)-NYC-TO-20. 1950D, RD,35mm. Harry the Horse/ Townley Restaurant// 5th Ave. New York/ Bet. 32nd & 33rd Sts.\\ Man About Townley/ Lucky/ Flip Coin. I have cataloged this piece under Townley Restaurant, not Harry the Horse, as I believe the prime focus of the piece is the restaurant. Most businesses did not make their own reverse, preferring to save money and use a stock reverse. JL, EB, JR, BW, VN $12

They are listed at NY-NYC-AL-50. It is a mystery to me why so few New York City Chevy pieces are known. RG reports that this dealership was in the Bronx, as 1615 Jerome Ave. is in the Bronx, near I-95, and not in Manhattan. He found a 1956 advertisement in the Yellow Pages with address of 1221 Jerome Ave. He further reports that Jerome Ave. is "now notorious for cheap used cars and slick dealers." However, I list it under New York City and not the Bronx as it says New York on the piece. [ ] (NY)-(NYC)-VI-10. 1945, RD,35mm. Victory 5¢ - 10¢// 9th Ave. & 55th St./ Phone Circle 6-7346\\ Victory rev. ty. 1. The address is New York City and Circle was a New York phone exchange, with Circle 5, 6 and 7 being used according to more than one report on the phone exchange website. New York City went to seven digit phone nos. in 1930, well before most areas of the country (Detroit for example still used 6 digits through the late 40s). Finally, my 1958 New York Dun & Bradstreet lists Victory Merchandise Mart at 360 W. 55th Street, as a business in operations for more than 10 years. That address is just east of 9th Avenue. It is rare for the Dun & Bradstreet to list addresses -- they only do it when there is more than one business with the same or very similar name. I believe the above information verifies this piece to NYC. When SH brought this piece on for sale on eBay in August 2016 from the Steve Tannenbaum collection, it sold for $75. Introduction to the New York World's Fair Series

Our largest city has been home to two "world's" fairs, the first in 1939-40 and the second in 1964-65. A world's fair was planned in New York in 1918 but was not held due to the

First World War. The 1939 fair was held on 1000 acres at what is now Flushing Meadow Park in Flushing, a neighborhood of Queens. Its two most distinctive buildings were the Trylon, a triangular tower 610 feet high and the Perisphere, a globe 180 feet in diameter. The focal exhibit of the fair was in the Trylon: Democracity. The most popular exhibit was the General Motors Futurama, a moving chair ride showed what the world would be like in 1960.

Attendance for the two years was only just about 45,000, a major disappointment. The price may have had an impact, seventy five cents was a lot of money in 1939. Most fairs charged only fifty cents. When the fair was over, there was no money to create a permanent park on the site; all the buildings were razed and the steel in the Trylon and Perisphere buildings was sold for scrap and used in World War II. The fair lost about $ 18 million.

The 1964-65 fair was on the same site. The Unisphere was its symbol. This was the first world's fair with significant participation by developing nations. Once again, General Motors had the largest pavilion and the best attendance at an update of the 1939 Futurama. The Pieta was shown at the fair, the only time it has been seen outside the Vatican.

Attendance was not much higher than the 1939-40 fair, only about 50,000. This fair lost about $20 million.

New York World's Fair/ [picture of the Trylon and Perisphere/ ©NYWF on the left side of the cent] 1939 [on the right side]// Stork Club\\ [same reverse]. CD Gale reports a 1939S for the Stork Club world's fair piece, CD#13,1019, but it has not been verified as an authentic original cent. This, like many of the Stork Club pieces, must have been made in quantity, as it is very common and thus not all that expensive. Once in a while, the piece sells for an exorbitant amount to someone on eBay who must not know of its great availability. JL; JL $8

[ ] (NY)-NYC-WF2-12/UN-32. Same obv. as the -10, UN-20, but a different reverse. There are many differences in the two reverses. For example, on this piece, there is a rough background in the horseshoe that KMANGB is written in; on the -10, there is nothing in the horseshoe but the words. On this piece, the "I" in I Bring is over the first "O" in Good; on the -10, it is over the left side of the second "O." JL $8

World's Fair 1964 1965// Neutron Irradiated Dime [electrons traveling in orbit around the dime] \\ Atomic Energy Commission/ United States of America [in the center is a depiction of an atom]. There is also a similar looking piece, that makes no reference to the fair. It just says: Museum of Atomic Energy// Neutron Irradiated Dime\\ Atomic Energy Commission// United States of America. As the Museum of Atomic Energy is in Oak Ridge Tennessee, I have attributed that piece there. JL $10

[ ] (NY)-NYC-WF2-22/AT-22. Same words on the obverse as the previous piece, but a slightly different version -- mostly noticeable in that the words of this version are enclosed between two circles (there are no circles on the -20). [ ] (NY)-(NYC)-WO-12. 1902, 1903 or 1906, RD-O,32mm. Best for Table, Kitchen & Dairy/ Worcester Salt\\ Good [clover, horseshoe, wishbone] Luck. The Worcester Salt Co. was founded in 1894. According to a 1933 legal case before the tax court, it was a New York corporation with its principal address at 40 Worth Street in NYC, formerly at 71 Murray Street,

also in NYC. Indeed, it was listed at 40 Worth in BP's 1939 Manhattan yellow pages. There were seven reported legal cases for this company, all from New York, with the earliest in 1905. One of those cases was a 1915 trademark case in the federal court in Manhattan, where Diamond Crystal Salt Co. unsuccessfully tried to assert rights in the word, "shaker." There is a picture of a salt bag on the Internet, which says, "Worcester Salt Co., New York, New York." I saw a token for sale with a lucky swastika that had Worcester Salt, New York on it. Although the company did have a very large factory in Silver Springs, southwest of Rochester, I believe NYC is the correct attribution based on the above. One of these encased pieces sold on eBay in October, 2001 for $153.50, with three people bidding over $100. I still cannot see this fairly common piece as a $100 piece. It changed back in 1960 and then signed off forever in 1988 to make way for all sports radio WFAN. Similarly in 1954 the New York City NBC television station changed its call letters to WRCA, changing back in 1960. WNBC aired the nation's first television broadcast on July 1, 1941, a baseball game at Ebbets Field between the Dodgers and the Phillys. So in 1956 when this piece came out, both the television station and the radio station went by WRCA. This is therefore a NYC piece. JL $15

Jerome Ave. Open Evenings\\ KMANGB/ IBGL. I believe the address is sufficient to identify this piece to the Bronx. According to Yahoo, 7 W. Burnside Ave. is in the Bronx at the corner of Jerome Ave. Jerome is the main N/S street running through the east side of the Bronx (actually it goes a little NE, following the direction of the Hudson River). W. 179th Street turns into W. Burnside 4 blocks east of Jerome. Burnside then becomes E. Burnside on the other side of Jerome (which is why 7 W. Jerome is on the corner). W 179th Street starts up again one block south of Burnside. The reverse of this bell encasement is from the same die as the Washington D.C. souvenir encased bell that I described as bell type 3 in my article in the Casement, issue 16, May 1999. To my knowledge, that encased reverse comes with dates of 1930, 1935 and 1939. JL, EB $35

BP found this company listed under this name (Brown-Marco, Inc.) in his 1955 Dun & Bradstreet, in the Manhattan, Bronx section, in the Coal, Fuel and Oil business. It was also listed in my 1953 and 1940 D & Bs, although in 1940 it had the name Brown Marco Coal Co., Inc. It was no longer listed in my 1958 Dun & Bradstreet and I cannot find it in either the 1954 or the 1960 NYC Business Classified Directory. A Lexis and google search showed no legal cases for this business and only one newspaper article -- a reference to a 1942 book published by McGraw Hill and written by Aubrey I. Brown and Salvatore M. Marco, entitled "Introduction to Heat Transfer." The second edition came out in 1951 and a third edition in 1958. That may just be an amazing coincidence, but I suspect it is likely the authors gave their names to the business on this piece. According to the phone exchange website, MElrose was a Bronx exchange, which became ME 5 in 1930 and then continued until the 80s. This is probably why the company is not listed in my 1953 Manhattan phone directory. The above is not quite enough to verify the piece to the Bronx, but I believe it must be. [ ] (NY)-(BRX)-BR-32. 1948S, H. Same words as on the -30, but a different obverse die. The right leg of the "R" in Year is pointing directly to the "L" in Oil below, like on the -34 piece.

However, on this piece the right leg of the "N" in Brown points directly to the "S" in Souvenir above; while on both the -32 and -34 pieces, it points to the left of that "S." This is very interesting; I wouldn't have expected the '48S to have a different die than the '48 and '48D. Remember that there were quite a few '48S pieces made, way more than any other S mint cent. Perhaps the different dies shows that '48S pieces were made at a different time than other '48 pieces; for example either earlier in '48 or later, perhaps even into early '49 before '49 cents became available? RP, AM(892) $8

[ ] (NY)-(BRX)-BR-34. 1949, H. Same words as on the -30 and -32, but a different obverse die, just very slight differences. All three pieces look like they have the same reverse, with what I perceive as possible differences likely due solely to strike and wear. On this obverse, the right leg of the "R" in Year points down directly to the top of the "L" in Oil. On the -30, it points to the right of the "L," so that the "L" is pointing up to the middle of the "R." JL, EB $8

The eBay seller of this old mirror attributed the piece to the Bronx, and it looks like that was right on. The 1914 D & B lists Gennari, Emanuel & Co. in the shoe business under Manhattan and the Bronx. The address further narrows this to the Bronx; 650 Morris Park Ave. is just east of the south side of the Bronx Park, and the Bronx is the only place that comes up when this address is input into google maps. It took me a while to figure out that there were two separate locations described here. I went on Yahoo and found Broadway & 159th Sts. in upper Manhattan but did not see any Fordham Road to the north. I did a search under nearby businesses for "Grand Concourse" thinking that might be some kind of arcade or description of the building, but the results showed me it is a street in the Bronx. In fact, it is a main north south road running throughout the Bronx. It intersects with Fordham

Road. That was when it hit me that Grand Concourse south of Fordham was a Bronx location. In addition, BP found Herman Herring in the Woolens business in the 1955 Dun & Bradstreet. [ ] NY-BRX-LI-20. 1951D, RD,35mm, holed at bottom. Linder Oldsmobile, Inc./ 4256 Bronx Blvd.// Bronx 66, N.Y./ F A [hole] 4-1900\\ KMAYWHGL. There are seven Linder Oldsmobile pieces, all with the same words, but five distinctly different obverse dies. On this piece, the initial "4" points up between the "D" and the "E" in Linder, closer to the "D." On the 1954D, -22, it points to the middle of the "D." On the 1957D and 1960 pieces, the -24 and -26, it points to the left side of the "D." On the -28, 1965, it points between the "D" and the "E." On the 1968D and 1971D, -30 and -32, it points to right side of the "D." The "A" in FA points to the "B" in Bronx on the -30, while it points to the middle of the "R" on this piece and the right side of the "R" on the -28 (the -28 and this obverse are very close, with the letters in just a bit different position). I believe that the -20 and -22 reverses are the same, with a curved bar over the And You Will Have. The -28 has a curved bar too. The -24, -26, and -30 each have a straight bar. Athough not all the pictures are clear and complete, I think there are only two separate reverse dies that come from these three pieces though, as the -26 and -30 reverses ('60 and '68D) reverses look the same. On the -26 and -30, the bar is thinner than it is on the -24, and it starts above the "Y" of You, while on the -24, it starts above the "D" in And. Based on the picture of the -32, I am not sure there is a bar at all on that piece. In any event, on the -32, the

"Y" in You points down between the "HA" of Have (and the KM and GL letters are very large); while on the -26 and -30, it points to the left side of the "H." Linder Oldsmobile Inc. is listed in the 1958 New York Dun & Bradstreet, with 1952 listed as the date the business was established or came under present control. JL, CK#181,S10 $15

This is the encased that was described on a 1957 Topps card, which was distributed with that year's baseball set. The card has a picture of the reverse of an encased cent with the KMANGB motto but no clover and with a 1957 cent obverse showing, with a keychain inserted in the hole. The front of the card says: "Lucky You! Get This Lucky Penny Charm and Key Chain Free! Holds Your Keys, Keeps Money in Your Pocket, Brings You Luck. The reverse describes the offer of a free lucky charm key chain with a SASE and 1 Bazooka or Blony wrapper. The address listed was: "Lucky Penny Charm, Box 100, Brooklyn 32, N.Y." The offer has expired; it was only good for 30 days. This Topps card sells for $30 to $60 in average shape, more if in excellent shape. The piece was also pictured on a Topps Football 1959 wrapper, which indicates that the offer to get the lucky penny key chain expired on November 15, 1959. Two wrappers came on for sale at the same time on eBay in the spring of 2006 and sold for $52 and $100.

The picture was not of this actual piece, however. This is one of the rare pieces where the obverse of the cent faces the obverse of the encasement. Therefore, if this piece had been pictured, it would have been the cent reverse that showed. In addition, the encasement die was different. The bar is completely over Never on the picture, but starts just to the right of the "D" in And on the piece. There is usually substantial wear at the hole on these pieces. I believe that is because the pieces did come with a key chain. Al Zaika used the Thomas Register of American Manufacturers to attribute this piece to Brooklyn. Introduction to the Souvenir of Coney Island Series

Coney Island is an island south of Brooklyn, separate from Long Island only because of the very small Coney Island Creek, which runs east west from Gravesend to Sheepshead Bay. It was discovered by Europeans when Henry Hudson's Half Moon docked there in 1609 (see NY-(NYC)-HU-10 for some discussion on Henry Hudson's discovery of the Hudson River in 1609 and the Tercentenary Celebration that followed in 1909).

Coney Island was eventually developed into a resort, amusement area with beaches, amusement parks, hotels and race tracks. For quite a long time, it has been the nearest amusement area for the largest city in the country. The world's first roller coaster was built on Coney Island in 1884. There were three amusement parks on Coney Island during the time Coney Island Souvenir encased were being manufactured: Steeplechase which opened in 1897, Luna Park, 1903 and Dreamland, 1904. Those three amusement parks exist no longer, but there is still an amusement park in operation on Coney Island in 2000, Astroland, which opened in 1962.

I am going to start the Coney Island catalog numbers at 100 to keep room below for the other Brooklyn CO pieces. See, (NY)-(BRO)-DR-10, for a 1909 chamberpot piece for Dreamland, which was one of the three amusement parks at Coney Island.

[ ] (NY)-(BRO)-CO-100. 1901, 1904, 1905, 1906, 1907, 1908, 1909 Indian, 1910, 1911, 1912D, 1913, 1919, CP-L. Souvenir of/ Coney Island// [on each side of the cent] Good Luck/ [diagonally on each side of the cent] I Have/ Been to [on one side] and Got/ Cleaned [on the other] Coney Island\\ GWBASD/ APFOM// KMANBCS. I have not seen all of these pieces but the ones I have (1904, 1905, 1906, 1907, 1908, 1909 Indian, 1910, 1911, 1912D and 1919) are all from the same dies. Therefore, I have put all these dates under the same catalog number. There was a 1918 cent upside down in one of these pieces for sale on eBay in February 2003, almost certainly a replaced cent. CD#24; EB; EB; EB; JL, EB, BM#10,182; EB, BS#68,1300; EB; EB, JR; AJ, EB; EB; EB, JR, PC#21,670; BS#39,94; EB $40 (Lincoln cents perhaps $10 less except 1915D)

[ ] (NY)-(BRO)-CO-102. 1907 or 1908, CP-R. Souvenir of/ [squiggley line each side]/ Coney Island// [shield each side of the cent]/ [squiggley line all across the bottom]\\ GWBASD// KMANBCS. Different reverse than the -100 as well as different obverse -- on the reverse, the "And" is on the same line as the "Sit Down," while on the -100 it is in the middle of the two lines off to the left. On this piece, the "N" of And extends both up and down past the letters to either side. EB; JL $60

[ ] (NY)-(BRO)-CO-104. 1915D, CP-L. Same obverse as on the -100, but a different reverse motto: IAYM/ KMANGB, with a flower and stems on each side. It is likely that some of the pieces I have not seen that I list under the -100 belong here. EB, BS#39,94 $50

[ ] (NY)-(BRO)-CO-110A. 1906, H. Souvenir/ of// Coney Island [very ornate design, beaded around cent and around encasement rim]\\ KMANGB/ IBGL. The 1906 and 1910 pieces appear to have the same obverse and reverse dies. I also have a piece with a replaced cent that matches. I have not seen the 1911 to compare. JL, JR, EB, SA#41,417 (Steve's piece was holed at top, but probably not as made) $45

[ ] (NY)-(BRO)-CO-110B. 1910, 1911 or 1912D, H. Same dies as the above piece, different dates. EB, RG; SA#6,420; EB $35

[ ] (NY)-(BRO)-CO-112. 1915D, 1916 or 1917, H. [dots all around the encasement rim]/ [design] Souvenir/ of// Coney Island/ [design]\\ KMANGB/ IBGL. To the best I can tell, the obverse die of the 1917 piece, which I have seen, matches the obverse die on the -110. The reverse is different though. The clover on the -110 reverse is huge, the one on this piece more normal sized. On the -110, the words I Bring are above the wishbone, on this piece, they are below the wishbone, "I Bring" to the left and "Good Luck" to the right. I did not save a copy of the 1915D piece to compare dies. PC had a minimum bid of $17.50, quite high for 1977. Based on what I saw in PC's catalog, I'm not certain that the current market would accept the "unusual brassy color" as an original piece. PC#21,672 (described as "unusual brassy color"); EB; EB, HC $35

[ ] (NY)-(BRO)-CO-114. 1919 or 1919D, H. Again, it looks to me that the obverse is the same as the other pieces. This is yet another reverse die though. The "I Bring" is back above the wishbone, but the clover is not really as large and the wishbone not as thick. In addition, the wishbone on the -110 extends down quite far, almost to the rim of the piece; here the extension is much more modest. EB; EB $35

[ ] (NY)-(BRO)-CO-120. 1901, RD,32mm. Compliments of/ Louis Stauch// Coney Island/ "Go Where the Crowds Go"\\ KMANGB/ GL// [three clovers on the bottom, with the horseshoe covering up part of the left and right clovers]. EB $60

[ ] (NY)-(BRO)-CO-122. 1903, RD,38mm. Souvenir of/ [four leaf clover on each side of the cent]// Coney Island\\ LPPP/ IBGL. This piece is in the same style as a 1907 Jamestown Exposition piece, with the letters extended beyond the norm. A piece sold on eBay in May 2004 with initials "WHB" carved into both the cent obv. and rev. and the "S" of Island planed off, for $30. JL, EB $40

[ ] (NY)-(BRO)-CO-124. 1905, 1906, 1907 or 1908, RD,35mm. [small flower, a rosette, on each side of the cent] Souvenir of// Coney Island\\ KMANGB. To the best of my knowledge, all these dates have the same dies. The reverse in each case is the style with the 9 semi-circles on each side going around the rim. SA Tokens and Metals Book page 54, SA#34,1808, EB; JL, EB, DG#97,16; EB, BS#34,59, BS#37,65, KK273 and 274; JR, EB, PC#21,664 $25

[ ] (NY)-(BRO)-CO-126. 1909 Lincoln, 1910, 1911, 1912D or 1913, RD,35mm. Same obverse as the -124, but a different reverse -- on the -124 piece, there are 9 semi-circles around the encasement rim on each side; on this piece, there are vines and berries instead. The vine and berry reverse stems from this period, around 1911; the half circle reverse was from the mid-1900s and then came back in with different styles in the mid to late 1910s. AJ; JL, EB, BS#37,66; EB; EB, BS#33,971; BS#33,11 $20

[ ] (NY)-(BRO)-CO-128. 1906, 1907, 1908 or 1909 Indian, RD,35mm. [on ribbon] Souvenir of [in large letters at top] Coney Island// [three stars]\\ KMAAHM. Another 1907 sold on eBay with the Buy it Now option for $40 in June 2001. Both my piece and all pictured eBay pieces have the obverse of the cent facing the obverse side of the encasement. This piece seems to be more common as more time goes by. EB, JR; JL, EB, SA#40,1525; EB; EB $35

[ ] (NY)-(BRO)-CO-130. 1928, RD,32mm. Souvenir of Coney Island// [three small stars on each side of a larger star]\\ IBGL. This reverse is very close to one of the three known reverses on the 1929 Souvenir of Canada series, but it is just a bit different -- the clover stem here comes straight down and is cut at the bottom diagonally with the left side extending just a bit further down, while on the Souvenir of Canada reverse, the stem curves slightly to the right and the bottom of the clover stem is horizontal. JL $22

[ ] (NY)-(BRO)-CO-132. 1929, RD,32mm. Souvenir of Coney Island// [three small stars on each side of a larger star]\\ KMANGB/ IBGL. Looks like the same obv. as the -130, but a different reverse. These two types are the same style pieces as the NY-NYC-SV-30 and -32 pieces. EB $22

[ ] NY-(BRO)-CO-140. 1954D, H, holed. Souvenir of Coney Island, New York City. This is how SA cataloged this piece. If he cataloged it correctly, it is the only Coney Island piece I know of that has "New York" on it. He did catalog the -142 differently (by including, "Playground of the World"). Looking back at these earlier SA sales catalogs with prices realized about six years after the close date, I wonder why I did not buy all these pieces at the prices they were then selling for. SA#51,1758 $15

[ ] (NY)-(BRO)-CO-142. 1953D, or 1956D H, holed at top. Souvenir [hole] of/ Coney Island// Playground of/ the World\\ KMANGB/ IBGL. [ ] (NY)-NYC/(BRO)-CO-144. 1955D, H, holed at bottom. Souvenir of/ Coney Island// New York City/ [hole]\\KMANGB/ IBGL. This is the only Coney Island piece with a city on it; and it is not Brooklyn, but rather New York City! EB $15

[ ] (NY)-(BRO)-CO-146. 1957D, H, holed at top. Same words as on the -142, but a different obverse die. Here, the "N" of Coney is directly below the "S" of Souvenir. On the -142, the "S" is on the very left side of the "N." BW $15

[ ] (NY)-(BRO)-CO-148. 1969D, H, holed at bottom. Souvenir of Coney Island// [hole]\\ KMANGB/ IBGL. This was an unlisted Coney Island piece when it came on for sale on eBay as part of a 5 encased lot in March, 2008. JL $12

[ ] NY-BRO-DI-10. 1937 or 1939, RD,35mm. Dime Savings Bank of Williamsburg/ Havemeyer & So. 5th Sts., B'klyn, N.Y.// Save Pennies/ for a Bank Account\\ KMAYWHGL. Williamsburg is a neighborhood of Brooklyn, just across the Williamsburg Bridge from Manhattan (a couple miles NE of the Brooklyn Bridge). The Dime Savings Bank of Brooklyn was chartered in 1859 and changed its name to the Dime Savings Bank of New York in 1970. This must have been one of its branches, in the Williamsburg neighborhood. The bank is still listed at Havemeyer and South 5 Sts in Brooklyn in my 1960 NYC Business Directory -- bank mergers and turnover was much less in that 20 year period than in the last 20 years. The bank's 2000 headquarters are in Manhattan. Both these pieces have the same obverse die, as does the -12. The '37's reverse appears to be like that of the '39, but the picture I have of it is very small, so that I cannot be certain. See, (NY)-NYC-DI-10 for a 1979 piece for the Dime Savings Bank of New York. EB; JL, BP, BS#34,56 $8

[ ] NY-BRO-DI-12. 1940, RD,35mm. Same words and obv. as on the -10, but a different reverse. On this piece, the bar over And You Will starts at the left of the "D" and goes to the far right of the "W." On the -10, it starts to the right of the "D" and goes to the middle of the "W." JL, EB $8

[ ] NY-BRO-DI-14. 1968, dime encased in lucite on a keychain, with no writing on the lucite but comes in a wrapped card. On the card: Kings Plaza Office/ Kings Plaza Shopping Center/ Flatbush Avenue and Avenue U/ Brooklyn, New York 1*234/ The road to riches starts at the Dime/ [large letters] DIME/ The Dime Savings Bank of New York/ Member FDIC/ Regular Hours:/ 9:30 AM to 9 PM/ Monday-Friday/ [there is more below, I think weekend hours are coming, but it is cut off on the picture I have]. An interesting piece, it is really an encased item? Once the dime in the lucite is taken out of the card and used, there is no advertising any more. EB $10

[ ] (NY)-(BRO)-DR-10. 1909 Lincoln, CP-L. Souvenir of/ Dreamland/ [the usual Good Luck I Have Been to Dreamland and Got Cleaned is below the cent]\\ GWBASD/ KMANBCS. Dreamland only operated at Coney Island from 1904-1911, so this piece fits right in its short life span. Look above under the (NY)-(BRO)-CO-100 series for the history of Coney Island. JL $50

[ ] (NY)-(BRO)-EA-10. 1906, RD,35mm. Eastern District Savings Bank,/ 1896-1907.\\ KMAAHM. The Eastern District Savings Bank of City of Brooklyn was chartered in 1895 and probably began operations in 1896. In 1920, the bank changed its name to the Roosevelt Savings Bank of the City of New York and encased were issued under that name. This seems to be a pretty common piece, for an encased Indian. [ ] (NY)-(BRO)-EA-20. 1953D, H, holed at bottom. East Brooklyn Savings Bank// Incorporated 1860\\ KMANGB/ IBGL. According to the Scripophily listing of New York banks on the Internet, the East Brooklyn Savings Bank was chartered in 1860. It continued without change until 1969, when it began to be part of a series of mergers, acquisitions and name changes until it has become Crossland Savings, FSB, with main office at 211 Montague St., Brooklyn, N.Y. EB, BS#35,970 $8

[ ] (NY)-(BRO)-EA-22. 1955D, H, holed at bottom. Same words as on the -20, but a different rev. die. On this piece, the "I" points to the right side of the first "O" in Good, and the the left wishbone barely makes it to be even with the start of the "D" in And. On the -20, the "I" points right to the middle of the two "O"s, while the left wishbone goes past the "D." It is very difficult to compare the obverse dies, as there are no overlapping letters, but I think they are likely to be the same, as on both pieces the "T" of East is a little higher than the other letters in East. JL, JR, BS#35,33 $8

The bank is still in business under the same name and at the same location in July 2000. That is extremely rare because of the recent series of bank mergers. The bank was founded in 1889 as the "Flatbush Co-Operative Savings & Loan Association." It took on its current name in 1936 after it acquired two other institutions. The bank is just east of Brooklyn College near Flatbush Ave. There are two branches in Brooklyn, on 18th Ave. and on Brighton Beach Ave. JL $8

According to the website telephone exchange data base, Brooklyn had the Hyacinth exchange with all numbers possible as the third number Indeed 497- is a common start to a phone number today in the Ridgewood area of Brooklyn. In the 1953 D & B, Flint Fuel Corp. is listed under Brooklyn, with start year of 1947. Other than Indianapolis (where there was no Flint Fuel listed in the 1953 D & B), Brooklyn is the only other large city listed with the Hyacinth exchange. The smaller cities would not have had 7 digits as early as 1953. Therefore, I think it is very likely, though not completely certain, that this piece was from Brooklyn. EB $10

The Green Point Savings Bank was founded in Brooklyn in 1868. Its first office was at Franklin and Oak Streets in the Brooklyn neighborhood of Greenpoint, in the far northwest corner of Brooklyn, just off the East River. In 1932, it acquired the Home Savings Bank of Brooklyn and expanded its operations to Flatbush, another neighborhood of Brooklyn. In 1967, just before this piece came out, the bank opened an office in Flushing, Queens, which eventually became the headquarters of the bank's mortgage operations. In 1969 it expanded further to Levittown, in Nassau County. By 1993, the bank was the largest state chartered mutual savings bank in the nation, with assets of $6.2 billion, and it decided to convert to stock ownership. The corporate name was changed to GreenPoint Financial, the bank's name to GreenPoint Bank, and the stock now sells on the New York Stock

[ ] NY-BRO-KL-10B. 1923, H. Same words as above. I cannot tell if this is a different die than the -10A, as I have not seen that piece. This appears to be the same reverse die that was used on some of the souvenir of Washington D.C. horseshoe shaped pieces. The wishbone looks somewhat like a cattle head -- the bottom part is fairly long and in fairly high relief. I have three D.C. souvenir pieces with this reverse, that have 1893, 1912 and 1925 cents in them. There is no question but that both the 1893 and 1912 cents were quite used when they were encased. The accompanying article, attributing information to Richard North, whose grandfather, Herbert Haug was president of this company in the 1950s, states that the Mason, Au & Magenheimer Confectionery Mfg. [ ] (NY)-(BRO)-RA-10. 1930, RD,35mm. Raffetto Bros., Inc./ General Trucking// Wallabout Market/ Phone Williamsburg 5-3410\\ KMANGB. According to the phone exchange website, NYC changed over to 7 digits in 1930. WIlliamsburg xxxx became WIlliamsburg 5 - xxxx on November 20, 1930 and served the Williamsburg area of Brooklyn. It was likely that NYC was the only place in the U.S. that had 7 digits that early. The Wallabout Market opened in 1884 in Williamsburg next to the Brooklyn Navy Yard, on Wallabout Bay. It was the largest farm market in Brooklyn until the expansion of the Brooklyn Navy Yard after the outbreak of World War II shut it down. It was then replaced by Canarsie's Brooklyn Terminal Market on Jamaica Bay. This piece was attributed by Al Zaika using the 1929 Bullingers Postal Guide. JL, EB, AM(297), DG#101,142 $14

This piece was attributed to NYC by CD, who also reported a 1918. It took me some time to find this because the Yahoo map search thinks Brooklyn is a different city than New York, so that a search for the intersection of Broadway and Gates in New York City came up empty.

The ACE Maverick program originally incorrectly attributed this piece to Rochester, New York. This was the first year of the program before ACE began publishing the proof of attribution. There is no Broadway and Gates Ave. in Rochester and, to the best I can tell, no Roosevelt Savings Bank.

I determined by searching the Internet that there had been quite a few Roosevelt Savings Bank locations on Long Island (see the Queens piece, NY-QUE-RO-10 from 1972). The Internet site of the Roosevelt Savings Bank pointed out that the bank has been in operations since 1895 and just merged into the Roslyn Banks. I went to the Roslyn Bank website and noticed that there was a branch in Brooklyn on Gates Ave., which indeed is at Gates and Broadway. If I had done the original Yahoo search for Gates and Broadway under "Brooklyn, NY," I would have immediately found the reference and saved a lot of time. I then called the Roslyn Bank, where a very nice lady confirmed that the Roosevelt Savings Bank had been at Gates and Broadway until the merger with the Roslyn Banks was consummated in February 1999. Gates and Broadway was the original headquarters of the Roosevelt Savings Bank back when it started out.

The bank was originally chartered as the Eastern District Savings Bank of City of Brooklyn in 1895 and did not change its name to Roosevelt Savings Bank until 1920.

[ ] (NY)-(BRO)-RO-12. 1945, RD, 35mm. Serving Savers 50 Years/ [dates are on each side of the cent, just below and above the writing] 1895 1945// Roosevelt Savings Bank\\ KMANGB. This is, of course, the same bank as above, founded in 1895, as on this piece. By the time the Roosevelt Savings Bank merged into the Roslyn Bank, it had many locations on Long Island, at least as far out as Dix Hills. My call to the Roslyn Bank confirmed that Brooklyn was the original headquarters of the Roosevelt Savings Bank, although the headquarters had moved to Garden City, Nassau County by 1999. My source at Roslyn did not know when the headquarters moved. Because Brooklyn was the original headquarters of the bank, because there were always quite a few locations in Brooklyn and because of the prior piece, I will locate this piece to Brooklyn. [ ] (NY)-(BRO)-RO-14. 1956D, RD,35mm. First Anniversary/ Marine Park Office// Roosevelt Savings Bank\\ KMAYWHGL. Marine Park is a neighborhood of Brooklyn on the Southeast side, bounded by Kings Highway, Flatbush Ave., Avenue U and Nostrand Ave. There

is a Roslyn Bank in 2005 at the corner of Avenue U and Nostrand Ave. just at the edge of Marine Park. When this unlisted piece came on for sale on eBay in late fall 2005 as part of a three encased piece lot, I called the branch at Avenue U and Nostrand and while on hold they played Roosevelt Savings Bank ads. I was told that the Avenue U and Nostrand branch started business in 1945, which if correct would show that that branch was not the Marine Park Office referred to in this piece, which probably opened in 1955, or possibly 1956 (if the piece were made in 1957 but that year's cents were not yet available). A second piece was in an eBay lot in 2006. JL $10

[ ] NY-BRO-SC-30. 1929, H. [5 pointed star each side] Schneer's/ Just Bring An Honest Face// 557 Fulton Street/ Brooklyn, N.Y.\\ KMANGB/ IBGL. The originality of the 1917 cent in the ACE auction must be in some question, as the piece sold in their auction was described as an AU encasement and a VG cent. Or maybe they used circulated cents. The subsequently discovered 1929 looked more realistic. There was another Schneer's that made a good for with 1927 cent from Norfolk, Virginia. I suspect both were jewelers. August Senges/ [six small dots with a star in the middle]/ Quality Furniture/ [fairly large five pointed star on each side of the cent]// 1600 Myrtle Ave./ Near Wyckoff Ave./ Brooklyn, N.Y./ [small star in each corner]\\ KMANGB/ IBGL. VN sent me a picture of his 1919 piece quite some time ago and the dies are so close to the -12 that I originally had so reported. When I obtained the 1920D piece, I took a second look and also first thought the dies were the same. The reverse dies are, I believe, and the lettering above the cent seems to match up perfectly. But there is one clear and obvious difference: the "1600" on this piece is noticeably way larger, more than double the size, than the other words on the piece, while on the -12, it is actually just a little bit smaller. Other than that, the bottom lines seem to line up equally. My guess is that the "1600" was polished off of one of the original dies because it was too large and redone for the other piece. Both my 1919S and 1920D look like they must have circulated some before encasement, and based on the picture, VN's 1919 looks circulated too. I believe this piece was made in 1929 with circulated cents. VN; JL; JL $15

[ ] NY-BRO-SE-12. 1929, H. Same words as on the -10, with only the difference in "1600" noted above. This piece seems relatively common. JL, EB, PC#21,683, CD#27, CK#165,F15, BS#74,477 $12

This is very interesting -- in the same year, Senges made a piece that gave a discount and one that did not. This piece seems much less common than the -12. The words under the cent on this piece are the same as on the -10 and -12 and the die cutting is very close, but not exact. Here, the "Y" of Myrtle points down between the "Y" and "C" of Wyckoff below, while on the -10 and -12, it points to the right of the "Y." Looks like the same reverse dies. JL, JR $25

Brooklyn has both a 512 Fifth Ave. and 157 Smith Street, and I cannot find another city where that is so. RG reported from personal knowledge that 157 Smith Street is in the Cobble Hill section of Brooklyn which was a garment manufacturing area prior to World War II. His 1920 Dun & Bradstreet lists Isidor Smith as a dress manufacturer in Brooklyn. In his 1930 directory, there is a Smith Dress Co. at 252 W. 38th

N.Y.C., 140 Nassau St. ((NY)-NYC-SO-10). It appears this store had a location in Brooklyn too from a note about good advertisers in the March 23, 1928 Brooklyn Daily Eagle. 1697 Broadway is a valid address in both Manhattan and Brooklyn, but the address in NYC is the Ed Sullivan building, while in Brooklyn it looks like a series of stores that could easily be a clothing store. While this piece is not verified, it is very likely based on the '26 piece and other information. It was not known until SH sold it, ex-Brooklyner Steve Tannenbaum, in July 2016, attributing it to New York City. EB $20

Queens (Queens County, the northwestern part of Long Island, it extends much further east than Brooklyn and its southern most point, Rockaway peninsula is actually further south than any point in Brooklyn, the second most populous county in the state of New York, after Kings County)

Queens often uses hyphens in addresses. This use is similar to the use of hyphens in phone numbers -- it simply divides the address into a first part, which refers to the numbered street where the address is located, and the second part. For example, 179-15 Jamaica Ave. is 17915 Jamaica Ave. and is therefore just past 179th Street. It does not indicate that the business has more than one building, as it would in most towns.

I put Queens mavericks under Queens even if you can tell which neighborhood the establishment was in. I put a piece in a neighborhood if the name of the neighborhood is on the piece.

[ ] (NY)-QUE-FL-10. 1946, RD,35mm. Flushing National Bank// in Queens/ It's Flushing National\\ KMANGB. This was an unlisted piece when SH brought it up for sale, ex-Steve Tannenbaum, in July 2016. EB $10

[ ] (NY)-(QUE)-FL-12. 1947, RD,35mm. Flushing National Bank// Main St./ Flushing 8-5000\\ For My Money// It's Flushing National. Main Street is the center of Queens and runs north/south between Flushing and Jamaica a few blocks east of the Wan Wyck Expressway. A long time resident of New York, who sold me this piece, told me that there was a Flushing telephone exchange in Flushing. The phone exchange website lists Flushing 3,7,8 and 9, as from New York, Queens. There was a 1947 case in the New York Court of Appeals with "Flushing National Bank in New York" as plaintiff. The Flushing National Bank in New York was established in 1929 and merged into State Bankers Trust Company in 1950. Flushing National Bank was listed at 36-63 Main Street, with phone Independence 3-2300 in the 1936 Queens phone directory. A different Flushing National Bank failed in the late 1980s and became the National Bank of New York City, which, as of May 2000, has two branches, one in Flushing on

38th Ave. and one in Manhattan. I called that bank and was told that the Flushing National Bank that was their predecessor was formed in 1963. I cannot find that bank in the list of New York banks on the Internet. JL, TH, EB $10

[ ] (NY)-(QUE)-HA-10. 1951D, RD,35mm. Haven Chevrolet, Inc./ 8120 Atlantic Ave./ MIchigan 2-1350\\ KMANGB. Atlantic Avenue is a major east west road traveling through Brooklyn and Queens. The 8120 address is in Jamaica, Queens. I called the number on the piece (adding the 718 area code) and got a real estate company located on Pennsylvania Avenue in Brooklyn. The eBay seller of this piece identified it to Brooklyn and when I emailed him that the address was in Queens, he responded that he knew that it was, but that he was from Brooklyn and when he was growing up, "we referred to it as all Brooklyn." I did a search on Lexis under the New York public records, and Haven Chevrolet Inc. is still an active New York corporation in 2001. It still owns a lot at 8112 Atlantic Ave., Queens, with a total market value of $503,000 listed. RG took a trip out to the address to see what it looked like. 8120 Atlantic is just four blocks past the Brooklyn/Queens border, which runs erratically in this area. The area is extremely depressed. The address was occupied by "Mango Vegetable & Fruit Inc.," and has an attached car wash and two bay garage doors now permanently sealed. It looks like a car dealership was once there. Haven Chevrolet Inc. was listed in the 1936 Queens phone directory at 97-20 Jamaica Avenue, Woodhaven and in the 1958 New York Dun & Bradstreet under Queens. See, NY-OZO-HA-10 for a 1948 Chevy series piece for Haven Chevrolet. JL, EB $15

This address was in the Fresh Meadows neighborhood of Queens. Most of Horace Harding Boulevard has become the Long Island Expressway, I-495. I am not certain whether this is a maverick. This was attributed in one of the earliest ACE Maverick identifications to Jamaica, New York with no source given. It was also attributed by SA to New York City. Jamaica is a neighborhood of Queens, like Flushing and Forest Hills. Because the designation of Jamaica as a neighborhood or town does not appear on the piece itself, I have listed the piece under Queens and not under Jamaica. Jamaica Loan Co. was listed at 89-77 163rd Street in the 1936 Queens phone directory, which matches this piece saying that it was on 163rd in 1945 but moving to 166th and Jamaica in 1946. Jamaica Ave. is a major east west street through the eastern part of Queens. 166th Street becomes Merrick Blvd. south of Jamaica Avenue. 163rd Street is three blocks east. The piece I saw had a 1907 Indian cent in it, but the design looked like it was from the 40s or 50s. The cent was in tight and had marks from being struck with the encasement, but it must have been put in well after 1907, as it was very circulated, a good, and the encasement was a nice EF. BP determined that Virginia was a Queens exchange and then located this company in the Richmond Hill section of his 1955 Dun & Bradstreet. Re-New Construction Co. Inc. was listed on the NY DOS website in 2003 as an active Queens corporation at 11001 Atlantic Ave., Richmond Hill, New York, with initial filing date of April 18, 1938. According to Yahoo and its own website, its current phone number remained 849-6400 (VI is indeed 84). Therefore, this is absolutely the company identified in this maverick encased piece. EB $10

The person who reported the 1949 piece to ACE had the phone number as Virginia 5400 – that must be a typo. It would have made attribution difficult because Queens has had 7 digit phone numbers since 1930. The 1948S has the "9" in the phone number directly under the "S" in Const. above. On the -14 '50S, it is between the "ST." I have not seen the '40 to decide where it goes, just have it here for now. EB; AM(389). $10

Unlike the encased cent and the encased mirror that came out just after the Second World War (the -12 and -14), this piece was not a maverick. It is the only encased piece I know of though that refers to Queens County. Perhaps I should have used catalog no. "SA" for Savings, but I have used the RI to match the upcoming -12 and -14 pieces. It changed its name to Ridgewood Savings Bank in 1929. It was listed in the 1936 Queens phone directory at Myrtle and Forest Avenues. In 1992, it was purchased by LID of America Savings Bank. [ ] (NY)-(QUE)-RI-20. 1945, RD,35mm. Richmond Hill Savings Bank// 1921 - 25 - 1946\\ Victory rev. type 1. The Savings Bank of Richmond Hill was chartered by the state of New York in 1920. It changed its name to Richmond Hill Savings Bank in 1935 and has since been acquired and merged three times, once each in the 70s, 80s and 90s, until today it is part of the North Fork Bank system, with numerous branches in Queens and on Long Island. I believe the one year discrepancy between the chartering of the bank and the anniversary date on this piece is because the bank probably did not open for business in the year that it was chartered. There is a 1972 case in the United States Tax Court where Richmond Hill Savings Bank was challenging its 1965 and 1966 taxes -- the court said that the bank was located at Richmond Hill, N.Y. It was listed in the 1936 Queens directory at 116-02 Jamaica Avenue, but then had moved by its 1960 listing in the greater NYC Business Classified Directory with main office at 115-20 Jamaica Ave. Richmond Hill. I do not know what other Jamaica Ave. would have this high a number and use the standard Queens hyphen. 11905 Jamaica is between 119th and 120th streets, in Richmond Hill. The Virginia exchange (now 84) is very prevalent in the area; there are quite a number of restaurants with that prefix, including many 847s in 2001. G. Slater Corp., N.Y.C. I called the phone number on the piece in the summer of 2000, adding Long Island area code 718, and got a business in Long Island City that sounded like OCS. A check on Yahoo, however, showed that Otto Herrmann, Inc. was then still in business in Glendale (although Yahoo incorrectly thought it was in Flushing) at 6729 Myrtle Ave., with a new exchange but same last four digits for a phone number, 821-1400. I called to find out more about the company, It had been in business for about 80 years and is a distributor of industrial supplies. Not surprisingly, they have no records about why an encased, lucky number piece was issued 49 years before. The receptionist was a bit confused about where she was -- I read her the piece, including "Glendale 27, Long Island," and she insisted that she was in Queens, and not in Long Island. I believe that when a New Yorker says, "Long Island," they are referring only to Nassau and Suffolk counties and not the part of Long Island that is in New York City.

JR pointed out to me that "Herrmann" is the full German name, which has usually, but not in this case, been shortened to Herman. It literally means, Mr. Man. JL, JR, AA#20,m-65 $12

Introduction to the Souvenir of Niagara Falls Series

I have always really enjoyed visiting Niagara Falls. I like to just sit on the benches on the Canadian side and watch the water fall so far down and listen to the noise it makes. I have lived far enough away from the falls that I only get there on occasion, but close enough that I have passed through probably about 5 times. When I lived in Michigan, the

quickest route to the east coast was to Canada over the Ambassador Bridge in Detroit and back to the U.S. at Niagara Falls. Twice more I have gone just to see the falls.

The Souvenir of Niagara Falls encased series began in 1901. The 1901 clover encased, the -SV-10 matches the most common Souvenir of the 1901 Buffalo Pan American Exposition piece, the NY-BUF-PX-10 to -19. The clover Niagara Falls pieces were made by the same manufacturer as the clover Pan American pieces and were probably sold to exposition visitors.

There have been many Niagara Falls souvenir encased since. They were certainly made in the United States as they all match designs that are known to have many U.S. examples and all I have ever seen or heard of have American coins in them, with two exceptions. First, SA#6, lot 437 was described as a 1951 Canadian cent in a horseshoe encasement, with inscription, "Souvenir of Niagara Falls, Canada." I believe this type sold on eBay in 2003, with a replaced 1928 U.S. cent in it. I have since acquired the piece with an original 1951 Canadian cent in it. Then, in 2007, a 1950 Canadian cent came on for sale on eBay with what looks like the same dies as the 1951 piece. In addition, I have acquired a 1953 Canadian cent with the same dies, and another came on for sale on eBay by BS in January 2017, selling for $38.01. Second, there was a rubber tire with "Niagara Falls" on one side (the other side had no writing), with a 1914 Canadian large cent in it for sale on eBay in May 2001. Also, I know of two more Canadian pieces with U.S. cents in them -- one a round piece with KMANGB reverse, which has Niagara Falls// Canada on the obverse. That comes with 1916 or 1917 U.S. cent. Finally, there is a 1917 U.S. cent in a chamberpot piece with handle left, whose description is: [star each side] Niagara Falls// Canada\\ I am Your Mascot// KMANGB. Those four pieces are not cataloged below with the rest of the series as they would belong in a Canadian encased catalog, not the New York catalog.

In coming up with the catalog numbers for the Niagara Falls encased, I have tried to keep similar pieces within the same series of ten numbers. Therefore, the three different clover pieces have numbers -10, -12 and -14 and the next series, the vulcanite piece, is -20.

[ ] NY-NIA-SV-10. 1901, RD,38mm, four leaf clover design in the style of NY-BUF-PX-10 through -19. The obverse of the cent faces the obverse of the 4 leaf clover side, as on the PX-10. Good Luck Souvenir/ Niagara Falls/ N.Y.// KMANGB \\ LPPP, I'm it. The reverse has dual interlocking horseshoes, as on the reverse of the PX-10. In fact, this reverse is from the same die as the A2 reverse of the Pan American Expo clover piece, with the "Pat. Appld. for" language -- the piece matches exactly, and my piece even has the extra line coming out of the top right of the "K" that is seen on some of the A2 pieces. Indeed, BP lists it as a Buffalo exposition piece in his 2006 catalog, type 13, noting that it came in an envelope with printing, "Souvenir of Pan-AmericanVisit to theCataract at Niagara Falls-Price 10 cts." JL $30

[ ] NY-NIA-SV-12. 1902 or 1903, RD,38mm. Same obverse die as on the -10, but a different reverse die was used in this piece. As on the Pan American Exposition pieces, the reverse die has gone from "Pat. Appld. for" on the -10 to "Pat. Apr. 23, 1901" on this piece. This piece has the B4 rev. die described in the listing of the Pan Am pieces. JL; EB $30

[ ] NY-NIA-SV-14. 1901, RD,38mm. Same obverse as on the -10 and -12, but a different style reverse -- LPPP/ IBGL, the same type reverse as on the NY-BUF-PX-40. Although this is the same type reverse as on the PX-40, it is a different reverse die; on the -40, "G" in Good does not have much of the horizontal line that distinguishes a "G" from a "C"; on this piece that line is quite prominent. It is interesting that these clover Souvenir of Niagara Falls pieces and the I am Your Mascot Souvenir of the Pan American Exposition pieces both come with the two types of reverses. EB $30

[ ] NY-NIA-SV-16. 1905, RD,38mm. Still another obverse the same as the -10 to -14 above, but a different die of the LPPP/ IBGL reverse. The letters of I Bring appear not to line up exactly the same over Good Luck as they do on the -14 (although they are very close). More telling is that the notches in the horseshoe are varies. Here the last notch to the right is well below the final "E" in Piece, while on the -14, it is under the right side of that second "E." On both the -14 and -16 pieces that I saw pictured on eBay, there was quite a bit of aluminum metal build up around the cent obverse, so that the encasement markings of the clover could not and did not strike into the cent. That is not true of my -10 and -12 pieces, where the clover markings did strike into the cent. EB $30

[ ] (NY)-(NIA)-SV-20. 1901, RD,38mm, vulcanite. This piece is very similar to the NY-BUF-PX-80 series. It has a picture of both the American and the Canadian falls, looking south along the river back towards the falls on a paper insert on the back of the piece. The cent shows through only on the front, which has: I Am Never Broke// Lucky Souvenir/ Patent Applied for. The color of my piece is a light yellow or beige, which shows only around the edge; RH described his as blue, the eBay piece was described as green. JL, EB, RH#10, 1028 $110, the RH piece sold for $125, but was nicer than EF.

[ ] (NY)-NIA-SV-30. 1901, B. Souvenir of Niagara Falls. I have not seen this piece to know whether it matches any of the dies on the -32 or -34 pieces. However, Steve did not say it started with "A" as the other pieces do. SA#46,1795 $40

[ ] (NY)-NIA-SV-32. 1905, B, holed at top. [two tear shaped dashes on each side] A/ Souvenir/ [squiggley line both sides] of// [lace design each side]/ Niagara Falls\\ KMANGB/ IBGL. The use of the word "A" before "Souvenir" is very unusual for a bell souvenir (indeed for any souvenir). This bell reverse matches the reverse on the 1904 World's Fair -- St. Louis bell piece which is pictured in Bob Hendershott's book, "1904 St. Louis World's Fair Mementos and Memorabilia," 1994, and cataloged as Hendershott No. 14-10. JR, EB, SA#57,1347 $35

[ ] (NY)-NIA-SV-34. 1905, 1906, 1907 or 1909 Indian, B, holed at top. Same obverse as on the -32 and same words on the reverse. Although the reverse is very close to the -32, with a similar lace design, it is slightly different. The easiest way to see the difference is in the lace design at the bottom above the IBGL. On this piece, the design on each side is connected by a squiggly line that connects the lace designs on each side. On the -32, the design ends between the "G" and "O" of Good on the left side and over the second "O" on the right side, so that there is a clear separation. The reverse on this -34 piece is the same reverse as the Souvenir of Washington, D.C. Series, type 1, which I described in issue 16 of the Casement. Souvenir of DC bells with type 1 that I have seen have 1906 and 1909 Indian cents. EB; JL; EB; EB (this piece was well worn but looked to have the same dies as the others in this series) $35

[ ] (NY)-NIA-SV-36. 1907, B, holed at top. A/ Souvenir/ of// Niagara Falls\\ KMANGB/ IBGL. Instead of the lace design as on the 30-34 pieces, this piece has a line type design on the obverse, like rays coming out of the sun. It has a horizontal design with curves on the reverse, unlike any other reverse bell die I have seen. JL, AS, CD#36 $50

[ ] (NY)-NIA-SV-38A. 1913, B. Souvenir of Niagara Falls. I do not know which dies of the previous bells, if any, this piece matches. EK $25

[ ] (NY)-NIA-SV-38B. 1917 or 1919, B, holed at top. Appears to be the same obverse as on the -32 and -34, yet certainly a different reverse in that here the line at the top is divided: Keep Me/ [curved line going diagonally a bit up] and Never Go/ [on the right side of the cent only] Broke. I have never seen a bell reverse look like that. The usual breakout of the lines is that of the -32 and -34 pieces: KMA/ NGB. On this piece, the lattice design ends over the "G" of Bring at the bottom left and over the far right side of the "D" in Good at the bottom right. DM's discovery piece has a 1917 cent in it, with no light showing, but it does wiggle with maximum pressure, the cent is rotated 90 degrees and the cent obv. faces the encasement obv., both of which are highly unusual for an early encased piece and it is not exactly flat against the encasement. My original guess was that this was a replaced cent, but then a 1919 version of these dies came on for sale on eBay in October 2008 and another in June 2010, which led me to believe that this piece with the strange bell reverse is likely from the late 1910s. JL (generous gift from DM who bought it on eBay); EB $30 (with original cent)

[ ] (NY)-NIA-SV-40. 1902, H. Niagara Falls/ [framed by lines above and below] Souvenir// Pocket Piece [also framed] [flowery designs in the corners, to the left and right of the cent, and before and after the top line] \\ KMANGB/ IBGL. These horseshoe pieces were made for many years (through 1920) and all seem to have the same obverse die, but there are quite a few different reverses, with dates that are a bit strange, as if they would just pull out a die randomly each year. BP $30

[ ] (NY)-NIA-SV-42. 1904, H. Same words and probably the same obverse as the '40, although the -42 I have seen is very worn. Different reverse though, on this piece, the left top of the wishbone ends at the "D" of And and the right top ends over the first "E" of Never. On the -40, the right top extends well beyond the "D" and the left top extends to the "N." EB $30

[ ] (NY)-NIA-SV-44. 1905, 1906, 1907, 1909 Indian or 1913, H. Looks like the same obv. die as the -40 and -42, but yet another different reverse. The easiest difference to tell is the "Good Luck" is in larger letters on the -40 and -42, taking up essentially all the space under the wishbone, so that the "D," for example is right up against the wishbone. On this piece, the letters are smaller and there is quite a bit of separation between the "D" and the wishbone, although the "D" is at the bottom of the encasement reverse. JL, JR, EB, CK 1997 NTCA 1059; EB; EB; EB; EB; JL, EB (cent obv. faces enc. obv. only on this dat only) $25 ($18 for the Lincoln cent)

[ ] (NY)-NIA-SV-45. 1912D or 1913 (not certain this is the date), H. Again, the same obverse die, but a different reverse. Here, the I Bring is very large, filling up almost all the space above the wishbone, and the bottom of the wishbone is also very large and thick. The "I" points down to the "G" in Good. The cent obverse faces the encasement obverse on this piece and all later pieces of this Pocket Piece series; it is the normal reverse to obverse on the Indian cents

described above. The second piece was very worn, the eBay seller thought it was a 1918, but I think 1913 more likely. EB (NP sold a H 1912D Niagara Falls souvenir in 2004); EB $20

[ ] (NY)-NIA-SV-46. 1911 or 1916, H. The same obverse dies as on all these pieces, but yet another reverse die. Here the "I Bring" is smaller than on the -45 and the "I" points down to the "D" in Good. Same large wishbone and large clover as on the -45. EB; EB $20

[ ] (NY)-NIA-SV-47. 1918, H. This 1918 is the same obverse die as the previous -40 series pieces, but a different reverse die. The letters of KMANGB are much smaller on this die and start lower. IBGL is all on one line on this die, under the wishbone; the "IB" is above the wishbone and the "GL" below on the other pieces. The cent obverse faces the encasement obverse. JL $20

[ ] (NY)-NIA-SV-48. 1920, H. Same obverse die as the -40 series, but yet again another different reverse die. Here, the "IB" of "IBGL" is back above the wishbone again like the -44A and B and unlike the -46. However, on this piece the "Good Luck" is in much larger letters than it is on the -44; so much larger in fact that the "K" in luck extends well past the end of the word "Broke" coming the other way, pointing to the right side of the "K" in Broke. On the -40 to -44 reverses, the "K" does not even come close to reaching the last "E." (On the -46, the "K" goes well into the word Broke, reaching the "O" because the IBGL is all on one line). The cent obverse also faces the encasement obverse on this piece. JL, EB, JR, SA#5,401 $20

[ ] (NY)-NIA-SV-50. 1901, 1904, 1905, 1906, 1907 or 1908, RD,35mm. A Souvenir of/ Niagara Falls// Pocket Peice [sic] [ornate design to left and right of cent with "Pocket Peice" framed by two lines]\\ KMANGB. All six dates are from the same dies; I do not know if the 1908 sold by Bob was the "Pocket Peice" and it might have been the -56 discovered in 2007. I was looking at the jagged cut of the aluminum where the encasement meets the cent on the 1904 eBay piece, and it reminded me of the typical jagged cut you see on some of the St. Louis World's fair pieces. This reverse die is the same as the reverse die on the piece cataloged as H-14-90 by Bob Hendershott. EB (ex TC); JL, EB; JR, EB; EB; EB; EB, BS#35,980 $25

[ ] (NY)-NIA-SV-52. 1909 Indian or 1911, RD,35mm. Same obverse die as the -50 but a different reverse die. This reverse die has a design with a long stem and a series of three round balls as "flowers," the -50 has a half circle design around the edges. The same two reverses make up the round Raff pieces, with the half circles on the 1906-1909 Indian pieces and the stems on the 1909 V.D.B. Lincoln piece. See, (NY)-NYC-RA-20 and -22. EB, AA#20,m-108; JL, EB $20 for the Indian, $15 for the Lincoln

[ ] (NY)-NIA-SV-54. 1912D, RD,35mm. Again, the same obverse die as the -50 and -52 pieces, but yet another, this time completely different, reverse die. This reverse does not have the usual horseshoe around the cent and clover at bottom, in fact it has no designs at all. The reverse words are: I Am Your Mascot// KMANGB. The obverse of the cent faces the obverse of the encasement, unlike the usual arrangement and unlike the -50 and -52 pieces. The horseshoe series continues in 1916 but with Piece spelled correctly. See, the -80 series below. JL (very corroded rev.), EB $20

[ ] (NY)-NIA-SV-56. 1913, RD,35mm. I didn't see another until November 2016, and I bought that one. BP had this piece with a replaced 1920 Canadian cent in it and sent it to me to look at. It was the same as this piece. He also noted that the reverse on the 1907 maverick piece for Dr. Swett's root beer matches this pieces reverse. While this 32mm piece is the same size as the late 20s -110 and -112 pieces, it has a different obverse, with "Souvenir of" in smaller letters, and a different reverse, with three clovers at the bottom. This piece sold on eBay at the end of 2006 for $738. The price of the most common teddy bear, the Kolb Bakery piece from Philadelphia went from around $400+ to about $100 when a large hoard of them owned by the family surfaced around 2010 and was put out on eBay over a long period. A piece with a replaced 1887 Indian cent in it came on for sale on eBay in January 2009. In 2015 another 1907 came on for sale. Then in January 2016, yet another was sold, with some problems, I bought it for $196 but it was lost between my mailbox and home. MM, MK, KK308, EB (with replaced 1943 cent, then with replaced 1887 cent), a very rare and valuable piece, my price is at best a guess $600

[ ] (NY)-NIA-SV-70. 1905, 1906, 1907, 1908, 1909 Indian, 1911, 1912D, 1913, 1915D, 1916, 1917, 1918 or 1919, CP-L. Souvenir/ Niagara Falls/ Good Luck// [squiggley design on both sides of the cents between the two lines]/ [to the bottom left of the cent] I Have/ Been to [to the bottom right of the cent] and Got/ Cleaned/ [at the bottom] Niagara Falls\\ GWBASD/ APFOM// KMANBCS. DG first brought to my attention that there were two different types of Indian cent Niagara Falls souvenir chamberpots. I finally saw what DG was talking about and why all these different date pieces are different from the 1907 – they each have a bit of design both to the left and right of the cent on the obverse that the 1907 (-72) lacks. In addition, the second "A" in Niagara points up to the "O" in Souvenir on the -72; but points to the "S" on these pieces. The pieces have different reverses too; here, the "B" of Back is over the right side of the "D" in Down; on the -72, it is over the left side. This reverse has a lattice design which the -72 lacks. The four pieces of the Lincoln cent series that I have seen both sides of have the same dies as the Indian cent pieces. EB, JR; EB (SH); JL, EB, DG#101,14; EB; EB; EB; EB, CK, fixed price list XT, item 5797; EB; EB; SA#7,1446; CD,#37, SA#54,1630; WB, EB; SA#41,2098. $50 (a bit less for some of the Lincoln cents)

[ ] (NY)-(NIA)-SV-72. 1907, CP-L. Same words as on the -70, but two different dies, as noted above and first pointed out by DG. Examples of this piece came on for sale on eBay in April 2003, August 2004 and April and July 2006, without any hole. The reverse has a loop at the end of the design which shows where the hole is to go, but no one punched the hole out on

that piece. A -72 came on for sale on eBay in January 2005 with a replaced 1956D cent. Then one with a hole and a 1901 cent came on for sale buy it now $80.00 in the summer of 2009, with no takers. JL, BP, EB, RH(9/4/84),898 (sold for under $10 in 1984, but the piece was described as having corrosion), DG#101,14 $50

[ ] (NY)-NIA-SV-74. Unknown date, CP-L. Same obverse die as the -70, but a completely different reverse: I Am Your/ Mascot// KMANGB. The eBay discovery piece from March 2005 had a replaced 1884 cent in it. My guess is that this piece came after the others in the series, as the "I Am Your Mascot" reverse appears to have been a later die. For example, a generic chamberpot with an "I Am Your Mascot" reverse came on for sale on eBay in April 2005 with 1909 Indian cent. EB $50 (with original cent)

[ ] (NY)-NIA-SV-80. 1908, barrel shape, 40x34mm. Souvenir / of [curved design around these words] // Niagara Falls/ [4 lines under these words, with the top line curved and the bottom line straight] \\ A Barrel Full of Money// IBGL. See (NY)-NYC-GR-10 for a barrel for Harry Greenberg, Pure Grape Juice, Oriental Lunch Room. I had this as a $700 piece through 2014, but I think the depression of 2008 reduced pries on big ticket items and the loss of value in the teddy bears (see (NY)-NIA-SV-60) due to the hoard surfacing around 2010. MM, TACT 11/97, p.31,203, sold by PK (sold for $275) another rare and valuable piece, my price is again only a guess, it really depends on how badly the buyer wants one. $700

[ ] (NY)-NIA-SV-90. 1915D or 1916, RD,35mm. [Intricate design on each side] A Souvenir of/ Niagara Falls// [inside a scroll like design] Pocket Piece\\ [outside the horseshoe] KMANGB. This is the only round Niagara Falls souvenir piece that spells "piece" correctly. Compare to the -50 series, where the word is spelled "peice." The cent obverse faces the encasement obverse on this piece. EB $15

[ ] (NY)-NIA-SV-92. 1918, RD,35mm. Same obverse as on the -90, but a different rev.: KMAAHM. The cent obverse faces the encasement obverse on this piece as well. JL, EB $15

[ ] (NY)-NIA-SV-94. 1919, RD,35mm. Same obverse as on the -90 and -92, but here the reverse is KMANGB, with the writing outside the horseshoe (and so different than the -90 where the KMANGB is in the horseshoe). The eBay seller said this was the same size as a silver dollar, which is actually 37mm, but it as the obv. die matches the -90, it must be 35mm. The cent reverse faces the encasement obverse, different than both the -90 and -92. EB $15

[ ] (NY)-NIA-SV-100. 1927, H. [7 rays coming out on each side] Just/ A/ Souvenir/ [a star with rays coming out on both sides] from// Niagara Falls/ [a star with rays coming out in each corner]\\ KMANGB/ IBGL. JL, JR $15

[ ] (NY)-NIA-SV-102. 1929, H. Souvenir/ [branch design each side] of// Niagara Falls/ [branch design]\\ KMANGB/ IBGL. Reverse style with fairly small lettering in KMANGB and with the clover with a dot at the top middle – the style of many of the stock pieces from the 1920s and 1930s. This was an unknown style when it came on for sale on eBay in June 2007. EB $15

[ ] (NY)-NIA-SV-110. 1928, RD,32mm. Souvenir of Niagara Falls// [6 small stars with a bigger star in between]\\ IBGL. Unusual reverse, there is no writing around the edge, the words

are inside the horseshoe. There are Souvenir of Canada pieces from 1929 of this style, with three different reverses; a Souvenir of Philadelphia piece with this reverse and the Souvenir of New York City pieces, (NY)-NYC-SV-30 and -32 (although neither has this reverse). JL $15

[ ] (NY)-NIA-SV-112. 1929 or 1930, RD,32mm. The obverse is the same as above, but the reverse is different. This has the KMANGB around the outside with the IBGL under it. It has the same reverse die as one of the three types of Souvenir of Canada pieces, and as the (NY)-NYC-SV-32 and NY-WGL-SV-10 pieces. JL, EB; JL, BS#37,71 (which Bob described as Good Luck Souvenir, Niagara Falls, I think this piece) $15

[ ] (NY)-NIA-SV-120. 1939, H. Souvenir/ [garland spray on each side] of// Niagara Falls/ [stem like design on each side]\\ KMANGB/ IBGL. This has the wide spread clover with the large dot on the top and the slightly right curving stem that is common on both the good for and generic encased from the 20s and 30s, usually earlier than 1939 though. JL $15

[ ] (NY)-NIA-SV-130. 1946, H. Souvenir of// Niagara Falls\\ KMANGB/ IBGL. "Souvenir of" is just above the cent, so that there is plenty of room for a hole above the words, but none was punched on my piece. However, two eBay pieces came with a hole but four others without. This is an unusual piece for a souvenir in that there is no design on the obverse at all, just words. The horseshoe pieces from the 40s, 50s and 60s all have the same words but different designs. Because the mail bid auctioneers do not describe the designs, I do not know which varieties match the pieces I have seen or if there are some varieties that have been sold in the mail bid sales that I have not seen. JL, EB, BS#35,42 $5

[ ] NY-NIA-SV-140. 1947 or 1947D, H. Souvenir// [6 pointed star with an open circle on each side of cent]/ Niagara Falls, N.Y./ [small triangle with a dot in the center in each corner]\\ KMANGB/ IBGL. This is the first Niagara Falls souvenir piece I know of since the 1901 clover piece where N.Y. is actually on the piece. EB, JR; JL, AA#19,m-4; SA#42,880 (two pieces with 1947 and 1947D cents) $5

[ ] NY-NIA-SV-142. 1948, 1949, 1949D, 1949S or 1950, H. Souvenir// [star on each side of cent]/ Niagara Falls, N.Y./ [small triangle with a dot in the center in each corner]\\ KMANGB/ IBGL. This looks like the same obverse die as the -140, but it has a different reverse. This reverse has a fairly large "I Bring" with a large and oval bottom to the wishbone. On the -140, the I Bring is very small and just fits between the wishbone and the cent and the bottom of the wishbone is long and narrow. I do not know whether the 1950 BS piece matches the three 1949 dies, as I have not seen it. OR(163) was to be for "Souvenir of Niagara Falls, N.Y.," but the "of" is crossed off and the order specifically says to use 1949 cents. EB; EB, OR(163), BS#35,981; JL; EB; BS#46,760 $5

[ ] NY-NIA-SV-144. 1951D or 1953D, H, holed at top. Looks like the same obverse as the -140 and -142, but has yet another different reverse. The wishbone has the same shape as on the -142 reverse, but the letters are positioned differently: on this piece, the I of I Bring is over the first O in Good and the B is to the right of the D; on the -142 piece, I is over the G and the B is over the D. EB; EB $5

[ ] (NY)-NIA-SV-150. 1947D, H. [Two grain stalks] / Souvenir of/ [six pointed star with circle in the center on each side of the cent]// Niagara Falls/ [triangle in each corner but no dot in either triangle unlike the -140 series where the triangles have dots in them] [beaded around cent]\\ KMANGB/ IBGL [rope around cent]. This piece has a very unusual style reverse in that the letters KMANGB are very small, and the "Good Luck" is extremely large. This series, with the wheat stalks at the top, continued for twenty years through 1967. All the obverse dies appear identical, it is the reverse dies that are numerous and varied. There is room for a hole between the grain stalks at the top and some pieces are holed and some not, as discussed below. JL, EB (this piece was holed for example, mine is not) $5

[ ] (NY)-NIA-SV-152. 1948D, H. Same obverse as on the -150, but a different reverse. The size of the letters in KMANGB and IBGL is normal. This piece has an oval at the bottom of the wishbone; the -150 has a long line. Also this piece has no rope around the cent on the reverse; instead there is a line of dots at the bottom, connecting the bottom sides of the horseshoe. JL $5

[ ] (NY)-NIA-SV-154. 1952D, H. Same obverse die as all the pieces in the -150 series, but another reverse. This is the first of what I would call the more standard reverses, the letters of KMANGB are normal sized and there is no line of dots across the bottom. This reverse is very similar to the reverse on the -158, but here the "L" of Luck points up to the left side of the "N" in Bring, while on the -158, it points to the middle of the "N." JL, EB $5

[ ] (NY)-NIA-SV-156. 1955D, H, holed at top. Same obverse die as the other wheat stalk pieces in the -150 series with the room between the wheat stalks used for the hole. The second of the more standard reverses, here the "L" of Luck points up to the "I" in Bring, as it does on the -152 (but this piece has no line of dots). JL $5

[ ] (NY)-NIA-SV-158. 1957D, H. It is again the reverse die that is different on this piece. Of several differences from the -152, there is no line of dots on the bottom of this piece and the "G" in Bring on this piece is over the right side of the U in Luck below it. The "L" in Luck points to the middle of the "N" in Bring below. JL, SA#44,1170 $5

[ ] (NY)-NIA-SV-160. 1961D, 1963D, 1964 or 1964D, H. This piece has the same obverse die as the previous -150 series pieces, but yet a sixth reverse die. The G of Bring is above the left side of the C as on the -152, 1948D piece, but the lettering of KMANGB on this piece has no serifs, while it does on the 1948D reverse. This piece has a skinnier oval at the bottom of the wishbone than the -154 and -158 have. "L" points to left side on "N," as on the -154. EB; JL; JL, EB; EB, NP $5

[ ] (NY)-NIA-SV-162. 1967, H, holed at top. Again, the same obverse die as on the five previous -150 pieces, but yet a sixth reverse die. This obverse die either lasted for twenty years, or perhaps there was a master hub. The easiest difference to notice is that the I is above the left side of the second O in Good on this piece; it is over the first O on the -152 to -156 reverses. This reverse has a round ball below the wishbone, with the bottom of the wishbone extending across the circle. JL $5

Another word about holes. Each of the above pieces that I have in the -150 series except the -150 itself has a hole in it. It looks like the pieces were made for a hole at the top, because a well placed hole can fit between the two grain stalks as the -158 piece shows. However, the hole actually made on my -152, -154 and -156 pieces in each case is slightly off center so that some of one of the grain stalks is affected or is higher or lower than a hole should be. As I mentioned before, it is impossible to tell whether the hole was actually made in the manufacturing process or later.

[ ] NY-NIA-SV-170. 1946, H, holed at bottom. Souvenir/ Niagara Falls, N.Y. [there is no writing below the cent]\\ KMANGB/ IBGL. EB $8

[ ] NY-NIA-SV-172. 1947, H, holed at bottom. Same words as on the -170, but a different die. On this piece, the last "A" of Niagara points up between the "S" and "O" of Souvenir. On the -160, it points straight to the "S." It looks to me like the same reverse dies. JL $8

[ ] NY-NIA-SV-174. 1947, H, holed at bottom. Although same date as the -172, just a slightly different die. Here, the last "A" of Niagara points unto the right side of the "O." Looks like the same reverse on all three pieces.

The "N" in and on the obverse is exaggerated, so that the the right side extends much higher than usual while the left side descends much lower. [ ] NY-(NOH)-FR-10. 1961 or 1961D, H, holed at bottom. Souvenir of/ Frontier Town, N.Y.// [hole]\\ KMANGB/ IBGL. Frontier Town was an amusement park just outside of North Hudson. It was still shown as an attraction in the 2000 Rand McNally Road Atlas. When I could not get through to any of the numbers in North Hudson listed on the Internet, I called the Public Library in Schroon Lake, ten miles away. I learned that the deserted park is still there, but has been closed since 1998. This is different than the later pieces in that the hole is at the bottom and not between the words "Souvenir" and "of" at the top. EB; EB $10

Tonawanda Centennial/ [to left of cent and right under the “N”] 1865 [to right of cent] 1965// Mid-City Plaza/ [hole]\\ KMAYWHGL. The die on this piece was not very well cut. The dates do not line up at all -- if you go across from the “1865” in a straight line, you come to the “I” in Centennial and not to the 1965. I called the office of the city clerk of North Tonawanda, who verified that North Tonawanda was founded in 1865 and that Mid City Plaza still exists in North Tonawanda. It is a shopping center on Payne Avenue. Circulated cents must have been used in 1965, based on the reports of the 1954D and 1961D cents. EB; AM(876); JL; JL, RG, EB $10

[ ] (NY)-(NOT)-SM-10. 1965, RD,35mm. Henry P. Smith// Member of Congress\\ KMAYWHGL. There was only one Henry P. Smith who was a member of Congress so that absolutely identifies this piece. Henry Smith was born in North Tonawanda in 1911. He attended the public schools and the private Nichols School of Buffalo. He went to law school and practiced law in Ithaca from 1936 to 1941 and then in North Tonawanda until 1961, when he was elected mayor of North Tonawanda. He became a Niagara County judge in 1963. He was elected as a Republican to Congress in 1964 and served from 1965 to 1975, when he voluntarily retired. He died in 1995. Norm Peters told me that he had an office on Oliver Street, which is a north south street not far from the lake.

One interesting personal point on the Nichols School. When I was in my last year of high school at Eastern Michigan University's laboratory school in 1969, our tennis team, coached by the school principal, took a trip to Niagara Falls to play two Canadian and one American team. The American team we played was the Nichols School in Buffalo, which had a tremendous tennis team; they were then New York state champs. JL $4

[ ] (NY)-(NOT)-SM-12. 1968D, RD,35mm. Looks the same as the -10, but it is not the same obverse die. The hardest dies to identify are those where there are no overlapping letters, as here. On the -10, it is just over 5 millimeters from the top left of the "M" to the bottom left of the "H." On this piece, it is 6mm. It appears to me as if all the Smith Congressional pieces have the same rev. JL $4

[ ] (NY)-(NOT)-SM-14. 1970D, RD,35mm. Again, the same words as the -10 and -12 and looks very similar, but it is not identical. On this piece, there are only 4 1/2 millimeters between the top left of the "M" to the bottom left of the "H." JL, AM(812) $4

[ ] (NY)-(NOT)-SM-16. 1972D, RD,35mm. Same words as on the first three pieces, and just a slightly different die than the -14. By looking, it appears that the middle initial 'P" is closer to the "Y" in Henry on this piece than it is on the -14, and measuring confirms that – 3mm on this piece and 4mm on the -14. In addition, there are only 4mm from bottom of "H" to top of "M" here, in contrast to the 4 ½ mm on the -14. In keeping with the laxness in putting cents into encasements in the 70s, the cent on my piece is rotated 90 degrees. JL, NP $4

Northville (at the north end of the Great Sacandaga Lake, 40 miles NW of Albany)

[ ] (NY)-(NVE)-MO-10. 1948S, H. Mosher Bros., 50th Anniversary. BP found Mosher Bros., coded for dry goods and as a general store, in the 1955 national Dun and Bradstreet. Our job as verifiers may be about to become easier due to directories posted on the Internet. A search for "Mosher Bros." on the Internet found two old directories that have been copied to the Internet. The 1917 Northville phone book lists Mosher Bros as "grocers" at First & Bridge. The 1939 Farm Directory of Fulton and Montgomery Counties lists Mosher Bros. still in Northville, "Celebrating 40 Years of Service." That would put the start date for Mosher Bros. in 1899, and a

very likely year for distribution of an encased piece with cent of 1948S would indeed be 1949. This verifies the piece to Northville. AM(588) $10

Oneonta (on I-88 between Binghamton and Albany, 70 miles W and a bit S of Albany)

[ ] (NY)-(OTA)-BR-10. 1974D, H, holed at top. Bresee's 75th [hole] Anniversary// 1899 [large diamond] 1974\\ KMANGB/IBGL. BP found a reference on the Internet to a Bresee furniture store that was founded in Oneonta in 1899 and remained in business there until 1994. BP then reported that he was watching a 60 Minutes segment about illegal immigration in New York, and they showed a section of downtown Oneonta, and there was the Bresee's store, large as life. Other references show it as a department store, founded in 1899. I believe the chances that another Bresee founded something in 1899 which lasted until at least 1974 is so remote, that I am willing to call this piece absolutely verified. An eBay seller from Oneonta sold three examples of this piece in December 2006 as part of a large lot including many mini license plates and said it was from Oneonta, New York. JL, AM(624), EB $5

[ ] (NY)-OTA-ST-10. 1972D, H. Style-Rite Furniture of Oneonta/ 432-2040\\ KMANGB/ IBGL. Oneonta, New York is the largest of four Oneontas in the country. I called the Huntington Memorial Library in Oneonta, whose phone number, by the way, also starts with 432-, and the kind librarian, Mary Harris, checked the 1960s and 1970s Oneonta directories. Style-Rite appeared under Furniture Dealers -Retail in the 1970-1978 directories, at 250 Main Street. It did not appear in either the 1969 or 1979 directories. Two examples of this piece were part of the mini license plate lot sold on eBay in December 2006. AM(869), EB $6

Orchard Park (SE suburb of Buffalo)

[ ] (NY)-(ORC)-MU-10. 1973D, H, holed at bottom. Elect/ Marie R. Mutka/ Receiver of Taxes// Your Vote Appreciated/ [hole]\\ KMAHGL/ IBGL. When I bought this piece on eBay in August 2006, it was an unattributed maverick. A google search showed that "Receiver of Taxes" was a New York state office. A search for Marie Mutka on the Social Security database showed Marie R. Mutka in Erie county New York (Buffalo) in the 1930s. Further searches showed Marie R. Mutka retired to Florida, and finally Yahoo people search pinpointed it to Clearwater. So I called, and Ms. Mutka answered and graciously told me about her running as a Democrat (and not winning) the election for Orchard Park receiver of taxes in the 1970s. She still has one of the "horseshoe" pieces herself, and she remembers ordering it from advertising specialists, the same folk who make the advertising pencils. I suggested it might have been A.C. Gibson (see NY-BUF-AC-10), but she did not remember the name. JL $8

On the reverse, each letter of Lucky is over its corresponding letter in Penny on the -12, but on this piece, the "C" is over the right side of the first "N," so that there is more space than normal between the two "N"s on this piece. [ ] (NY)-(ROC)-MO-10. 1949D, H, holed at bottom. Monroe Auto Sales/ 260 South Ave.// Studebaker/ BA [hole] 7470\\ KMANGB/ IBGL. My piece is rather worn and although there is no period after the phone exchange (there clearly is on the -12), it might just have been weakly struck and worn off. This was listed in an article called "Rochester Potpourri" by former TAMS president Ed Quagliana in TAMS Vol. 15, No. 6. 260 South Ave. is on the East side of the Genesee River, now just N of where I-490 starts a loop. Monroe Auto Sales & Service is listed in the 1941 Rochester phone directory as a downtown Studebaker dealer at 6 Howell, with phone number Stone 640. According to the phone exchange website, BAker was a Rochester exchange, converting to 7 digits in 1956. JL, TAMS Article $14

One of four eBay sellers listed a 1923 cent, but I do not believe that is correct. The lower obverse corners on my piece did not completely strike up, and from two pictures I have of pieces for sale on eBay, I believe that is the way this piece comes. There is a build up in the same spot on the reverse, which is what probably causes less metal to flow to the obverse side. This is a very common piece for an earlier encased type. I know of only a few, less than 10, pieces with magnifiers in them, for example, this one and four round pieces: NY-SYR-NA-12 for Nann, Kress & Nann which the 1914 D & B lists in the saloon business; Berchtold & Fritz, Sioux Falls, S.D.; Baltimore Dairy Luncheon, Inc., 706 2nd Ave. New York Block, likely from Seattle; and a maverick piece for Perkasie Pool Room, which HW said was from Pennsylvania. Sam B. Palmer is listed in the saloon business in the 1914 D & B. I believe that Buffet meant tavern and not get your own food. Three of the known magnifying glass pieces are for taverns and probably were made in the early 1900s. JL, JR $50

[ ] NY-ROC-PU-10. Various dates because cent is not struck into the encasement, RD,42mm, cardboard. [star each side] Put-A-Penny Coin/ Put A-Penny Co. Rochester, N.Y./ Pat. U.S.A. 2027667 Pat. Canada 354336// Insert One Cent/ Return to Store for/ Valuable Redemption\\ [nothing on reverse]. U.S. patent no. 2,2027,667 was filed by Carl A. Brinkman of Euclid Ohio on March 3, 1934 and approved on January 14, 1936. The patent indicated that the invention related to "an improved holding device" that was to function to hold a coin and as a coupon. The patent explained that the holders were to be distributed to customers or potential customers with advertising and a statement that a given number of pieces with coins could be used to purchase commodities or in any other desired or like manner. I have, however, never seen one of these pieces that say what can be obtained on redemption. Each one that I have seen simply says, "insert one cent," and "return to store."

I have cataloged this generic piece to Rochester, the home of the maker of the piece. The Put-A-Penny Co. is listed at 5 St. Paul in the 1941 Rochester phone directory. There are other pieces with merchants on them, almost all drug stores, that are all mavericks, which pieces would be properly attributed to the locations of the merchants listed on them. I have seen Peoples Drug Stores Inc., Marshall's Drug Stores, Mykrantz Drug Stores, Muir Drug Stores, Katz Drug Co. and "Run Right to Reads" (whatever that means). Based on the very few types of pieces I have seen, I do not believe that Mr. Brinkman made much money off his invention. Each individual piece is relatively common and does not command a high price.

These pieces were manufactured without cents and as they were made to have cents put in and taken out, there is no value to one date in these pieces as opposed to another. JL, EB $3

[ ] (NY)-(ROC)-RO-40. 1937, RD,35mm. Rochester Business Institute\\ KMANGB. There is equal spacing between the 3 words so that one could read the piece three different ways, depending where you start. Based on the information about the "Rochester Business Institute," I think that is the right way to read the piece, even though the cent is correctly oriented if the piece is read "Institute Rochester Business" (reading from lower left as most encased pieces are read); or if one starts reading at the top of the cent. The Rochester Business Institute is an educational institution still in business in Rochester, New York in 2006. Its website indicates that it started in 1863. Rochester Business Institute, Inc. is listed in the 1941 Rochester telephone directory at 172 S. Clinton. Today's location is at 1630 Portland, about 3 ½ miles north of the 1941 location. In a prior draft I said that I was not sure what to make of the "Follows Schreiner's," on the piece and asked if Follows could be a first name? When a second piece came on for sale on eBay it struck me immediately: the Follows is a verb going with the Good Luck on the line above, not with the Schreiner's. A search for 696 South Ave., Rochester, brings up only Rochester NY. 696 South Ave. is on the south side of downtown Rochester. JL, EB $70

[ ] NY-ROC-SI-10. 1958 or 1958D, RD,32mm. Kali-Sten-Iks/ Children's Shoes// Sibleys/ Rochester, N.Y.\\ KMANGB. This sounds like a 1950s shoe series with Sibleys as the store and Kali-Sten-Iks as the brand of shoe. NP sold a 1958D piece for Sibley's Department Store, Rochester, New York. It is possible that that was this piece, so that I will not list the piece separately until I hear of another example. Sibley, Lindsay & Curr Co. was listed under department stores in the 1941 Rochester phone directory and in the 1954 and 1960 New York City business classified directory. [ ] NY-ROC-WM-10. Unknown date, probably 1901, maybe 1918, W. W M Powell Co./ Hall Racks/ Parlor and Library Tables/ Rochester N.Y.\\ GLKMAP. This is a very strange piece where the lettering is crude and fairly unorganized. There is nothing below the cent (there may be a W & H signature, but I cannot see it on the printout from the scan that I have). The Rochester line starts below the middle of the line above it. SH sold one on eBay with a replaced 1901 cent in March, 2017. RG sent me a scan of this piece with a 1918 cent in it. He says that Wm Powell does not appear in his 1916 Dun but is in the 1920 edition. It was still in business in 1941 -- listed in the Rochester phone directory described as "bronze iron & steel valves & eng aplncs exec ofc & city sales 2525 Sprng Grv." I do not believe, however, that any wishbones were made after 1901, and this piece still has the Pat. App. for language on it. RG (sold on EB in 2009) $40 (with original cent).

[ ] NY-SAN-RA-12. 1957D, H, holed at bottom. Souvenir of/ Rail City// Sandy Pond, N.Y./ [hole]\\ KMANGB/ IBGL. The lettering on this -12 and the -14 is very close. I note two differences. The "I" of Souvenir goes below the "N" next to it on this piece; while on the -14, it ends above the "N." On both pieces, the "I" points to the left of the "C" in City below; however, if you imagine the "I" continuing down, it goes just to the left of the top of the "C" on this piece and then gets further from the "C" as it continues down; while on the -14, it is essentially parallel to the "C," and a bit further away from it. On the piece, the "N" in Pond is a bit below the "O" next to it; on the -14, the "O" and "N" are even. The reverses are different too. On this piece, the top of each side of the wishbone has a notch going horizontally toward the middle. The notch on the -14 is just a continuation of the wishbone going up diagonally. JL $8

Note that this is the same address for the business with two "Nann"s in the -12. Both businesses are listed in the 1914 Dun & Bradstreet. My guess is that there were two taverns in Syracuse around the turn of the century, and that the extra Nann had an interest only in this one. There is no 131 E. There is no Nann & Kress listed in the

[ ] (NY)-(SYR)-NE-10. 1973D, H. New Process Gear// Family Day\\ KMAHGL/ IBGL. New Process Gear Corp. was a Delaware Corp. (incorporated there in 1933) that was qualified as a foreign corporation in quite a few states starting in the late '30s. It manufactures driveline systems. It was originally a division of Chrysler, but was sold to New Venture Gear, located in Troy, MI, who acquired it in May 2004. According to the NY DOS, its registered office in NY was 6600 Chrysler Dr., E. Syracuse. According to its website, New Value Gear changed the address to 6600 New Venture Gear Drive, East Syracuse, upon acquiring the division. It was listed as New Products Gear Division, see Chrysler, under Syracuse in the '60 D & B. It was listed at 500 Plum, zone 4 in the 1952 Polk greater Syracuse directory. In 1944 New Process Gear from Syracuse won the New York state bowling tournament. My guess is that sometime between 1960 and later, it moved from Syracuse to East Syracuse, although I am not sure when. There are references on the Internet that there were manufacturing facilities in Syracuse as late as 1996. Based on all the above information, I believe Syracuse to be the correct attribution, although East Syracuse might be correct. JL $5

An eBay seller sold a lot in 2002 including this piece with a 1957 cent in it. I am very suspicious about the 1957 piece -- the dies do match the 1962 piece and 1957 (rather than 1957D) is a fairly rare cent used in an encasement. Also the same seller was selling a Daniels Jewelers of Sacramento California piece with a 1956 cent, which is

extraordinarily rare (and Duane Feisel's second edition of the California catalog lists that piece with 1946 and 1947D cents, not even close to the 1956). On the other hand, there are not many replaced 1957 cents in encasements. SA#43,1407; RG, JR; JL, VN, BS#35,983, BS#36,256 $5

Secretary of State Records, the initial filing date for the Syracuse Letter Co., Inc. was in 1947. Sometimes, businesses operate as a d/b/a (doing business as) before they formally incorporate. The corporation is still active in 2001, with David Osborn, certainly a descendent of the founder, as CEO. BP found this in the 1955 Dun and Bradstreet, coded for commercial printing. Identified by JR to Syracuse and verified by BP from the 1955 Dun and Bradstreet, which listed Wilson's Leading Jewelers Inc. in Syracuse. It was also listed with the highest credit under Syracuse in my 1953 D & B, without indication of starting date, which means that it was in business in Syracuse from at least 1943, which puts it in Syracuse in 1946 when this piece came out. The New York Secretary of State's website lists Wilsons Leading Jewelers Inc. as an inactive New York corporation, formed in 1930, with last known address in Fayetteville, which is a suburb east of Syracuse. My guess is that sometime after 1955, the company moved to the suburbs. The company either had a branch in Rochester or moved from Rochester to Syracuse sometime between 1941 and 1943, as Wilson's Leading Jewelers is listed at 205 Main St. E. in the 1941 Rochester telephone directory. A 1050 piece came on for sale on eBay in '08, but that has to be suspect. JL, AM(408) $10

There is still a business in Upper Jay in 2000 called "Land of Make Believe" on Trumbulls Corners Road. I called and found out that the Land of Makebelieve was a theme park that closed around 1995 because floods were always causing major problems. The business that remains just does art, models and promotional posters and has moved off the land where the theme park was. All that is left on the site is a few vacant buildings. [ ] NY-UPP-LA-12. 1971D, H, holed at top. This piece has the same words as on the -10, from 18 years earlier, but a different obverse die. The size of the lettering of the city is much larger on this piece and is not symmetrical in the space between the top line. The "U" starts pretty close to the "L" in Land and there is more space between the last Y. and the end of Makebelieve. The city lettering is pretty small on the -10 and there is about 4mm space between each side of the two lines. My impression is that the reverse dies are different too, but I cannot tell for certain as my picture of this piece is a bit fuzzy and the dies are at least close. EB $10

The most likely explanation is that this piece was made first with the typo as "Layfayette" so that the advertiser had the second piece made, which comes with the same year cent but also the next year too. "In Trade" was changed to "Discount," probably without any real intent. Among other differences on the obverse, the initial "U" in Utica on the -12 is under the "O" in Broadway, while on the -10, it is between the "B" and the "R." It is more difficult to tell that the reverses are two different dies, but they are; on this piece, the lower left clover leaf is much larger than the leaf above it, extending well past the top left leaf, while on the -10, the lower left leaf is just a little bit longer than the top left leaf. Also, the left leg of the "K" in Keep points outside the "G" in Good on this piece, while it points to the middle of the "G" on the 1931 -10. From the Professor Palmer collection. I have another dime encased very similar to this one -- it is the same size and metal and has the same beading. The one I have has a 1937 Mercury dime in it and says: Silver Anniversary/ 1914 [dime] 1939// Virginia Mirror Co.\\ "The South's Largest Mirror Plant"// Martinsville, Va. There is no signature on the Virginia piece, but it must have been made by the same manufacturer around the same time. I would think there would be others, but I have never heard of any.

On my 1916S Rotary Club piece, there are six points where light shows through between the encasement and the dime. Certainly the 1915 Barber from the Professor Palmer collection and as sold by BS sounds more likely to be an original as that is the anniversary date. On the Virginia piece, there is one small light point showing. On each piece, the coin is very firmly in the encasement. If the Rotary Club piece is genuine, well circulated Barber dimes were used when the piece was made and the dimes are not quite big enough to fill all the space when struck into this piece, particularly because of the reeding. My best guess is that my 1916S piece is genuine but I am not 100% certain. EB, Collection of Professor Wayne Newman Palmer of Utica College, BS#62,81; JL $125 with original dime

[ ] (NY)-(WVL)-BO-10. 1952D, 1953D or 1954D, H, holed at bottom. Bohemian Tavern/ Stop 29 - Sch'dy - Troy Rd.// PH. State [hole] 5-8948\\ KMANGB/ IBGL. It took me some time and effort to locate this one. I thought at first that the piece might be claiming it was from Schenectady, on Troy Road, although it would be strange to have the city before the road. There is an Old Troy Road today in Schenectady. I called the historical society in Schenectady and found out that Stop 29 refers to an old trolley line that ran along the Schenectady Troy Road. That explained what the piece was saying -- the Bohemian Tavern was near trolley stop 29 on the Schenectady Troy Road, and no city is given at all. That left me to find out which city between Troy and Schenectady was home to the tavern. The Schenectady historical society told me the low stop numbers were in and near Schenectady and the high numbers closer to Troy (and Watervliet couldn't be closer). The location of the tavern was finally pinpointed when BP obtained the 1955 national Dun & Bradstreet directory. Bob found the Bohemian Tavern listed under Watervliet, as a restaurant/grill, with code nos. 58, 13, which means that it was an eating place that served alcoholic beverages. It was also listed there in my 1953 D & B, with start year of 1948. However, STate 5- is listed as an exchange in Colonie (to the SW of Watervliet) and Latham (the next city west of Watervliet on the Schenectady Troy road, towards Schenectady) in the database of the phone exchange website, and indeed today the 785 phone numbers are in Latham and Colonie not in Watervliet (which mostly has 272 and 273). Thus I am sure this location was either Latham or Watervliet. I am going with Watervliet because of the D & Bs, and the fact that the 1953 D & B does have a separate listing for Latham, so that putting the tavern in Watervliet in that volume has meaning. There were three Osborne orders for this location, the first two shipped to Schenectady, where the owner, Stanley Woodward, must have lived and the third to the ordering company in Chicago. The two subsequent orders said "as b/4" which may have meant to use the old die. However, I have not been able to compare any of the dies. Based on the above with stop 29 far from Schenectady, I do not think this location could be Schenectady. [ ] NY-WES-CA-10. 1957D, RD,32mm. Goodrich PF Canvas Shoes// Ross J. Canella/ Westfield, N.Y.\\ KMANGB. This is an amazing piece; I have never seen another like it! On both pieces I have seen, the reverse is like a mirror image of what the normal KMANGB reverse would look like – the letters are inside out and the slogan starts at the right bottom instead of the left bottom and goes counterclockwise instead of clockwise. There must be other pieces like this, as a die had to be made to make this piece, but I cannot recall ever seeing another, except in the Goodrich PF Canvas Shoe series. I checked all the other Goodrich PF Canvas Shoe pieces I knew of, because I thought that those would be likely candidates for the same reverse die, and indeed some but not all of the known pieces have the mirrored reverse: NY-LVA-HA-10 and NY-TON-JA-10 also have it while NY-MID-BU-10 does not; and I don't know whether the other known N.Y. Goodrich piece, the NY-HAN-GO-10 has it or not. I checked the generic maverick for Retailer's Store, Name and Address Here, and all my maverick rounds and New York rounds from 1956 to 1962, but none had a reverse like this. I had purchased one of these West Windsor Coin pieces from a New Yorker, and therefore suspected that the West Windsor on the piece might be the one from New York (there are also West Windsors in Maine and Michigan). So, I put a call in to a coin shop in Binghamton, Iroquois Numismatics. The numismatist there remembered the West Windsor Coin Club and thought that it was founded around the mid 60s. He put me in touch with the founder, Walt Riker, who still lived in West Windsor in 2001. I called Walt and he remembered making the two encased for the club's first two coin shows. The club was founded in 1963 and went out of business in the 1980s. JL $4

[ ] (NY)-(WHI)-CO-10. 1964, 1965, 1966 or 1967, RD,35mm. The County Trust Co.// Your Bank Close to Home\\ KMANGB. The County Trust Company was chartered as a New York state bank in 1903 and continued under that name until 1976 when it was merged into the State Bank of New York, now the Bank of New York. During that period, it acquired 19 banks, most of which must have been from Westchester County, so that it must have become quite a large institution. The 2001 eBay seller of this piece told me that the bank was from White Plains, from his personal knowledge. However, I also found an Internet site showing that this bank had a facility in Yonkers. Based on its acquisitions, I would guess it had facilities all over Westchester County by 1964. Indeed, in the 1960 NYC Business Classified Directory, County Trust Company is listed only at 122 No. Main St. Port Chester, which is the last city on Long Island Sound before Connecticut (but remember that directory is not all inclusive, and I could not find the bank listed in the 1954 version of that directory). On the other hand, another Internet site describing a Greenville Fire District, Westchester County bond, said that the principal of the

bond was due, at the option of the holder, at "County Trust Co. White Plains NY." In the 1953 Dun & Bradstreet, "County Tr Co" is listed under White Plains with a very large, especially for the time, capitalization of $13,765,000 and also under Yonkers, Ossining and Port Chester (in each case noted as a branch of White Plains). Therefore, I believe the attribution of this piece to White Plains is probably correct. The 1964, 1965 and 1966 are from the same dies; I have not seen the 1967. JL, EB; JL; JL, EB; AM(355) $5

I think this piece that I bought on eBay may have a replaced cent, even though it is in tight, because a bit of it is sticking out above the encasement and this is a very unusual late date for the Whitehead & Hoag GLKMAP 38mm design. Most of the GLKMAP pieces are dated 1901, but there are also 1904, 1905, 1917 and 1919 (see NY-ELM-PA-10), 1921, 1923 ((NY)-ELM-EL-12) and 1925-32 ((NY)-NYC-BE-30-34). This reverse seems to match the 1917-1925 N.Y. reverses indicated above. However, the phone number is 7 digits, so that would suggest a date no earlier than 1930. There was an Adam Durr active in Utica at the time of this piece. In the 1913 Utica directory, he is listed as Treasurer of the Theatrical Mechanical Association Lodge 67, and at 27-29 Lafayette St and 8 Louisa Street. In several 1905 issues of the International Brotherhood of Electrical Workers Union journal, he is shown as President of Local 42, 8 Louisa Street, Utica. He was still alive in 1942, as the obituary of Anna Margaret Durr of Brooklin that year listed Adam Durr, Utica, as her surviving brother. I can find no reference calling him "the Old Timer," so I would say this is not quite verified.

Central Valley National Bank (1956D) Unknown, probably Oakland Ca.

This piece might possibly be the New York Central Valley National Bank founded as discussed below in 1911, as there is no founding date on it. However, it is likely that the bank that made the pieces described below with 1892 founding date also made this piece a year earlier. This piece and the next described one were sold by a Californian eBay seller in November 2011 who said they were “most likely from the old Oakland Ca. branch because my folks use to bank there years ago.” Thus, I think Oakland a reasonable attribution here.

Central Valley National Bank since 1892 (1957D, 1958D, 1960D) Unknown but not NY and probably Oakland

These pieces have been sometimes erroneously attributed to NY or Central Valley, NY, as there was indeed a Central Valley National Bank there. However, the dates do not match. According to scripophily, the NY Central Valley National Bank was founded in 1911 and merged out of existence in 1972. There was also a Central Valley National Bank in Oakland, which is the only other Central Valley National Bank that I can find. These pieces are thus listed as likely, though not certain, to Oakland in the second edition of the California encased catalog. It would help to determine the date the Oakland bank was founded.

City Savings and Loan Association, 40 Years of Service unknown

This 1947 dated piece indicates an institution that was founded in 1907 or 1908. To find this piece, we need to locate a City Savings & Loan Association founded in either 1907 or 1908. A search on the Internet shows that there are many savings associations with this name, but with one more geographical word at the beginning, like Michigan City Savings & Loan Association, Border City, Gate City, Quarry City (etc.) but not many of just plain "city"s. Actually, the name suggests NYC to me, based on the thought of many New Yorkers that there is really only one "City," so there is no need for further identification. Indeed, there was a "City Savings & Loan Association" in the City but it is not this one. That institution did indeed have its name changed to City Savings & Loan Association in 1943 well in time for this

1947 piece, but it was founded as Ridgewood Savings & Loan Association in 1886 well before the required 1907 or 1908 date.

City Savings, 45th Anniversary (1952D cent) unknown

Seems like this would be the same institution with 40 years of service five years previously, although the name on the piece is shortened. Still, I can find no NY bank with this name founded in 1907 or 1908.

When this piece came on for sale on eBay in October 2006, the eBay seller incorrectly attributed it to Endicott NY based on the phone number. The phone exchange website was down

for quite some time but its valuable database became available again in October 2006 (http://ourwebhome.com/TENP/TENproject.html). It shows that Endicott was indeed an exchange in Endicott New York and in New York City, as well as several other large towns such as Cleveland, Ohio, Kansas City, Kansas and Wilmington, Delaware. This piece is from Cleveland, where 4000 Orange Ave. is just east of downtown and where the Food Terminal Restaurant was located.

Hamburg Savings Bank	either Brooklyn or Hamburg PA

1907, RD,35mm. Hamburg Savings Bank// [four arrows coming out of a common center each side] 1907\\ KMAAHM. Cent obverse faces encasement obverse. The Hamburg Savings Bank was chartered in Brooklyn on December 27, 1905, according to scripophily's New York bank history, and kept that name until 1985 when it changed it to Home Savings Bank. According to the New York Times, it had 13 branches and more than $900 million in assets in 1983. It was located on Myrtle between Knickerbocker and Bleecker, in a formerly heavily German neighborhood. In fact, the next block South of Knickerbocker Ave. in Brooklyn used to

be called Hamburg Ave., but it was changed to Wilson Ave. (its current name) in 1917 (wonder why that happened then?). As I mentioned above in the Buffalo section on the Gamler Jewelry company, addresses in cities have generally remained constant throughout the 20th Century; this was one exception, caused by the exigencies of war. I think it is likely that this piece was for the Brooklyn Hamburg Savings Bank. There was a Hamburg Savings & Trust Co. founded in Hamburg, Pennsylvania in 1872. The slightly different name suggests that Hamburg Pennsylvania is unlikely the correct attribution. EB (sold by RG when selling off his collection in 2007) $50

Howard's Motor Sales, Albany, LA - 5 - 8586	(CA)-ALB-HO-10,12

I had these pieces listed to Albany, New York in an earlier draft of this work, on the basis that reference to Albany alone was a reference to the fairly large capital city of New York. Also, Ray Howard is listed in Albany, N.Y. in the 1953 D & B in the used car business. But the phone number places the piece to Albany, California -- a very small town on the east side of the San Francisco Bay near Berkeley. The Internet phone exchange website lists LAndscape as an Albany/Berkeley exchange, while there was no LA exchange in Albany, New York. Still today, 525- numbers abound in Albany California and most phone numbers in Albany, New York start with 4, with 8 as the second most common starting digit. There are no 525s there. The completely matching Howard's Motor Sales is listed as a used car dealer in Albany, California in the 1953 Dun & Bradstreet.

Howie's Taxi Inc., Radio Dispatched, 24 Hr. Dial 4747 1948 unknown, perhaps Owego, New York

BP lists this piece as a (2) (likely) in his maverick catalog. But this business is not listed under Owego in either my 1940 or 1953 D & B.

Junior Shoe-Mode Parkchester (1946)	unknown maybe Bronx

This is AM(707) and BP listed it in issue 26 of the Casement as a (1), that is a very preliminary possibility, to Parkchester, a neighborhood of the Bronx in New York City. The only reason he did so was that the only other Parkchester he could find in the U.S. was Parkchester, Georgia, which was so small that no businesses were listed there in the 1955 D & B. I would imagine that this is likely either a shoe store or a shoe manufacturer of a shoe type for juniors or wholesaler. There is nothing listed under either Junior Shoe-Mode or simply Shoe-Mode in the Bronx in either the 1940 or 1953 D & Bs. I am not listing it in the NY catalog at this time, pending further information.

This piece was shown on the ECI website as one of TCn's pieces, which he then offered for sale on eBay in April 2009. Unverfied but much more likely to be from Massachusetts than New York. The Kennedy's Boy's Clothing maverick pieces were made from 1923 to 1960 and were from the large clothing store with headquarters in Boston. There is a piece sold on eBay without a cent, but which was from the early 1900s and it was for Kennedy's – Lynn, Taken as 50 Cents on any Suit or Overcoat. I suspect that is likely to be from Lynn Mass. Hyde Park Mass. was incorporated in 1868 and remained a separate city until 1912, when it was annexed by its much larger northern neighbor, Boston. Hyde Park, NY only had 700 people in 1914. There are 25 business listings under Hyde Park, New York in the 1914 Dun directory, none of them "Kennedy." Thus, I think it is much more likely this piece was from Mass. than NY.

Kern's Bicycle Shop, 1101 W. Broadway (1946) unknown

This is Bill Waken's piece. There was indeed a Kern's Bicycle Shop in Rosedale, near Laurelton, two neighborhoods of Queens near JFK airport, as evidenced by several nostalgic reports of Laurelton residents on the Internet. However, there is no 1101 W. Broadway in Laurelton. The reports that I have received from Laurelton residents are that the shop was on the Southwest corner of 233rd or 234th Streets and Merrick and still is there in 2010 just down the road at 226th and Merrick, but now called Laurelton Bicycle Shop, though still owned by the Kern family. There is a 11-01 Broadway in Long Island City, but that is way on the other side of Queens, and a 1101 W. Broadway in Woodmere, across the county line in Nassau county, although google street view shows it to be in a completely residential neighborhood. The location of this piece remains unknown, but I do not think Rosedale or Laurelton is likely to prove to be correct.

In an earlier version of this catalog, I had this as an unverified piece to NYC due to address and the fact that there are Lidos all over NYC, but DS pointed out that there is a club for chip collectors which purchased the records of Mason Co. of Chicago, which made the chips that they collect. A Lido chip has been attributed to the Lido Club, ordered from an address at 31st and Troost Streets, in KC, in operation in the mid-30s. 2 W 39th Street is also a valid KC address, just under 2 miles SW of the 31st and Troost address. It would appear likely that Lido

moved at some time during the 30s. DS also pointed out that calling a gambling joint, "Recreation" was very common in the south and west but very rare in the Northeast. Therefore, it now appears most likely that this is a KC piece, although it is not yet verified.

The eBay seller speculated that a corset shop might have been a cover for a brothel. "851 E. Tremont Ave." is a valid address in the Bronx, also in Charlotte N.C., also 851 Tremont is a valid address in Cleveland Ohio. But of these, the Bronx is far more likely – a view of the 1914 N.Y. Bradstreet directory shows a whole page of "Goldstein"s in Manhattan and the Bronx. I haven't listed this to the Bronx without more information, but it looks most likely.

Mutual Life of N.Y. Finance Bldg. Spruce 6770 (1911)	(PA)-(PHI)-MU-10

Although Mutual Life of N.Y. was headquartered in NYC, 32 Nassau Street to be exact, this piece is referring to the Philadelphia Agency. According to the 1917 Insurance Almanac, Mutual Life of N.Y. was the oldest life insurance company in America, having begun February 1, 1843. Spruce was an old Philadelphia exchange, the Spruce exchange in NYC was in Queens. The Finance Bldg. was a large building in Philadelphia. Thus, this piece must be referring to the Philadelphia location of the N.Y. insurance company. There is another 1911 piece, the -12, that says: "Philadelphia Agency Mutual Life of N.Y., Watch Us Grow, Visitors Welcome."

Even though this is not a maverick, I list it here in case someone is looking for it. I was told there was an old NTCA article about this piece, identifying it to Rochester, N.Y. This is a nice 1901 SH piece, and it clearly says, "N.H." right on the piece itself. Rochester is indeed a N.H. city, near Maine, NW of Dover. New City Hotel stayed in business in Rochester, N.H. for

a long time, it was still listed in the 1953 Dun & Bradstreet, although it was no longer listed in the 1960 edition.

Ohm Electronics 1969 1979 10th Anniversary	(IL)-(CHI)-OH-10

An interesting and perhaps duplicative name for an electronics company. An eBay seller of this piece guessed Ithica, New York, likely because "Ohm Electronics" was in business there when the piece was sold in 2015. Yet, I emailed them to see if they were founded in 1969 and they responded, "Sorry it's not us." An Internet site indicated that Marry Grossman of Chicago founded Ohm Electronics there in 1969 and then sold the company to Resource Electronics in 1988

Osborn, Bert, Syracuse Letter Co.	(NY)-(SYR)-SY-20
Our Anniversary, Years of Faithful Service	unknown, likely at least some in the NYC area

This is the kind of generic maverick piece that is unlikely ever to be attributed, unless more specific information comes to light about the piece. Here, 50,000 units of this round, 35mm piece were ordered by, and shipped to, Broadcast Specialties Copmany, 120 West 42nd Street in NYC in March 1951, as OR(1257). Did Broadcast Specialties give them all out? Did it order them for someone else or perhaps many someone elses? It is, of course, impossible that this business would itself have 50,000 employees that it would give the pieces out to. Thus,

more likely they intended to sell them to many of their customers, so that the piece was actually used by many businesses. The total cost to Osborne for so many pieces was an astounding for the time, $1347.50, which must believe Broadcast Specialties intended to recuperate.

Prosper, First National Pictures (1920) for 1922 event	unknown

This is a very interesting piece. I cannot find any "Prosper" movie or show done in the early '20s. First National Pictures was formed in NYC in 1917 to compete with Paramount. Its first star was Charlie Chaplin. It did not have a studio at first, but built one in Burbank in the 1920s, according to Wikipedia in 1926, several years after this piece had come out. Warner Brothers bought it out in the mid-20s. DF lists this piece under Burbank, California, but based on the foregoing, it is likely that Burbank became the location of this business after this piece came out. New York City is a possible attribution, but I do not yet have enough information to be sure. I would really like to know what "Prosper" is.

There is no listing for Rochester Bottling Co. in the 1941 Rochester N.Y. phone directory. There is a listing of Dover, N.H. directories from 1909-1917 on the Internet and in 1909, Rochester Bottling Co. was listed at 40 Third St. in Dover N.H., opposite B & M Depot. However, it is not listed under Dover in the 1940 Dun & Bradstreet. There is a Rochester N.H. about 10 miles NW of Dover. There was a Pepsi-Cola Rochester Bottling Company in Rochester NY in the 1990s.

When you think of it, geographically speaking West New York has to be in New Jersey as that state is what is directly west of New York City. The address on the pieces is not in Huntington and a bank with the name "Security National Bank," did not come into existence in Huntington until 1955. Instead, the bank was at this address in St. Louis, as evidenced by a 1953D piece with the Security National Bank name, 312 N. 8th St. address and St. Louis, Mo. on the piece.

Sigmund Schwartz Inc. is listed as an inactive New York entity on the New York Department of State. I did find three listings for Sigmund Schwartz in the 1914 D & B, but two were in the Grocery business and the third in the Restaurant business. There is no listing for Sig or Sigmund Schwartz in the 1940 D & B to NYC. Therefore, I think it unlikely that this piece was from NYC.

I once had these listed in the NY catalog under NYC as unverified pieces, now I think Chicago is most likely, particularly based on phone no. and the fact that the two addresses are only a block apart in Chicago. Remember NYC went to 7 digit phone numbers in 1930. Sol's Groc & Mkt is listed at 131 E. 47th in the 1953 Chicago directory. There is no building at the 130 East 26th Street address in Chicago today, it is now part of the Mercy Hospital parking lot – Harley Bissell reported to me that this was caused by a Mercy Hospital expansion, so that it is likely this was once a viable Chicago address.

This piece is AM(212) and was originally erroneously attributed to NYC, supposedly based on a listing in the Thomas Register of American Manufacturers. I became suspicious when I went to look for the company in my NYC reference books and could find no trace in any of them. A trip to its website showed that the California Prune and Apricot Growers Assn. was founded in California in 1917 as a growing cooperative. It eventually became the California corporation Sunsweet Growers Inc. It has always been based in California. Its main plant and 2002 business address is in Yuba City. Duane Feisel, cataloger of California encased coins, determined that the cooperative's headquarters were in San Jose in 1940, which was confirmed to me by an email from the company.

Brooklyn is always the first "suspect" for a business on a lettered Avenue. However, here the phone no. is only 5 digits: 5-8151, and so Brooklyn is out. Looking to the Texas usual suspects for lettered Avenues (see the description under West Side Drug, below), Dominic J. Termini is listed as a druggist in the 1953 D & B in Galveston. Therefore, Galveston is correct.

In 2001, Mogen David was indeed located in Westfield, NY, but also in California; I sent an email to their public relations department, but they did not know who Mel Weinberger was; an article in Wines & Vines from 2002 indicates that a USDA report showed that a Mr. Weinberger of Napa made syrup from the Mission grape in 1876. Certainly not this Mr. Weinberger. Another piece that came on for sale on eBay in 2007 showed that these pieces were probably made by a number of different Mogen David salesmen or distributors around the country. This one, with 1956D cent said: Harry H. Sacklove, St. Louis// Mogen David Wine. The Osborne records cleared this up although they leave some doubt as the pieces were delivered to salesmen and not directly to Mogen David or Mr. Weinberger. OR(5536) is for a 1956D version of this piece and OR(14658) is for a 1962 piece and both were ordered by Yale Sales Co., San Antonio. OR(16626) is for a 1964 version and was ordered by Harvey Advertising Co., Waco and listed Mel Weinberger's address as 205 Halbert Crescent, San Antonio.

Westchester Savings & Loan, 1901 Mannheim, Westchester, 1906-1966	(IL)-WES-WE-10

Although there was a "Westchester Savings & Loan Assn" in Westchester County, New York, the scripophily website shows that it first became operative in 1986, long after this piece came out. Also, the 1901 Mannheim address only matches for Westchester, Illinois, and the Westchester on the piece must be a city not a county (Westchester is a neighborhood of the Bronx but not a New York city). Although I could not find out when the Illinois Westchester Savings & Loan Association was founded, there are several references to it on the Internet.

Westchester Typographical Union, No. 828 (NY)-(WCY)-WE-10 (unverified)

West Side Drug, 31st at Ave. P, PR 8-2773 (1944) (TX)-(TEM)-WE-10

Brooklyn has Ave. P at E. 31st St., just S of King's Highway and West of Flatbush, but that does not look like the West Side of anything to me. There is a West End Drug listed in the 1940 and 1953 D & Bs to Brooklyn but no West Side Drug. President 8 was a Brooklyn exchange but according to the phone exchange website, that was in the Crown Heights neighborhood, about 4 miles north of this location. According to expedia, Galveston, Hondo, Lubbock and Temple Texas all have 31st St. and Ave. P too. Temple had a Prospect exchange. Although there was no West Side Drug in Temple Texas in either the 1940 or 1953 D & B, Dan Aglar listed this (1945 and 1944D cents) to Temple Texas in his Texas list. I did find "Westside Drug Store" in Temple in the 1961 D & B and looking at the piece, it looks more like a late 50s or early 60s piece and not like a 40s piece. Dan reports that he found the business with this phone and address in an early 1970s phone directory and he even sent me a picture of the drug store in Temple. That verifies the piece to Temple Texas and the above information suggests that the piece was made in the late 50s or 60s with cents from 1944 and 1945.

West Side Federal Savings & Loan Association (1950D) unknown

The ECI Wrangler maverick program (no. 26) has this listed, per George Breeding, to New York City. According to the scripophily website, there is a "West Side Federal Savings & Loan Assoc. of NYC." However, there are lots of other "West Side Federal Savings & Loan Associations," in the country, for example one in Vermilion and Fairview Park both on the west side of Cleveland, another near Cincinnati, a third in Grand Rapids, Michigan. I think it much more likely that this is not NYC, as NYC was in the official name of this organization but not on this piece, while there are other institutions with this exact name. I may never be sufficiently satisfied to attribute this piece to any one of those financial institutions.

However, the anniversary date does match exactly with Wolcott, Indiana and BP has correctly added this to his maverick list and the Indiana catalog.
